

JOHN HENRY MASHBURN, graduate of the class of 1940, of Childress, was married to Mary Louise Williamson, daughter of Mrs. Mary E. Williamson, Saturday afternoon at 4:45 in the Church of Christ at College Station with Rev. R. B. Sweet as officiant. Mashburn is the son of Mrs. Wade Jones of Childress and is teaching industrial Education at Luling, Texas. The bride is a graduate of Southwest Texas State Teacher's

43 A. & M. Owned Holsteins Complete Successful Test-Year

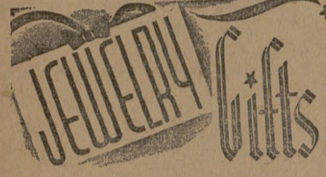

Forty-three registered Holsteins owned by Texas A. & M. College, produced enough milk during the past test-year to provide 166 families of four with four quarts of milk daily for the entire year, according to a report of the Holstein-Friesian Association of America. The average production per cow was 410.3 pounds butterfat from 12,173 pounds milk.

The average cow in the herd produced nearly 2½ times as much butterfat as the country's average dairy cow, using U. S. Department of Agriculture statistics as the basis of comparison. Thirty-one members of this Holstein herd were milked three times daily, the remainder twice.

The highest producer in the herd was the five-year-old Paulantha Lady Maid that produced 18,974 pounds milk with 598.4 pounds butterfat in 335 days on three milkings daily.

The production records obtained by having these cows on test will be useful in planning a breeding program for the future improvement of the herd.

Testing was supervised by The Holstein-Friesian Association of America, Brattleboro, Vt.

Annual Houston A. & M. Club Dance To Be Held December 23 at Plantation

The annual Houston A. & M. club dance will be held Monday night, December 23, at the Plantation, president James R. Lane announced today. Louis Panico and his orchestra, coming from Chicago's Edgewater Beach Hotel, will play for the event which will last from 9 till 1, Lane said.

William T. Grisham is general chairman of the dance, and his committee includes John T. Cox, David Ball Jr., Gus Standish, E. R. Keeton, H. O. Johnson Jr., Ross Staine, Jack M. Nagle, William A. McKenzie, Roy D. Cassidy, F. A. Nice, Richard H. Suman, Raymond R. Read, Douglas S. Barker, Weldon McReynolds, Harry W. Gill, G. B. Beeler, H. W. Heitmann Jr., William L. Shirley, J. R. Spiller, and Grover Mushaway.

"This will be the biggest dance ever sponsored by the Houston A. & M. club," Grisham said, "and in particular are we anxious to have the members of the junior and senior Houston ex-student organizations, the members of the Houston A. & M. Mother's club and Aggie parents present at the dance."

Exclusive use of the Plantation has been obtained by the organization for the dance and admission is by personal invitation. Houston ex-students who wish to attend the function should get in touch with Lane at College Station, Grisham said.

Part of the program will be set aside for a contest to select a girl to represent the club as duchess

1500 Turkeys Are Killed and Dressed In Aggie Meat Lab

Does it pay to dress turkeys and ship them to the New York market or it is more profitable to sell them at live weight locally, is the question that several Brazos County turkey raisers intend to answer this week.

Under the supervision of L. V. Halbrook, teacher of vocational agriculture at Bryan high school, a dozen raisers killed and dressed 1500 turkeys at the Texas A. & M. College meats laboratory. They have been graded according to market standards by George P. McCarthy, poultry husbandman of the Texas A. & M. College Extension Service, and shipped to New York by express where they will be sold and the proceeds divided cooperatively among the growers.

Brazos county produces approximately 20,000 turkeys annually and in the past has sold them on foot to dealers but in order to find out which is the more profitable, they are shipping one carload to New York as an experiment.

George Cargill is president of the Brazos County Turkey Raisers Association and is the man behind the test. Among others cooperating are Sam B. Pate, of Harvey, and Howard Todd, secretary of the association, both raisers of large flocks.

at the annual A. & M. Cotton Pageant and Ball next spring. Any date of a Houston Aggie who is a member of the organization will be eligible for the honor, Lane said. "The Aggie escorting the girl selected will also serve as her escort in the Cotton Pageant," Lane said. He further stated that the judges for the contest would be announced in a few days.

Officers of the Houston A. & M. club include, besides Lane, C. J. Bland, senior vice-president; Grisham, junior vice-president; Paul O. Egner, secretary; and A. C. So-Relle Jr., treasurer.

BRAIN TWISTER

By R. R. Lyle

Two farmers, Mr. Jones and Mr. Smith, have thirty cows between them; they sell them at different prices, but each received the same sum. If Mr. Jones has sold his cows at Mr. Smith's price, he would have received \$320, and if Mr. Smith had sold his cows at Mr. Jones' price, he would have received \$245. How many cows did each man sell? What price per cow did each receive for his cows?

Answer: Mr. Jones sold 16 and got \$17.50 per head. Mr. Smith sold 14 and received \$20.00 per head.

Fish Jones says to Fish Smith: "When you are fifteen times the age I was when you were half as old as I am, you will be one-half again as old as I would be were I as much older than you as you are older than I am."

To this Fish Smith replied: "When you will be as much older than you are as you are younger than I was year before last, our combined ages will be fifty."

How old are Fish Jones and Fish Smith?
Answer: Fish Jones 18 and Fish Smith 24.

Fish Jones says to Fish Smith: "When you are fifteen times the age I was when you were half as old as I am, you will be one-half again as old as I would be were I as much older than you as you are older than I am."

"When you will be as much older than you are as you are younger than I was year before last, our combined ages will be fifty."

How old are Fish Jones and Fish Smith?
Answer: Fish Jones—18 and Fish Smith 24.

Psychology-minded gardeners at New York's City College are working on the theory that a "beautiful campus stimulates the appetite for knowledge."

The term "spud," once a popular equivalent for potato, originated from the initials of a dietetical society, now deceased, called the Society for the Prevention of

Dr. Donald Super, professor of educational psychology at Clark university, disputes the theory that everyone should have a hobby.

Texas Fire Commissioner Urges Pre-Holiday Check of Fire Hazards

Faced with the danger of a mounting death toll brought on by the widespread use of highly inflammable Christmas decorations, Marvin Hall, state fire insurance commissioner, today urged Texans to request local firemen to make a pre-holiday check of fire hazards in the home.

"Where at all possible, firemen will welcome the opportunity to eliminate the hazards," Hall declared. "Firemen have a special responsibility to guard against fire hazards at Christmas, and the owners of homes and business establishments should call upon them to make inspections when in doubt as to the safety of their holiday decorations."

A Christmas tree kept in a bucket of water will retain much of its normal dampness and thus cut down the danger of a hot blaze. However, the Commissioner warned against placing trees in such a way as to block exits, and admonished against their use near stoves and steam radiators.

They should be decorated only with asbestos, glass and metal. The tree alone will make a dangerous fire, without the added fuel of paper, cotton snow and pyrolylin decorations.

The wide use of electric extension cords, Christmas tree lights and lights in windows bring new hazards to every home.

SPECIAL FRIDAY and SATURDAY
