Legal Notices SANITARY CODE FOR A. & M. COLLEGE OF TEXAS ARTICLE 1-GENERAL Section 1. The Sanitary Board shall be charged with the enforcement of this Sanitary Code as well as all State laws regarding the handling of food and other laws relating to sanitary measures for the protection of public health.

ARTICLE 2-MILK Section 1. No milk may be sold or offered for sale on the campus, directly or indirectly, for student use, or served by the Subsistence Department, or in the project houses, unless it is Grade A pasteurized.

ARTICLE 3-MEAT Section 1. The provisions of this article shall apply to all meat and food products sold or offered for sale on the campus, either raw or cooked, by restaurants, cafes, etc., or served by the Subsistence Department or in project houses.

ARTICLE 4-FOOD HANDLING Section 1. This article shall apply to the Subsistence Department of the College, to project houses, and to all restaurants, soda fountains, confectionaries, meat markets and hamburger stands on the campus.

ARTICLE 5-PLUMBING AND SEWERAGE Section 1. Dwellings, including servant houses, on the Campus where sewers are available shall have water-flush toilets and sewer connections.

ARTICLE 6-ESTABLISHMENTS Section 1. This article shall apply to the Subsistence Department of the College, to project houses, and to all restaurants, soda fountains, confectionaries, meat markets and hamburger stands on the campus.

ARTICLE 7-MOSQUITOES AND FLIES Section 1. Departments of the College, residents and business houses shall use all practical precautions to prevent mosquito breeding by elimination or prevention of standing water.

ARTICLE 8-ROUSING Section 1. The provisions of this article shall apply to rooms on the campus and elsewhere which are rented to students of the College as bedrooms and combination study and bedrooms.

ARTICLE 9-MISCELLANEOUS Section 1. All dogs kept on the campus shall be vaccinated annually against rabies. A tag attesting to such vaccination shall be attached to a collar worn by the dog.

ARTICLE 10-DOGS Section 1. All dogs kept on the campus shall be vaccinated annually against rabies. A tag attesting to such vaccination shall be attached to a collar worn by the dog.

ARTICLE 11-REFUSE Section 1. Each residence, project house, store, restaurant, or other building where kitchen wastes or other vegetable or animal wastes are produced must be provided with a covered receptacle for refuse.

ARTICLE 12-TOILET ROOMS Section 1. Toilet rooms for employees shall be provided for employees to wash their hands after use of the toilet.

ARTICLE 13-PROPRIETORS AND MANAGERS Section 1. Proprietors and managers shall be expected to co-operate fully with the Sanitary Board in the enforcement of and compliance with, the provisions of the code.

Section 2. No dishes, receptacles and utensils shall be used that are cracked or broken in such a manner that washing and sterilization cannot be effectively done.

Section 3. Foods shall be protected from dust, flies, rats, mice, and other vermin. Foods so exposed or showing evidences of contamination by vermin, or of being wormy or decomposed shall be destroyed either by or under the direction of the representative of the Sanitary Board.

Section 4. Floors, walls, tables, refrigerators, ice boxes and counters shall be kept clean and shall be kept clean. Each construction shall be easily cleaned and shall be kept clean.

Section 5. Food handling establishments shall have running water, provision for supplying hot water, approved plumbing and sewer connections.

Section 6. Toilet rooms for employees shall not open directly into rooms used for preparing, storing or serving food. Toilet rooms shall be kept clean and facilities be provided for employees to wash their hands after use of the toilet.

Section 7. Proprietors and managers shall be expected to co-operate fully with the Sanitary Board in the enforcement of and compliance with, the provisions of the code.

Section 8. Each residence, project house, store, restaurant, or other building where kitchen wastes or other vegetable or animal wastes are produced must be provided with a covered receptacle for refuse.

Section 9. If garbage is fed to chickens or hogs, unclean residues shall be removed and buried or otherwise disposed of satisfactorily daily. Methods of disposal of such unclean residues shall conform to the requirements of the sanitary inspector.

Section 10. Combustible refuse shall be burned by householders only in incinerators of design approved by the Department of Buildings and College Utilities.

Section 11. Stores or other establishments which convey garbage and other refuse to points of disposal or arrange for such conveyance shall dump or otherwise dispose of refuse at such points or by methods prescribed by the Department of Buildings and College Utilities.

Section 12. Departments of the College, residents and business houses shall use all practical precautions to prevent mosquito breeding by elimination or prevention of standing water.

Section 13. Directions relative to elimination of mosquito breeding places which are given by the sanitary inspector or other person responsible for mosquito control shall be promptly complied with.

Section 14. Improvements, new structures, or other contemplated changes which will effect mosquito breeding shall be discussed with the Sanitary Inspector prior to completion of plans or starting of work.

Section 15. Fly breeding in stables, poultry houses, and in manure wherever produced, shall be prevented by the following means: 1. Daily removal of manure from stables.

Section 16. Manure shall be (a) spread on fields or (b) stored in fly-tight bins until spread on fields or (c) stored in compact piles until removed for spreading. If stored in piles compaction and use of borax or other larvicides shall conform to instruction of the sanitary inspector.

Section 17. Larvicides shall be used as directed in stalls having earth floors.

Section 18. Pens for horses, cattle, hogs, sheep, and poultry shall be well drained and kept free from manure and other putrescible matter. Manure shall be disposed of as prescribed in Section 4 above.

Section 19. Enailage shall be so handled that fly breeding will not occur and silos shall be drained to prevent fly breeding in nearby soil.

Section 20. Cows, horses, ponies, and other livestock, shall be kept by campus residents in the residence sections of College property, or adjacent to dormitories and project houses, only under conditions approved by the representative of the Sanitary Board.

Section 21. The provisions of this article shall apply to rooms on the campus and elsewhere which are rented to students of the College as bedrooms and combination study and bedrooms.

Section 22. Rooms shall have a volume equal to 600 cubic feet for each occupant.

Section 23. No occupied room shall have a smaller dimension than 7 feet and the total floor area shall not be less than 90 square feet.

Section 24. Each room must have at least and preferably two windows located to light it properly. The window area must be at least one-seventh of the floor area and at least one window shall have an area of 12 square feet or more. Windows must open in all their parts.

Section 25. Artificial light provided in study rooms shall be approved I.E.S. study lamps equipped with 75 watt frosted globes. One such lamp shall be provided for each study table.

Section 26. Windows shall be supplied with screens of not less than 16 meshes to the inch and the screens shall be tight fitting and kept in good repair.

Section 27. Occupants of rooms shall have access to lavatory, bath and toilet facilities that are approved by the representative of the Sanitary Board.

Section 28. Rooms, halls, wash and toilet rooms shall be kept clean and free from vermin.

Section 29. All dogs kept on the campus shall be vaccinated annually against rabies. A tag attesting to such vaccination shall be attached to a collar worn by the dog. The owner shall preserve a vaccination certificate issued by the veterinarian who performs the vaccination.

Section 30. Dogs not having vaccination tags attached to collars shall be considered as strays and will be subject to destruction by the college authorities.

Section 31. No campus resident, proprietor of a place of business or head of a college department shall permit a nuisance of any kind to exist upon property under his control.

The foregoing code has been adopted by the Board of Directors upon recommendation of the Sanitary Committee. Gibb Glickert, Dean School of Engineering J. E. Marsh College Physician James A. Watson Lt. Col., U. S. Army Chairman, Sanitary Committee

If all the boys and girls in the United States who were members of 4-H Clubs in 1939 were to join hands and form a circle it would have a diameter of about 500 miles. Texas was second among the 48 states in enrollment.

DO YOU NEED FURNITURE? I will sell you furniture at cash prices and lend you money to pay for it.
