To Our POLICYHOLDERS and FRIENDS

We are glad to report to you that the year just closed was the best year we have ever had. The outstanding investment record has continued — no losses, no bonds in default, no mortgages in arrears, and the market value of our bonds more than \$100,000 in excess of the figures shown in the accompanying Condensed Statement.

And so it is with appreciation of your trust and support of the past, that we start the year 1941 with the determination to make your Company more worthy of your confidence.
