ENTOMOLOGY CLUB
 The Entomology Club will hold a meeting tonight. William P. Davis of the Entomology Department will speak. Business to be discussed at the meeting will be a Christmas party and continued work on the Texas Aggie Entomologist.

FENCING CLUB
 The Fencing Club will meet Friday, December 6th at 7:30 P. M. in room 203 Agricultural Building. Everyone interested in the sport is urged to attend.

JUNIOR COLLEGIATE F.F.A. CHAPTER MEETING
 The Junior Collegiate Chapter of Future Farmers of America will meet Thursday night in the Agriculture Engineering Lecture Room at 7:30.

LANDSCAPE ART CLUB
 There will be a meeting of the Landscape Art Club in the Landscape Drafting Room, Thursday at 8:00 o'clock. All students majoring in Landscape Art are urged to be present.

COMANCHE COUNTY CLUB
 Comanche County Club will meet Friday night at regular meeting place at 7:30.

PRE-MEDICAL SOCIETY
 Dr. Lamar Jones of Bryan will address the Pre-Medical Society tonight at 7:30 in the Biology Lecture Room.
 A list of those members of the club eligible for keys will be available at the meeting.

PLANT SCIENCE SEMINAR
 The Plant Science Seminar will have its regular meeting on Thursday night, from 7:30 to 8:45 P. M.
 Place—Conference Room, Agricultural Experiment Station Bldg.
 Date—Thursday, December 4, 1940.
 Speaker—Prof. C. B. Godbey.
 Title—"Partition of Chi-square into its components, when applied to certain genetic ratios."

AZTECA CLUB
 The Azteca Club will hold its regular meeting Friday night at 7:30 in Room 217, Academic Building. All members please be present as important matters will be discussed.

MARKETING AND FINANCE
 There will be a meeting of the Marketing and Finance Club Thursday night in the "Y" Chapel. Plans for a dance will be discussed.

YOUNG COUNTY BOYS
 There will be an important meeting of the Young County boys tonight in room 110 Academic Building at 7:00 o'clock. It is very important that everyone be there so that final plans for the Christmas dance can be made.

A.L.E.E.
 There will be a short but important business meeting of the A.L.E.E. tonight after supper in the lecture room of the E. B. Building. Everyone please be present.

FOOD GROUP
 The Ways and Means With Food Group will meet Thursday at 3 o'clock in the home of Mrs. F. W. Jensen.

TSCW Exchange

Hearts Are Broken, But Girls Agree Aggie Football Team Is Still Champ

By Dorothy Schmittgens
 Editor, The Lass-O

It will be a long time before starts smiling again. Classes were forgotten Thursday afternoon, and through the buildings could be heard reports from the Texas-Aggie game. Broken-hearted with the Texas lead during the first minute of play and the apparently futile attempts of the fighting Aggies to break through the State line, TSCW girls gritted their teeth and tried to bear a defeat that was beyond the comprehension of the blind faith they have. But even with heavy hearts, the Aggie number 1 supporters in Denton agree that the Aggies don't have to win any title to be champions with us.

Rain Doesn't Dampen Spirits

Texas' flood-threatening rainfall cut into the coveted Thanksgiving holidays, and worried TSCW girls admit that early Thursday they gave up the attempt to keep curls in their hair and powder on their noses.

Municipal Eng.
 (Continued from Page 1)

it is only appropriate that a special course be developed to train men for this specialized work. In the past there have been several courses given in the agronomy department which contributed to the development of men for soil survey work, but only one course designed to give men the practice they need. Therefore, the old one hour course in soil mapping, designated as Agronomy 410, which was only a laboratory course, has been replaced by a new four hour course bearing the same number and called Soil Classification and Mapping. This new course with three hours of theory and a four hour laboratory will be taught by a man who returned to the agronomy department in September of this year after a year's leave of absence from the college during the 1939-40 session to get actual field experience in soil survey work in the United States Department of Agriculture.

Davis Named

FOR RENT—New four-room apartment with private bath. Newly furnished, including electric refrigerator, and garage. Located in College Hills Estates near campus. Ben D. Alexander, 4-5504.

Sunbeam riders from South Texas Sunday evening tell the hair-raising story of their train crossing a bridge a split second before it washed away. But the best story of any of them is the one the girls who were twice blessed and got an extra day of vacation because of "high water."

Santa Claus Comes Early
 "Santa Claus is coming to town" for the seniors at TSCW and for many of the Aggies as well when the senior class gives their annual Christmas dance Saturday night, Dec. 7 from 10 to 12 o'clock in the Stoddard recreation room.

Featuring an old-fashioned Yuletide atmosphere, the dance will revolve around a large fir Christmas tree to be placed in the center of the dance floor. Bells, tinsel, and Santa Claus will be included in the decorations. Cline's Collegians of SMU will play for the dance and help get the seniors and their dates in a "night before Christmas" mood.

CIA of 1920
 Arranging for a date at TSCW through the office of the dean of women sounds like something for Robert Ripley, but it was a reality 20 years ago on "blue serge hill."

Getting the date was only the first step, because entertainment was a problem. You could visit in the living room until 10:15 or go to a show—well chaperoned by a faculty member—if you were sure that it was the only night movie she attended during the semester. Upperclassmen, in due significance of their positions were allowed special privileges. They could read in the library at night, if they left the dormitory before 7 o'clock and presented a slip from the librarian on their return!

Fish Nominat Beauties
 Freshmen took the first step toward the selection of the school beauties for the 1940 Daedalian Annual when they nominated eight girls in last Tuesday's assembly.

Prospective beauty candidates are Mary Margaret McCarthy, Aggie-Day Sweetheart, Anna Ruth Ashe, Betty Bowman, Connie Lindley, Virginia Farrell, Ruth Tillie, Lena Marie Adams and Iris Joyce Bageley.

The class will narrow the selection down to four at a later voting, and the final selection will be made by a judge not yet selected, said Betty Ewing, editor of the annual.

GEORGE'S CONFECTIONERY

What kind of Math do you call this?
 It sounds crazy—but let's see how it would be perfectly possible in the telephone business. Suppose an improved method is devised that clips just one second from the time required to handle one toll ticket in the accounting department. Apply this method throughout the Bell System—handling an average of some 55,000,000 toll tickets each month—and it would effect a monthly saving of nearly 1 1/4 years!

A second saved here, an unnecessary step cut out there—on such close attention to "little" things rests the Bell System's ability to provide the finest, fastest, cheapest telephone service in the world.

Why not telephone home often? Long Distance rates to most points are lowest any night after 7 P. M. and all day Sunday.

first to contact the ice-bound Amarillo last week-end when all communication wires to the Texas city were cut off. Contacts were made with W5CYX in the Amarillo Globe-News Building, a station that was operating on a small gasoline generator.

Because the only communication with the outside world was through amateur radio, some of the first messages to come through the TSCW station were train schedules. Telegraph wires were down and trains were lost on the main routes.

Police bulletins went back and forth from Lubbock to Amarillo via Denton. All records of damages, aids, and weather conditions were kept constantly on the radio sound waves. Denton was the connecting link between the Panhandle country and Kansas City and other large cities where they asked for supplies and helpers.
