FOUND: C. G. Conn Ltd. Cornet. Identify same by seeing James Hill, 104 No. 5.

FOUND: In P. O. Lobby, a sum of money about Wednesday of this week. (Oct. 23rd). Owner please call at P. O. and identify same.—ANNA V. SMITH, Postmaster.

FOR RENT: GARAGE AT 307 Fairview, \$2.50 per month.

## Watkins—

(Continued from Page 1)  
 B. Marburger, F. W. Hensel, R. P. Marsteller, J. B. Bagley and Judge A. S. Ware.  
 Pallbearers for Miss Watkins were George B. Wilcox, Dr. F. L. Thomas, Tolliver Burtis, Luke Patranella, F. A. Lipscomb, and W. F. Davis.  
 Captain Watkins has been connected with the Building and Grounds Department of A. & M. for 30 years, retiring September 1, 1937. He came here in 1907, and was for many years a familiar sight around the campus until he became ill. He was born in Marshall, Texas.  
 He was 83 years old when he died and his daughter was 38.

## Killough—

(Continued from Page 1)  
 Service, and the National Cotton Council were the factors helping cotton on the road to recovery. Although cotton is at a low ebb at present, conditions point to an early rise. That cotton producers must lower cost of production by more economic methods of harvesting and must increase the yield per acre by the use of fertilizer and insecticides was said by Killough to be the two main factors necessary before better prices could be secured.

Earl Parson, graduate '20, was among those who attended the meeting. Parson is a well-known buyer for the firm of Clayton & Co. of Houston.

## Fountain—

(Continued from Page 1)  
 members of former graduate classes. The flagpole in front of the administration building is a gift from the class of '39 and the flagpole in front of the academic building is a contribution from the graduating class of '34. In addition to the new fountain members of the class of '38 are working on plans to construct a platform for yell practices.

## Ex-Student—

(Continued from Page 1)  
 representative even though the car was not noted for speed. He kept the Model-T nearly four years and sold it for \$5.00 less than he gave for it. He had no opponent for the representative chair his third term there but didn't fail to campaign during that time.

When Marvin Jones was appointed as a Federal Judge, Worley immediately announced his candidacy for the seat in Congress which Jones vacated. He is the same age as was Jones when he was first elected to Congress. Worley had six opponents in the race for Congress.

So, Worley goes from a seat in a Model-T Ford to a seat in Congress in six years—Mr. Worley Goes To Washington.

## Chem Course—

(Continued from Page 1)  
 investigated the character of the course offered here.  
 "This approval covers the course of study for those students who make chemistry their major study for degrees and states that in the judgment of the ACS, Texas A. & M. College possesses the facilities and offers instructions for students to become specialized for the professional training chemists require in the field of research in industry and government," Dean Brooks explained.  
 The University of Texas and Rice Institute are the only other colleges in Texas which have received this approval.

## Concert—

(Continued from Page 1)  
 the observer will see that for him, music is something artistic, not a hob-nob something but for his life, and so we find him using only the slightest, simplest gestures; the graceful, circular movements of his hands and flexible though magic fingers of his hand, Kryl moulds and forms his music such as a fine sculptor would do, modeling each phrase, each passage, and seemingly at times, each individual note . . . not a cold harsh, mechanical time beater, but a living part of the music himself.  
 Katherine Landry, soprano, will appear on this program in operatic arias and in songs which will appeal to the music public. May Hopkins, young beautiful American harpist, will also appear as soloist. Pravoslavich Krech, Czech violinist of note, will accompany the symphony as soloist.

## Civil Service Positions For Ordnance Open

The United States Civil Service Commission announces open competitive examinations for filling positions in the various grades of Inspector, Ordnance Material, in the St. Louis Ordnance District, salaries for which range from \$1620 a year to \$2600 a year. Qualified persons are urged to file their applications immediately with the Manager, Ninth U. S. Civil Service District, 627 New Federal Building, St. Louis, Missouri.  
 Full further information and application blanks may be obtained from the Secretary, Board of U. S. Civil Service Examiners, at any first or second-class post office in the St. Louis Ordnance District; or from the Manager, Ninth U. S. Civil Service District, 627 New Federal Building, St. Louis, Missouri.

Faith is the major power that binds people together into homes, friendships and communities—Harry Emerson Fosdick.

## 25,000 Specimens Give A & M Largest Wildlife Collection in the Southwest

Texas A. & M. College has on its campus the largest collection of birds, mammals, reptiles, amphibians, and fish in the southwest. These specimens, used in teaching and research, are housed partly in the Animal Husbandry Pavilion and partly on the top floor of the Agricultural Engineering Building.

The collection consists of more than 1,500 specimens of mammals, 2500 birds, 500 reptiles and amphibians, and 20,000 fish. Most of these specimens were collected in Texas by personnel in the Fish and Game Department and the Texas Cooperative Wildlife Research unit at Texas A. & M. College and by staff members of the Texas Game Fish, and Oyster Commission. A few specimens have been secured from such places as Mexico, Asia, and Africa. This collection has a value of several thousand dollars and constitutes one of the most important bases for wildlife work in Texas. "It is useful not only in teaching and research, but it is an added service to the people of Texas who are becoming more and more conservation conscious." Dr. W. B. Davis of the Fish & Game Department pointed out, "as we are now in a position to identify this or that bird, mammal, or fish for them."

The collection, now four years old, is sponsored jointly by the department of Fish and Game, School of Agriculture, and the Texas Cooperative Wildlife Research Unit with Dr. Davis in charge of the division of birds, mammals, amphibians, and reptiles, and Dr. Kelshaw Bonham in charge of the fishes.

Officers of the club are as follows: president, Jack Hollimon, Houston; vice president, E. C. Ellis, Crockett; secretary, Fred H. Donovan, Chillicothe; treasurer, David Britain, Amarillo; sergeant at arms, Harris M. Browder, Groesbeck.  
 Hal Haltom was elected chairman of the entertainment committee who in turn appointed Walter M. Lee and B. F. Sullivan as his committeemen. Cigars were served after the meeting adjourned.

## Search for Spurs Shows No Scarcity

Although a certain English professor calls the old cowboy spurs "horse riding instruments," spurs at A. & M. are not nearly so scarce as this would indicate.

In a search for spurs to use for demonstration in a public speaking class, an A. & M. student found more spurs than he could carry. In just four rooms from four different boys he found seven pairs of well-worn cowboy spurs and several pairs of military spurs. But even this was not the total. On his way back to his room four other boys offered their spurs. There were calf roping spurs, bronc riding spurs, bull riding spurs, spurs for short men, spurs for tall men, in fact, spurs of nearly every description.  
 One pair had an interesting history. They were made by an eastern blacksmith for a short man; and because the blacksmith thought the man would need a long-shanked spur to reach his horse, the spurs had a very long shank. The funny thing was that anyone familiar with riding knows that tall long-legged men wear long-shanked spurs and short-legged men wear short shanked spurs.

DO YOU SMOKE THE CIGARETTE THAT SATISFIES

*It's the Smoker's cigarette*

COOLER...MILDER BETTER-TASTING

Chesterfield has all the qualities that smokers like best—that's why it's called the SMOKER'S cigarette. Smoke after smoke and pack after pack, they give you more pleasure.

Chesterfields are made of the RIGHT COMBINATION of the world's best cigarette tobaccos.

SUSANNE TURNER, MARY STEELE and JEAN DONNELLY members of the Women Flyers of America

IN INCREASING NUMBERS every year, visitors from all over America sign the guest book in the reception room at Chesterfield's three factories. The factories are open to the public on every business day. (As seen in the new film "TOBACCOLAND, U. S. A.")
