

Legal Notices

ORDINANCE NO. 50

An Ordinance to establish the office of Electrical Inspector in and for the City of College Station, to regulate and define the duties of such office and to establish rules and regulations concerning the installation, operation and maintenance of electrical wiring and apparatus, to fix penalties for the violation of its provisions and repealing all laws in conflict therewith.

Be it ordained by the City Council of the City of College Station, Texas:

SECTION 1. The office of Electrical Inspector in and for the City of College Station, is hereby created and said office shall be filled by appointment by the Mayor, by and with the consent of the Council within sixty days after the passage and publication of this ordinance, and said Electrical Inspector shall hold office during good behavior and shall not be removed except for failure properly to perform his duties as prescribed in this ordinance or any ordinance or part of the ordinance regulating electric wires or apparatus now in force or which may be adopted. Said Electrical Inspector shall be a person well versed in the rules and requirements of the National Electric Code. Before assuming authority conferred by this ordinance the Electrical Inspector shall take an oath usually administered to other city officials, and shall give bond to the City of College Station in the penal sum of One Thousand Dollars (\$1,000.00) conditioned upon the faithful performance of his duties.

SECTION 2. Every corporation, co-partnership, association or individual owning or operating a line of wires over streets, alleys or buildings in this city, shall use

only wires that are suitable and strong; shall suitably secure and fasten them to strong and sufficient supports and insulate them at all points of attachment; shall remove all wires abandoned for use; shall suitably insulate every wire where it enters a building, and, if such wire is other than a wire designated to carry an electric light or power current, shall attach it to at suitable and convenient points in the circuit calculated to prevent danger from fire and near the place of entering the building, an appliance calculated to prevent at all times a current of electricity of such intensity or volume as to be capable of injuring electric instruments or causing fire from entering the building by means of such appliance is attached.

SECTION 3. No corporation, no co-partnership, association or individual shall be engaged in the business of installing electric wiring and apparatus within any building in the City of College Station for use in connection with electric light or power unless he shall have a "Master Electrician's License" to engage in such a business, said license to be issued in the following manner: An examining board shall be appointed by the Mayor to consist of the chief engineer as chairman and two other persons, one of whom shall be an electrician, these two persons to hold office at the pleasure of the Mayor. The examining board shall receive applications for licenses and examine the applicants in such manner as it may see fit. If a majority of the board favors granting it, the chairman shall so certify to the city secretary who shall then, after payment of the fees specified in Section 4, issue a license to the applicant.

SECTION 4. No "Master Electrician's License" shall be issued except upon payment of a fee of Fifteen Dollars (\$15.00) to the City Secretary, together with the filing of a bond of Five Hundred Dollars (\$500.00) conditioned upon compliance with the ordinance of the city regulating electric wiring and apparatus and the faithful performance of all contracts entered into for the installation of electric wiring and apparatus inside any building for use in connection with electric light, heat or power. The license shall be renewed each year after date of issue upon payment of Five Dollars (\$5.00).

SECTION 5. Any failure on the part of the holder of a "Master Electrician's License" to comply with the provisions of any ordinance of the City regulating electric wiring and apparatus shall be deemed sufficient cause for revoking said "Master Electrician's License" together with all rights and privileges thereunder and the forfeiture of the bond filed pursuant to the requirements of Section 4 of this ordinance.

The City Secretary is hereby authorized to refuse to issue a "Master Electrician's License" to any previous holder or one which has been revoked or to any corporation, co-partnership, association or individual with which said holder is associated.

SECTION 6. The amount realized upon the forfeiture of and above the expense involved in its forfeiture shall be expended in making the necessary changes in the electric wiring and apparatus found to be in violation of the provisions of this ordinance or deficient in quality or other particulars as specified in the contract or contracts entered into and covered by the bond, and the unbalance, if any, shall be paid into the City Treasury.

SECTION 7. All wiring for electric light or power hereafter installed in churches, theatres, other places used for public gatherings and all buildings within the fire limits in the city of College Station shall be installed in suitable approved metallic conduits, and all such wires hereafter installed in unfinished basements in all buildings other than dwellings designed for the occupancy of not more than three families, shall be likewise placed in similar conduits.

SECTION 8. It shall be the duty of the Electrical Inspector to enforce the provisions of this ordinance or any ordinance or ordinances now in force or which may hereafter be adopted concerning electric wiring or apparatus.

SECTION 9. No wire or wires shall be installed, operated or maintained over any street, alley, sidewalk, or building in this city which shall be liable to seriously interfere with the work of the Fire Department in the use of ladders or other apparatus, or which shall obstruct or render hazardous the use of fire escapes, and on complaint of the fire chief, said obstruction or interference with wires shall be removed or properly rearranged.

SECTION 10. Wherever possible and expedient signal wires shall not be carried on the same pole with or in dangerous proximity to high potential electric light or power wires and where a joint occupancy pole line composed of these two classes of system is necessary, or where the routine traversed by these systems cross each other, the high potential electric light or power wires shall be placed and maintained not less than four feet above every signal wire, and where it is impossible to provide for such a separation it shall be the duty of the Electrical Inspector to arrange and enforce an equitable and safe alternative plan.

SECTION 11. The said Electrical Inspector shall make a thorough inspection of all electric wires and apparatus within the City of College Station at least once in each year, and where wires or apparatus are in dangerous or unsafe condition, or are deemed to be an interference with the work of the Fire Department, he shall notify the person, firm or company owning, using or operating them to place them in a safe, secure and non-interfering condition. Any corporation, co-partnership, association or individual or

Placement Bureau Prepares To Distribute Blank Forms To Seniors

Continuing its work of helping senior students and ex-students secure desirable employment, the Placement Bureau of the Association of Former Students, is preparing to distribute to all members of the class of 1941 a form for the Placement Bureau and a bulletin of information to the seniors, Lucien M. Morgan, director of the Placement Bureau, announced yesterday.

The form to be filled out includes all the information for the leaflet, and also additional information to be kept by the Placement Bureau.

The Placement Bureau was established last year by the Association of Former Students and the faculty. It is financed by the dues of members of the Association.

These placement forms will be distributed through the department in which the seniors are taking their major work.

Full cooperation is asked of the seniors in order that better results may be obtained through the Placement Bureau, Mr. Morgan stated. Even though a senior has secured employment after graduation, he is asked to fill out the Placement Bureau forms in order that his permanent record may be started.

After the placement forms have been filled out and turned in to the placement office, a condensed personnel record is printed in the form of a leaflet which contains a photograph of the senior and all information necessary to a prospective employer. This leaflet is turned over to the various departments of the college who make them up into booklets to be mailed to prospective employers.

Cost of the leaflets is \$4, the only charge made by the placement bureau; it covers only the cost of printing. One hundred and fifty leaflets are printed and become the property of the senior. A recent photograph is necessary to be printed on the leaflet.

Two thousand Baptist students from all of Texas' colleges will attend the annual Texas Baptist Student Convention at Baylor University, Waco, next week-end (Oct. 18-20). Featured speakers will be dynamic Charles A. Wells (lower left), international traveler and newspaper cartoonist, and J. W. Bill Marshall (center right), state secretary of the student group, who has just returned from four months of volunteer missionary work among Chinese young people. Bill Kent (upper right), student in Texas A. and M. college, is state B. S. U. president. Special music will be furnished by two Baylor groups, a trio (upper left) composed of LaRue Richards of Dalhart, Mary Hughes of Abilene and Mary Lee Dearen of Quanah; and the Vincent sisters (lower right)—Alyce, Agnes, Alma and Margie—of Nunez, La.

agent thereof failing, neglecting, or refusing within a reasonable time to make the necessary repairs or changes, and have the necessary work completed within a reasonable time after the receipt of said notice, shall be deemed guilty of violation of this ordinance and every day which shall elapse after the expiration of said reasonable time until said wires and apparatus are repaired, removed or changed as required by said Electrical Inspector shall be considered a separate offense within the intent and meaning of this ordinance.

SECTION 12. The Electrical Inspector and with the consent of the Mayor and City Council shall have power to deputize one or more assistants, and each one of said assistants shall be a person known to be competent to discharge the duties of Electrical Inspector and the rights and privileges conferred upon the Electrical Inspector are hereby conferred upon each assistant to the Electrical Inspector when properly appointed.

SECTION 13. The said Electrical Inspector or competent assistant appointed by him shall have the right during reasonable hours to enter any building, manhole or subway in the discharge of his official duties, or for the purpose of making any test of the electrical apparatus or appliances therein contained, and for that purpose he shall be given prompt access to all buildings, manholes and to all manholes and subways on application to the company or individual owning, using or operating the same.

SECTION 14. The words or terms "Electric Wiring and Apparatus" as used in this ordinance shall be construed to include all electrical apparatus, devices, appliances, appurtenances or conductors used in connection with the production of electric lights, heat or power or the transmission of electric signals, except where specifically limited to one or more of them and then only as specifically limited.

SECTION 15. The Electrical Inspector shall decide all questions not provided for in this ordinance pertaining to the installation, operation or maintenance of electric wiring and apparatus.

SECTION 16. All electric signs shall be erected under the supervision of the Electrical Inspector.

SECTION 17. No corporation, co-partnership, association or individual or agent thereof shall hereafter conceal or cause to be concealed any electric wiring or apparatus mentioned in this ordinance except with the express permission of the Electrical Inspector and he is hereby authorized and directed to remove any floor, lathing or plaster, sheet metal or other material which may conceal any electric wiring or apparatus contrary to the provisions of this ordinance.

On completion of the inspection of any electric wiring or apparatus designed to be concealed or to be in full compliance with the provisions of this ordinance, it shall be the duty of the Electrical Inspector to post a notice to that effect at the main entrance center, and said notice shall be considered as an express permission to conceal said electric wiring and apparatus, but any concealment shall take place until such notice has been posted by the Electrical Inspector.

SECTION 18. The chief Engineer of the Fire Department or any Electrical Inspector, or a competent person delegated by them or either of them shall have the power to at once cause the removal of all wires, or the turning off of all electric current where the circuits interfere with the work of the Fire Department during the progress of a fire. The said Electrical Inspector is hereby authorized and empowered to cause the turning off of electric current from all conductors or apparatus which are deemed by him to be in an unsafe condition or which have not been installed in conformity with the provisions of this ordinance and from which the said Electrical Inspector has caused the electric current to be turned off.

SECTION 19. No alteration or change shall be made in the electric wiring or apparatus located within a building for use in connection with the production of electric light, or power, nor shall any such electric wiring or apparatus be installed in any building without first securing from the said Electrical Inspector a permit therefor, nor shall any change be made in any wiring or apparatus after inspection without notifying the said Electrical Inspector and securing a permit therefor.

SECTION 20. Before issuing a permit for the installation of any wiring or apparatus or the alteration or change of wiring or apparatus as provided in Section 19, an application shall be filed with the Electrical Inspector describing with plans and sketches such installation or the alteration or changes to be made, including the apparatus and material used. No deviation shall be made in the work for wiring or apparatus as shown on application without permission from the Electrical Inspector in writing. In panels or electrical installations the person, firm, or corporation, doing the work shall post a legend showing the name of

said person, firm, or corporation and a diagram showing what work was done.

SECTION 21. Upon the completion of the installation of electric wires and apparatus in any building for use in connection with electric light, heat or power, it shall be the duty of the corporation, co-partnership, association or individual doing the same to notify said Electrical Inspector or competent assistant deputized by him who shall at once inspect the same, and if approved by him shall issue a certificate of satisfactory inspection which shall contain the date of inspection and outline of the results of such examination, but no certificate shall be issued unless all apparatus until a certificate of satisfactory inspection is issued. All electrical construction, all material and all apparatus used in connection with electrical construction, all material and all apparatus used in connection with electric work, and the operation of all electrical apparatus, shall be in conformity with the rules and regulations set down in what is known as the "National Electrical Code", a copy of which is on file in the office of the City Secretary of the City of College Station. Provided also that no boxes, steel tubes or box cables shall be used.

SECTION 22. Any corporation, co-partnership, association or individual or agent thereof desiring to place any pipe, sheet metal or other material within six inches of any electric wire or wires installed for use in connection with electric light, heat or power shall before proceeding with the execution of the work, obtain from the Electrical Inspector a permit therefor, and in completion of said work and said permit shall be returned to the Electrical Inspector or agent thereof shall notify said Electrical Inspector who shall inspect the same and cause all wires to be placed in a safe and secure condition. Provided, however, that nothing in this section shall be construed to refer to wires installed in approved conduit or armored cable.

SECTION 23. No corporation, co-partnership, association or individual or agent thereof shall interfere with the Electrical Inspector or any competent person or persons lawfully deputized to assist him as herein before provided, while in the performance of duty and each such interference shall be deemed to constitute a separate offense within the intent and meaning of this ordinance.

SECTION 24. The said Electrical Inspector shall keep a full and complete record of all work done, permits issued, examinations made or other official work performed as required by this ordinance and shall be so arranged as to afford prompt information concerning the condition and general arrangement of any electrical equipment at the time of the Electrical Inspector's last visit.

SECTION 25. This ordinance shall not be construed to relieve from or lessen the responsibility of any corporation, co-partnership, association, individual or agent thereof; installing, operating or controlling any electric wiring or apparatus for damages to anyone injured thereby, nor shall the city be held as assuming any liability by reason of the inspection herein or certificate or permit issued pursuant to the provisions of this ordinance.

SECTION 26. Any corporation, co-partnership, association, individual or agent thereof found guilty of violation of any of the provisions of this ordinance shall be fined not less than Five Dollars (\$5.00) nor more than Fifty Dollars (\$50.00) and the cost of prosecution for each and every offense.

SECTION 27. All ordinances or parts of ordinances in conflict herewith are hereby repealed.

SECTION 28. This ordinance shall take effect and be in force from and after its passage, approval and publication.

Civil Service Exams

An examination has been announced, and is now open until further notice, for procurement inspectors in the Materiel Division, Air Corps, War Department, at Wright Field, Dayton, Ohio. The Civil Service Commission states that there is an urgent need to fill these positions. Qualified persons are urged to apply at once.

There are three grades of positions as follows: The full grade, paying \$2,300 a year; senior grade, \$2,600 a year; and the assistant grade, \$2,000 a year. The examination includes six branches of inspection work—aircraft, engines, instruments, parachutes, aircraft propellers, and tools and gauges.

Applicants will not be given a written test. They will be rated upon their education and experience as shown in their applications, subject to verification by the Commission. Senior inspector applicants must have had at least seven years, inspectors at least six years, and assistants at least four years, of (a) mechanical experience (which may include apprenticeship), in one of the major skilled trades in the optional branch chosen, with an aircraft manufacturing plant inspection; or any time-equivalent combination of the two. Applicants may substitute college course in engineering for the experience.

Persons experienced and interested in this type of work should apply for details and the proper application forms to the Secretary, Board of U. S. Civil Service Examiners, Wright Field—Fairfield Air Depot, Wright Field, Dayton, Ohio; to the Secretary, Board of United States Civil Service Examiners at any first- or second-class post office; to the United States Civil Service Commission, Washington, D. C., or to any of the Commission's district offices.

Novelist Sinclair Lewis has joined the University of Wisconsin faculty as a teacher of creative writing with the rank of professor.

University of Minnesota ranks seventeenth among 218 colleges and universities in number of graduates in foreign service.
