Only a limited number of students will be permitted to join the Film Club this year, S. B. Zisman, president of the club, stated today. This is the first year students have been permitted to join and as yet arrangements have not been made to accommodate a large number.

The first program of the year is expected to be held next week, officers of the club announced as soon as plans for the picture, subscriptions and theatre arrangements can be completed. "Harvest" and "The Baker's Wife" are two of the pictures the club is trying to obtain. Most of the pictures will be of Spanish, Mexican and French origin, some even in the language of the country from which they will be obtained.

Students who have an interest in this type of film and are planning to join the film club should contact Zisman at the Architecture department or S. O. Brown at the Biology department. Single Grade Report, Rather Than Two As Before, Out Nov. 16

A single deficient grade list will be made on November 15 this year instead of one on November 1 and one on December 1, Registrar E. J. Howell said yesterday. The college executive committee decided to experiment with one report because they thought it unnecessary to send out two reports just one month apart. They said if a cadet is failing a subject the November 16 grade will give him plenty of time to get to work on it, and if he thinks he is too far gone, it won't be too late to drop it.

The change from the two lists to just one and the date is all that has been changed. The regulation that says if a cadet is passing less than 10 hours he is subject to be dropped from the college rolls for lack of scholastic standing, still stands.
