Bowling

(Continued from Page 1)

This booklet takes up the game from the standpoint of the beginner and also give the expert a few pointers on the game.

The principles, the selection of balls, the delivery, and the proper methods of controlling speed and direction are a few of the topics discussed.

Three pages of the article are given to the proper method of scoring of the game, a fundamental many players find difficult to acquire.

Some of the Player's Don't's listed include the following:
DON'T use too much speed.
DON'T roll the ball down the alley when there is a ball in the pit. This is for the protection of the pen boy.

DON'T LOFT the ball.
DON'T tell anyone what you are going to do. Wait until after the game and tell them what you did, if it's good.
