SPEED LIMIT ON CAMPUS
1. Due to the increasing number of cars being driven on the A. & M. College campus, it has been deemed necessary to establish and enforce a speed limit for driving on the campus. The limit will be 20 miles an hour.
2. An officer is being placed on the campus to see that the speed limit of 20 miles an hour is enforced, and all persons who drive on the campus are warned not to exceed this limit.
By order of the Commandant:
JOE E. DAVIS, 1st Lt., Inf.,
Assistant Commandant

HOCKEMA TO MEET PURDUE ALUMNI
Professor Frank Hockema, Assistant to the President of Purdue University, will meet with the alumni of Purdue University who are now at A. & M. at the time of his visit to College Station next week. Arrangements are being made to have Professor Hockema as a guest of honor at a banquet to be held at Agrieland Inn Monday evening at 6:30 p.m., March 3rd. Mr. Howard W. Barlow of the Aeronautical Engineering Department received word last week that Professor Hockema is visiting the campus on a grant from the Carnegie Foundation. While here, he will confer with President Walton and Dean Gilchrist relative to administration and selection of students for the college of engineering.
It is believed that all of the Purdue Alumni in College Station have been reached, but any who may not have received notice of this banquet are requested to notify Mr. H. W. Barlow at once of their intentions to attend this banquet.
H. W. BARLOW

MARKETING AND FINANCE SENIORS

INDUSTRIAL FILMS
Two outstanding industrial films have been secured by the Industrial Engineering Department:
THE MOULDER: This is a 16mm. silent film of the General Electric Co. Approximate running time 15 minutes.
FROM IRON ORE TO STOVES: This is a 16mm. silent film of the making of stoves and shows scenes of foundry practice. Approximate running time 25 minutes.

Those interested may see the films as part of the regular classroom instruction in the basement projection room of the M.E. Shops Friday and Saturday, February 28th and March 1, at 10:00 a.m.

Student Technical Societies, or other departments are invited to arrange with the Industrial Engineering Department for the use of these films if they are interested. The films are booked for the entire week and are ordinarily available on Monday through the following Saturday.

"Of course I know your voice!"

"Of course" pays an unconscious tribute to Western Electric, maker of Bell Telephones.

It means that all the equipment used in the connection is made so skillfully that it transmits the familiar tones and inflections. As manufacturer for the Bell System, Western Electric makes some 43,000 different items of telephone apparatus. As purchaser for the System, it buys raw materials and supplies from all over the globe. As distributor, it sees that all these things are available where and when needed. This helps to give you the world's finest telephone service.

THE SMOKE OF SLOWER-BURNING CAMELS GIVES YOU EXTRA MILDNESS, EXTRA COOLNESS, EXTRA FLAVOR

AMERICA'S No. 1 SKIER
DICK DURRANCE VS. THE STOP-WATCH AT SUN VALLEY

He's a little man to look at—but on a pair of "hickories" he's a mighty giant. He's held virtually every major down-hill and slalom title in North America. He smokes... as much as he likes... but note: He smokes the slower-burning cigarette that gives extra mildness and less nicotine in the smoke... Camel.

IT'S SWELL TO GET THAT EXTRA MILDNESS IN A SMOKE AS TASTY AS A CAMEL. THERE'S NOTHING LIKE A CAMEL FOR FLAVOR

AND
28%
LESS NICOTINE

than the average of the 4 other largest-selling cigarettes tested—less than any of them—according to independent scientific tests of the smoke itself

FIVE of the largest-selling cigarettes... the brands that most of you probably smoke right now... were analyzed and compared by tests of the smoke itself. For, after all, it's what you get in the smoke that interests you... the smoke's the thing. Over and again the smoke of the slower-burning brand—Camel—was found to contain less nicotine. Dealers everywhere feature Camels by the carton. For convenience—for economy—get your Camels by the carton.

R. J. Reynolds Tobacco Company, Winston-Salem, North Carolina

AT THE ROUNDHOUSE high up on Sun Valley's famous Baldy Mountain, Dick Durance (above) takes time out for another Camel. "That Camel flavor is something special," he says. "Never wears out its welcome." And the answer is Camel's costlier tobaccos in a matchless blend—they're slower-burning!

BY BURNING 25% SLOWER than the average of the 4 other largest-selling brands tested—slower than any of them—Camels also give you a smoking plus equal, on the average, to 5 EXTRA SMOKES PER PACK!
