

Cotton Seed Crushers To Begin Course

Chemical Analysis Will Be Extracted To Prove New Method

The program for the thirteenth annual short course for cotton seed oil mill operators which will begin Monday has been released by Dr. J. D. Lindsey, professor of chemical engineering.

"The course is designed primarily for men who have had some experience in oil mill operation, whether it be office, production, laboratory, sales, or others," Dr. Lindsey said. "It provides an excellent opportunity to exchange and try out new ideas. It is open to anyone from other states and to those connected with the industry in any way."

The mornings and afternoons will be devoted to the operation of the cotton seed oil mill and the chemical study of the crude material and refined products. Some sections will study analytical methods day. Other sections will operate the mill and make suitable experiments on milling.

Binford Sloan of the Hercules Powder Company, Dallas, will discuss and supervise the grading of all second cut lint.

M. K. Thornton, Jr., of the Extension Service Staff, will conduct an open forum each day of the course.

L. B. Blalock of the Texas Power and Light Company, Dallas, will have charge of the power tests made during the work. Blalock will have instruments capable of accurately registering the power consumption.

Harry A. Wilson, Jr., will discuss the chemistry of oil mill operation.

The general direction of the short course will be under the supervision of F. F. Bishop, professor in the department of chemical engineering and the experimental mill operation will be under the supervision of C. W. Rankin, superintendent of the Brenham Cotton Oil Company.

Baker, Goldich Head Geological Field Study Trips

Groups Will Study Areal And Structural Formations From Igneous Deposits

The two summer field courses which the geology department is sponsoring this summer left Saturday for locales, which they will work.

Dr. C. L. Baker, head of the geology department, Willard Frahm, Thorndale; Ward Wynn, Hebbronville, formed the personnel of the first party and will be located near Marfa, Texas, in the Big Bend section. During geological surveys they will map the section known as the Jordan Gap Quadrangle. In this particular area they will study the areal and structural geology, and the succession of lava flows.

Dr. Baker has been interested in this particular section since he made his first field trip there in 1912, and has written several papers on the formations found there. The latest publication was released this spring.

During the field trip, the group intends to visit the cinnabar and silver deposits in the terlingua shalfta districts.

Adolph Kopp, senior from Dallas, will join the group in the next few weeks.

Dr. S. S. Goldich, assistant professor of geology and his party are working the territory east of the Baker party in the Big Bend section and will study igneous petrography, which is the description and systematic classification of rocks formed by solidification of a molten magma. Dr. Goldich started on this problem in 1938.

George Hardin, '41, Oakwood, has taken this particular phase as a problem for his master's degree at the University of Wisconsin, and is accompanying the party

Juke Box Prom--Summer Special

"Anything goes" is the byword in Sbsa Hall each Saturday night when Maestro Luke Harrison and his Juke Box bands can produce anything on an all-request program from "Rippling Rhythm" to bustling waltzes. Informality has always been the key-note. It's so informal that coats and ties are not in good taste, and are frowned upon.

Colonel Ike Ashburn Resigns From College To Become Director of Industrial Peace Board

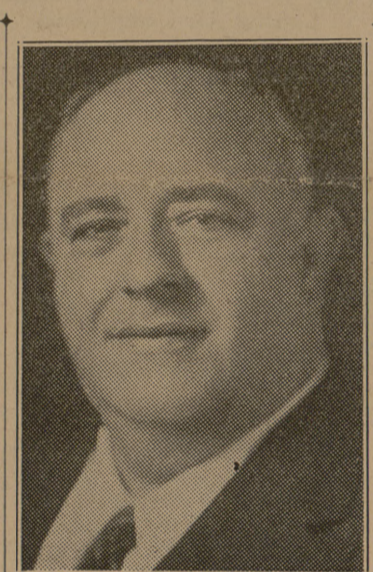

Col. Ike Ashburn, executive assistant to the president, resigned from the college Monday to become executive secretary and administrative head of the Harris County Association for Industrial Peace.

Frank S. Carothers, president of the association, is quoted as saying "In Colonel Ashburn we feel that we have a man who is well known here among industrialists as well as labor heads to be firm and fair in his opinions."

"We have full confidence that Colonel Ashburn will be able to bring about harmony between industrial plant management and labor heads at a time when no time can be lost due to disputes between the employer and employee."

Col. Ashburn will direct the operations of the association which was formed to establish confidence, sympathetic understanding and mutual helpfulness on the part of management in industry and of labor.

A Houston paper late Monday night quoted Col. Ike as saying, "While I hate to leave A. & M. I feel like I am coming home when

Col. Ike Ashburn

I return to Houston, as I have worked here for a longer period than at any other place."

After an absence of ten years, Col. Ike Ashburn returned to A. & M. on October 1, 1937, to assume duties as executive assistant to the president, Dr. T. O. Walton,

and to serve as director of publicity. He held both posts until September 1938, when he gave up his duties as director of publicity.

Col. Ike first came to A. & M. in 1913 from Ft. Worth where he had been city editor of the Fort Worth Record, as director of publicity and, with the entry of the United States into the war, he enlisted and went overseas.

His record in the first World War is an outstanding one, when it is noted that he entered the first Officers Training Camp at Leon Springs, Texas and through a series of promotions was made a major in December, 1917.

As a result of his service overseas, he was awarded the Distinguished Service Cross; Order of the Purple Heart by the United States; Croix de Guerre, with palm (indicating two awards), and made a chevalier of the Legion of Honor by France.

Colonel Ashburn was promoted to Lieut. Colonel of the Reserves in 1920 in command of the 360th Infantry regiment, and as Colonel of the same regiment in 1922, which rank he still holds.

Summer Series Entertainment Plans Made

Swiss Yodelers And Deep River Plantation Singers Will Provide Entertainment

Plans are being rapidly furnished to complete the arrangements for the programs to be presented on the summer entertainment series, Dr. C. H. Winkler, director of the summer session, announced Monday. The plans will include the Swiss Yodelers, to be presented within the next two weeks, and the Deep River Plantation Singers, who will be featured on July 1.

The Swiss Yodelers are the world famous Fraunwelder family from the high Alps known as the only four part yodelers in the United States, and will bring to College Station some of the fine traditions, enthusiasm, characteristics and stability of the Swiss people.

On July 1, the Deep River Plantation Singers will present a program of jubilee chants, plantation melodies, camp-meeting shouts and spirituals, all in a very authentic manner, and put forth in a way that only trained and finished musicians can do with so much abandon and spontaneity.

Bagley Announces Normal Enrollment For 32nd Cotton Classifying School

Vocational Guidance Offered by Dr. Tibbits

Two special courses are being offered this summer for those interested in the field of educational vocational guidance under the leadership of Dr. Fred Lyman Tibbits of Oklahoma University, who is the visiting professor secured to present the courses.

Dr. Tibbits, a graduate of Stanford University has had teaching experience in several colleges and universities of Oklahoma, and was formerly connected with the United States Veterans Bureau of Holdenville, Oklahoma and at San Antonio in the capacity of vocational counselor.

In Industrial Engineering 406, Dr. Tibbits will deal with occupational information, its sources, and interpretation; in Education 427, he will present the general educational guidance concerning the clinical method of diagnostic techniques and counselling on the secondary school.

Symphony To Meet

The College Symphony Orchestra will meet on Tuesday evening at 7 o'clock in the Consolidated School orchestra room under the direction of Col. R. J. Dunn.

Mexico Supplies Half Of Students Because of Recent Interest In Home Products

The summer cotton school, which began Monday and will last through July 19, will have an enrollment of approximately 35 students, J. B. Bagley, professor of cotton marketing, announced yesterday. Half of the students enrolled are from Mexico, a considerable increase over the 8 students from Mexico last year.

"The increase in the number of students from Mexico is probably due to Mexico's awakening to the advantage of classifying her home produced cotton," Bagley said. "In past years Mexico has depended entirely upon classification made by foreigners. Since the Mexican people have gained control of the land, there has been a growing tendency to train members of their own race."

The first summer cotton school was organized in 1909 and rapidly increased in favor. In 1920 the registration has increased to 300 students. The return of the soldiers from the first world war swelled the ranks because cotton was at a high peak.

During recent years cotton classifying by private buyers has de-

First Day Enrollment Reaches 1177 Mark; Increase Expected After Military Camps

Senate Names Buchanan As Board Member

New Member Former A&M Professor; Now Manager of Herman F. Heep Interests

The appointment of D. S. Buchanan, '17, from Buda, to the board of directors by Governor W. Lee O'Daniel was confirmed by senate action Monday. Buchanan was appointed to serve for a period of six years.

Until 1937 Buchanan was a professor in the animal husbandry department. He resigned to become the present manager of the Herman F. Heep interests at Austin, Texas.

Born and reared in Brazos county, Buchanan received his bachelor of science degree in animal husbandry from the college in 1927. He completed his M.S. degree requirements at Iowa State College.

Prior to his professorship in the animal husbandry department, Buchanan served 26 months overseas during the World War I and received two Croix de Guerre's for meritorious service. He served as a captain in the U. S. Marine Corps.

Organization Of Press Club Slated Wednesday Night

The 1941 Summer Press Club will be organized at the first meeting of the summer, which will be held in Room 122, Administration Building at 7:30 tonight. The organization, which is composed of all members of The Summer Battalion, is the only club on the campus during the summer session. The club has been active in sponsoring various social functions each summer.

All persons interested in becoming members of The Summer Battalion staff are urged by the editors to attend the club meeting. The only requirement for membership on The Battalion staff is enrollment in the first summer session.

At the Wednesday night meeting officers for the current session will be elected. Last summer's officers were Peggy Campbell, president; James Ashby, vice-president; W. A. Moore, secretary; and Margaret Hollingshead, treasurer.

All members of The Summer Press Club are eligible to hold office with the exception of the editor.

Swimming Pool And Library, Hospital Hours During Summer

The library will be open from 8 A. M. to 10 P. M. on Mondays through Friday, from 8 A. M. to noon on Saturdays, and from 7 to 10 P. M. on Sundays.

Because of repairs, the swimming pool will not open until Thursday. When repairs are completed, the pool will be open from 3 to 6 each afternoon, and 7 to 9 each night except Sunday.

The hours for sick call at the hospital will be from 9 A. M. to 1:30 P. M. each day except Sunday. On Sundays the hours for sick call will be from 8 to 10 P. M.

Tentative Summer Program Announced By Winkler; Five Dormitories House Students

When the Registrar's office had closed at 5 Tuesday afternoon, 1177 students had completed registration for the first semester of summer school, Registrar E. J. Howell announced. Judging from past enrollments, the enrollment is expected to reach 1,400 students before the deadline for late registration.

Classes officially began Tuesday morning at 7:30 and work in all departments is well underway.

An increase in the present enrollment is expected for the second semester. Many long-session students who are not attending the various R. O. T. C. summer camps will return at that time to continue their work here.

Five dormitories have been made available to summer students. Walton Hall will house married couples and single women; Mitchell, Leggett, Puryear and Law will house the remaining students.

Plans for the two-semester summer session were announced by Dr. C. H. Winkler, director of the summer session, and many faculty changes and additions were named.

Dr. Winkler pointed out that nearly every department is offering courses during the summer session. The catalog for the current summer session lists a total of 320 courses covering nearly as wide a range of courses as offered during the long sessions.

"The quality of summer school instruction is entirely on par with the long sessions," Dr. Winkler said, "because the faculties of both sessions is practically the same. Added to this, there are a number of visiting professors that will teach courses during both sessions of summer school. Further than this, the entire facilities and services of the college are available to summer students."

Construction On Dormitories Resumed Monday

Construction of the four new dormitories was resumed again last Monday after a delay of six months. Originally scheduled to start in the fall, work was halted in November because of the refusal of the state auditor to approve the means of finance.

The new dormitories are to be similar in type to the twelve dormitories built two years ago. The plans provide for one dormitory to be equipped with a rehearsal room suitable for use by the band. They are located on the West side of the hospital and are to be finished to match the hospital.

Included in the legislative bill, along with the new \$1,000,000 dormitories, are an addition to the power plant and utilities extension to cost \$275,000 and an office building to house federal agencies to cost about \$300,000.

Funds for the program are to be borrowed through bonds issued the revenues and rentals of the improvements. The bonds may run as long as 30 years at interest rates not to exceed four per cent.

The low bidders were a group of Texas bond houses who bid jointly. The companies included were Moroney and Company of Houston; Garret and Company of Dallas; and DeWar, Robertson, & Panoast of San Antonio.

Bell Elected President For Former Students

Lawson, Warden, And Mitchell Will Fill Other Offices; Directors Elected

Tyree L. Bell '13, Dallas was elected president of the A. & M. Association of Former Students at the annual meeting which was held Saturday on the campus. W. J. Lawson, '22, of Austin, secretary of state, was elected vice-president.

T. B. Warden '03, Austin, was named representative on the Athletic Council and A. F. Mitchell '09, of Corsicana was made student loan fund trustee.

The following were elected to the board of directors of the association:

L. D. Cabaniss, '28, Paris; H. K. Deanson, '15, Port Arthur; Dick Carey, '11, Beaumont; A. G. Pfaff, '25, Tyler; W. B. Williams, '33, Sherman; Asa E. Hunt, '22, Dallas.

O. A. Seward, '07, Groesbeck; W. A. Collins, '16, Crockett; J. P. Hamblen, '27, Houston; Alvin E. Foerster, '24, Rosenberg; W. J. Lawson, '22, Austin; J. B. Snider, '14, Waco.

Emil Wade, '30, Temple; O. N. Yeary, '27, Fort Worth; George C. Moffett, '16, Chillicothe; Walter E. Dickerson, '11, Corpus Christi; A. J. Neff, '03, Laredo; Arthur B. Knickerbocker, '21, Odessa.

Joe L. Culbertson, '13, Hamlin; Alec Bateman, '15, Hereford; Joe W. Jennings, '11, Plainview; Carroll M. Gaines, '12, San Antonio; H. Dick Winters, '16, Brady; Tyree L. Bell, '13, Dallas.

T. F. Smith, '20, Houston; C. C. Krueger, '12, San Antonio; Milton A. Abernathy, '16, Shreveport, La.; T. Ben Warden, '03, Austin; Marion S. Church, '05, Dallas; Rufus S. Peoples, '28, Tehuacana.

J. N. Burditt, '21, Abilene; Penrose B. Metcalfe, '16, San Angelo; J. B. Thomas, '11, Fort Worth; Sterling C. Evans, '21, Houston; John W. Newton, '12, Beaumont; Roy D. Golston, '03, Tyler; David B. Thrift, '39, San Antonio; and Herman Heard, '23, Austin.

Wild Life Group Will Leave Monday For Mexico Locale

One of the special courses of this summer session is due to begin Monday when Dr. W. P. Davis, professor of Fish and Game and students head for old Mexico for a first term field course.

Starting at Mexico City, the party will cover most of central and northern Mexico and will take in the tourist sights as well as study the varied types of plants and animals that inhabit Mexico.

The group plans to camp out as much as possible and will make their study of the plants and animals of Mexico from first hand information.

Those making the trip besides Dr. Davis and his assistant R. L. Peterson are Lamar Haines, J. L. Robinson, J. H. Shary, Tom Cook, E. P. Thorne, E. L. Rollins, and E. A. Moseley.

Whether Jumping Jive Or Dreamy Waltz, Just Name A Band, Folks; The Juke Box Prom Is Saturday Night

The social season for the summer session of 1941 will get under way this Saturday when the first "Juke Box Prom" will be presented at 8:30 p. m. in Sbsa Hall to the recorded music of all the popular dance bands of the nation.

The "Juke Proms" designed with an eye for comfort with sport shirts and street dresses as the regulation year, and the price for admission only 15¢ for stags and 25¢ for couples. The couples don't have

to be boy and girl only; two boys or two girls may take advantage of this offer.

While visiting his alma mater, Ohio State, W. L. Penberthy, head of the physical education department, was impressed by the recreational program carried on by the intramural department and decided to request that the intramural department here be placed in charge of the summer program. This request was granted, and noting the

success of the 15¢, two for 25¢ dances that were held there every Saturday night, "Penny" decided to introduce the dance here. Since the music is originally furnished by a nickelodeon, which in slang is a "Juke Box," the dance was christened the "Juke Box Prom."

One of the main purposes of the dance is to allow the students, faculty and local residents to meet and become better acquainted with one another.
