Waldrop & Co

"Two Convenient Stores" College Station - Bryan

will be worn. Everyone from Collin County is urged to be there.

NEW MEMBERS GROUP TO HOLD FIRST PARTY

The New Members Group will hold its first party of the year Wednesday, Jan. 29, at 8 o'clock in the YMCA parlors.

This function will be informal, and will serve as a get-together for the new members on the staff of the college who have come here since September. The wives or husbands will be included, as well as all bachelors or single women on the staff, in whatever capacity.

The committee urges everyone who is eligible to respond, as it believes that all will have a pleasant evening of friendliness and association with the new co-workers.

If a sufficient number attend, immediate steps will be taken to form the group into a permanent organization which will hold regularly-scheduled meetings.

The plans are being carried out under the leadership of the following committee: Mrs. C. H. Groneman, chairman; Mrs. J. H. Bass, Mrs. H. W. Barlow, Mrs. R. L. Lively, Mrs. C. M. Lively, Mrs. R. L. Mundhenk, and Mrs. J. C. Miller.

FENCING CLUB NOTICE

There will be a business meeting of the Fencing Club at 6:45 P. M., Thursday, January 23, in the gymnasium. All members should attend.

A.S.M.E. MEETING

There will be an A.S.M.E. meeting tonight in the E.E. lecture room at 7:00 P. M. The speaker will be "Fluid Mechanics". A sound movie will also be shown. Cigars will be served. M. E. students whose pictures are on file at the studio can have their pictures put in the M.E. section of the Longhorn by bringing 75 cents to this meeting.

BRIDGE - 42 BENEFIT

A Bridge and 42 Benefit will be sponsored by the Girl Scout Council on Thursday, January 30th, at 2 p. m. The benefit will be held at the Parker Dining Rooms in Bryan. Individual or table reservations may be made for either Bridge or 42 by calling Mrs. George Wilcox, 4-2659 or Mrs. Webb Buchanan, Bryan 734.

A. S. C. E.

The A.S.C.E. will meet tonight at 7:00 in the C. E. lecture room. All Civil Engineering Students are urged to attend.

COTTON SOCIETY

There will be a Cotton Society meeting Thursday, 23rd, in Textile Engineering Building.

An interesting program has been planned. Refreshments will be served and musical numbers by M. F. Evans.

Classified

FOUND—One set of car keys has been turned into the Commandant's Office. Any person having lost car keys may obtain them by proper identification at the Commandant's Office.

Watson's Text—

(Continued from Page 1)

to proceed with your college course unless you are called under the Draft law, in which case your commission will be given you.

Considering this subject from the standpoint of employment and education, my conclusion is that in both instances you should proceed without interruption. There is nothing to prevent your doing this, at least until the further development of the military situation. Why lose any of the time vital for the pursuit of your profession or the completion of your education?

You are being fitted to serve the Government as Army Officers in case of emergency, but without the existence of such, the pursuit of your careers as business men, agriculturists, and professional men is vital to the nation. Let's go on with our work in both channels and in that way prepare for any eventuality without loss of time or opportunity.

Now a few words to you as embryo Army Officers.

As the time for your active duty draws near there must be uppermost in the minds of all of you, "How can I best fit myself for what ever assignment I am given?" I will say that you are now receiving the proper theoretical instruction in military science, and in weapons, and in drill. The degree of your interest, and application, will measure your preparation and accomplishment.

There are many other factors that are of the greatest importance. Highest I place morale, discipline and leadership. To maintain each one of these you must have the confidence and respect of the men under you. At this college there exists better opportunities for training in these adjuncts than I have ever seen. You are organized into regiments, battalions, squadrons, troops, batteries, companies, platoons, with officers commanding each. Your daily life is an exercise in the development of these characteristics. Why not take the fullest advantage? Let each one of you

question himself, "Do I exercise full control of my unit, and enforce proper discipline, and exhibit proper leadership so that I may gain the confidence of the men under me?"

If you can't do it here what can you anticipate when you are thrown into a similar situation with strange troops and under stress?

Men don't overlook your opportunities. We have rules, regulations, and organizations here just as they exist in the Army. If you want a good measuring stick for yourself, you have it. If you want opportunities and means to acquire knowledge of and facility in the exercise of discipline, control and leadership, they are right here on the campus.

Always be alert for an opportunity to help the men under you with their problems. The true leader will sense the morale of his men and will exert every effort to give aid and encouragement. Some of them are not naturally endowed with and have difficulty in acquiring the characteristics necessary to the highest success in their education or pursuit of a military career. These are the opens who need you.

Gentlemen; I close with these words of advice. Carry on your work in accustomed channels with great fervor and determination. Seize every opportunity for the pursuit of your education and the acquirement and the exercise of the characteristics of an officer. Thank you.

Lots of things he doesn't want come to the man who is impatient.

"No Interruption"—

(Continued from Page 1)

assignments you will be given. I will say that you are now receiving the proper theoretical instruction in military science, in weapons and in drill.

A few hours previous to his address, Col. Watson received a communication from the War Dept. which relieved nine regular Army officers from duty at A. & M.

Near-gutting the college's military staff (composed of 14 regular Army officers, 17 reserve officers and 55 enlisted men), those officers who were recommended to be relieved from A. & M. duty include Lieut.-Col. R. L. Christian, Lieut.-Col. O. E. Beezley, Lieut.-Col. A. G. Wing, Lieut.-Col. F. V. M. Dyer, Lieut.-Col. Louis Gibney, Maj. J. B. Wise Jr., Maj. F. A. Hollingshead, Capt. F. A. Elwood and Capt. T. A. Adecock.

Lieut.-Col. James D. Bender, at the North Texas Agricultural College, an A. & M. branch at Arlington, was also recommended to be relieved from duty at that post.

"Although we do not yet know where these officers will be transferred, it will probably come within the next 30 days," Col. Watson said. He added that reserve officers would take the place of regular Army officers.

Col. Watson pointed out that the transfer of Army officers was in pursuance of the War Department's policy of providing regular Army officers to units already organized or training units in the process of organization.

Egg production in the United States in November, 1940, was the highest ever reported for that month, says the Agricultural Marketing Service.

THE SMOKES THE THING!

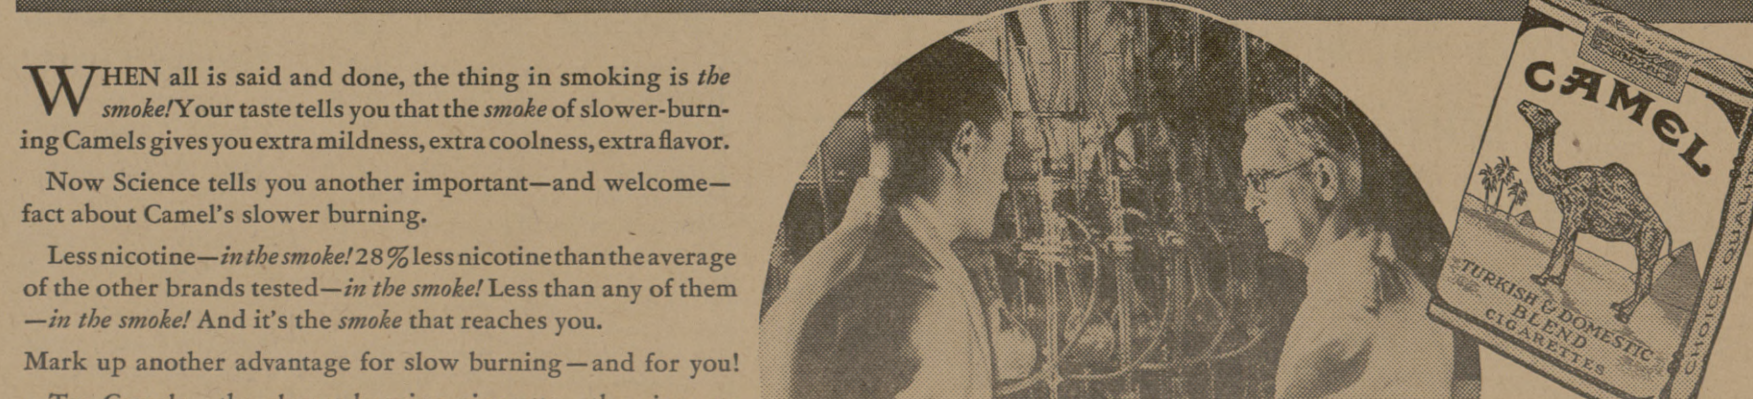

EXTRA MILDNESS EXTRA COOLNESS EXTRA FLAVOR

AND ANOTHER BIG ADVANTAGE FOR YOU IN CAMELS—

the smoke of slower-burning Camels contains

28% LESS NICOTINE

than the average of the 4 other largest-selling cigarettes tested—less than any of them—according to independent scientific tests of the smoke itself

WHEN all is said and done, the thing in smoking is the smoke! Your taste tells you that the smoke of slower-burning Camels gives you extra mildness, extra coolness, extra flavor.

Now Science tells you another important—and welcome—fact about Camel's slower burning.

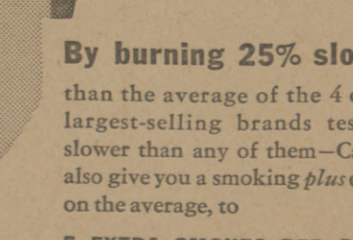

Less nicotine—in the smoke! 28% less nicotine than the average of the other brands tested—in the smoke! Less than any of them—in the smoke! And it's the smoke that reaches you.

Mark up another advantage for slow burning—and for you!

Try Camels...the slower-burning cigarette...the cigarette with more mildness, more coolness, more flavor, and less nicotine in the smoke! And more smoking, too—as explained below package, right.

"SMOKING OUT" THE FACTS about nicotine. Experts, chemists analyze the smoke of 5 of the largest-selling brands... find that the smoke of slower-burning Camels contains less nicotine than any of the other brands tested.

CAMEL - THE SLOWER-BURNING CIGARETTE

By burning 25% slower than the average of the 4 other largest-selling brands tested—slower than any of them—Camels also give you a smoking plus equal, on the average, to 5 EXTRA SMOKES PER PACK!
