

7000 Expected On Campus As Short Courses Begin

30 Day Clearance Given To Palace In Arbitration

Queen And Dixie Shows Given Two Week's Preference

Klingman Announces The Decision As Final Unless Conditions Become Changed

Arbitration awards in the motion picture arbitration between the Campus Theatres, Incorporated, and Jefferson Amusement Company the intervenor, have just been given by Lloyd Klingman, arbitrator in the case and insurance man of the Equitable Life Insurance Company. Giving only minor changes, Klingman awarded a 30 day clearance period to the Palace Theatre on all pictures shown there over College Station theatres.

Maximum clearance of the Queen and Dixie Theatres is fixed at 14 days.

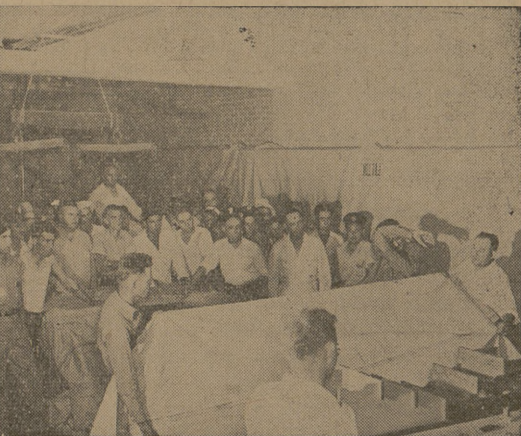

In years past the clearance period of Bryan Theatres over College Station houses was 30 and 45 days.

The Campus Theatre, helped by a senior committee from the student body of A. & M. was seeking day and date pictures or first run shows for the College Station area in the case and may appeal again in the future for the day and date showings. Any change of conditions may open the arbitration case anew.

The people of College Station and the A. & M. student body are benefitted by the arbitrator's ruling to the extent that the College Station Theatres will get pictures in much faster time than before.

The firms opposing the Campus Theatre in the case were: Paramount Film Distributing Company; RKO Radio Pictures; Twentieth Century-Fox Film Corporation; Warner Brothers Pictures, Incorporated; and M. G. M. with the Bryan Amusement Company as intervenor.

Fire Fighters To Have Busy Day

That the well-trained fireman requires more knowledge and ability than that required to douse water on fires is conclusively proven by observation at the Firemen's Short Course which will be held on the campus July 20-25.

Frank Williams shows H. C. Miller of Luling how to make a "Y" coupling out of a Siamese coupling by the use of a double male coupling in the upper left corner.

H. E. Prater of Dallas conducts a class in salvage in the upper right corner.

To the left, Clay Garrison and H. C. Skags show how two ladders may be spliced to reach a higher place on a building when a long ladder is not available. Garrison hooks his legs to the lower ladder and his arms to the top ladder to form the splice.

Firemen To Hold Twelfth Short Course

Attendance of 600 Men Expected For Five Day School

National defense and emergency measures are the subjects to be studied at the twelfth annual session of the Firemen's Training School which opens July 20 at College Station. It is estimated that around 600 firemen and fire-marshalls and 50 teachers will register at the largest firemen's school ever to be held on the A. & M. campus. These men will represent approximately 350 cities and towns of Texas.

The five day school opens July 20 with Dr. C. C. Hedges, head of the Chemistry Department, acting Director of the Firemen's Training School, in charge.

Several prominent men from different sections of the state, and See Firemen, page 4

Large Attendance Registered For Farm Security Meet

The county personnel of the Farm Security Administration concludes its seventh annual meeting here today.

About three hundred and seventy-five persons attended this meeting from Monday through today. The meeting was held for the purpose of acting as a refresher to the personnel of the Farm Security Administration and to give them the latest information on subjects they are concerned with in their county work.

This year the meeting emphasized dairying, involving the selection and breeding for better production, purchase of herd bulls, feeding and management, and other good dairying practices.

This is the fourth of the total seven meetings that has been held at College Station.

Lt. Col. Davis Promoted To Rank Of Full Colonel

Lt. Col. John F. Davis who was a student of A. & M. College in 1908-11 and who is now on duty at Fort Knox, Kentucky was promoted to the rank of full Colonel on July 29, 1941, Major General Bruce Mangruder, commander of the division, announced. Col. Davis was a classmate of Major J. F. Stevens at West Point where Col. Davis graduated in 1915. Col. Davis was a student in civil engineering while at A. & M.

Col. Davis was graduated from the United States Military Academy at West Point in 1915 and from the Cavalry School Troop Officers' Course in 1920. He was graduated from the Command and General Staff School in 1926 and from the Army War College in 1931.

Col. Davis was one of four lieutenant colonels of the First Armored Division at Fort Knox who were promoted to full colonels at that time. The others were Col. Willis D. Crittenger, General Staff Corps, Chief of Staff; Col. Floyd R. Waltz, Infantry, commanding the 69th Armored Regiment (Medium Tanks); and Col. John B. Wogan, Field Artillery, commanding the 68th Field Artillery (armored).

Dairy Science Meeting Slated Here In June 1943

The Booking Is Considered A Recognition of The Rapid Growth of State Resources

Charles N. Shepardson, head of the department of dairy husbandry, "brought back the cream" from a recent meeting of the American Dairy Science Association at Burlington, Vermont, when he persuaded the delegates to hold their 1943 meeting at A. & M. College.

Attendance at the Burlington meeting was in excess of 825 of the nation's leading scientists, operators, and educators in the dairy field. The 1942 meeting will be held in East Lansing, Michigan, and the June 1943 meeting at College Station will mark the first time the American Dairy Science Association ever has held its annual meeting this far South, a previous meeting having been held at Louisville, Kentucky. The four-day session is expected to draw nearly a thousand of the nation's dairy leaders to Texas and Shepardson already is hard at work arranging to put on display the advances in dairying in the Lone Star State.

A. & M. already has been host to the national meetings of the Society for the Promotion of Engineering Education and the National Poultry Congress. The addition of the national dairying meet is a recognition of the expanding resources of the State, Shepardson believes.

Lieutenant-Governor Is Main Speaker

Information Given By Tours, Programs On Many Problems

A three-days' program, packed with discussion subjects of primary interest to Texas farm and ranch people, has been prepared for the 1941 Farmers' Short Course, which will be held at Texas A. & M. College July 13, 14 and 15.

Coke R. Stevenson, Lieutenant Governor of Texas, will be the principal speaker at an open air meeting in Kyle Stadium Monday, at 7:30 p. m. Mrs. Nancy Richey Ransom of Dallas, poet laureate of the state, will be on the program with the Lieutenant Governor. The adult section of the Short Course will be concluded with a program in the Stadium at 7:30 p. m. on Tuesday, at which Roy Dickerson of the Federal Security, Washington, will speak and the students of the Stephen F. Austin High School, Bryan, will perform a pageant, "Freedoms We Defend."

Tours of the A. & M. College Campus, with visits to the college and administrative buildings, will be conducted by members of the college staffs from 2 to 5 p. m. Sunday.

BULLETIN

The U. S. Post Office Substation No. 1 located a little east of the Extension building and across from Dormitory 2 (Kiest Hall) will issue all mail to short course visitors.

The Short Course will begin at 10 a. m. Sunday with a song service in Guion Hall led by Walter Jenkins, choir director of the First Methodist Church of Houston. At 11 a. m., the Rev. Harry G. Knowles of the First Christian Church, Houston, will preach on "Things Which Abide." At 7:45, Jeff Williams of Chickasha, Okla., will speak at an assembly in Kyle. See Short Course, page 4

New Sewage Disposal Plant Nears Completion

Most of the construction work for the new sewage disposal plant for A. & M. college and immediate vicinity is nearing completion, according to Mr. E. W. Steel, head of the Municipal & Sanitary Engineering Department.

When finished, the plant will probably be one of the most unique to be found in the southwest. As a rule, the secondary units for treatment of sewage would be one of three types, namely, trickling filter, Dunbar filter, and activated sludge type. However, this new disposal plant will contain a combination of all three types, and it will be one of the best that has been constructed in recent years in any part of the country.

The first settling chamber was built several years ago, and the second chamber is about completed now. Also, the new sludge digestion tank is now under construction and should be finished within a short time, as plans for completion of all units are well under way at the present time.

Most of the plant has been built in separate units, depending upon See Sewage Plant, page 4

President Walton Featured In Texas News Service Column

Dr. T. O. Walton, president of A. & M., is featured this week by the Texas Capital News Service in their feature, "Interesting Texans."

The release carries a one-column picture of Dr. Walton taken by Howard Berry, A. & M. staff photographer, at a football game last fall. The cut line below the picture gives a thumbnail biography of his life.

Tournabout Week Declared

Demure Girls Will Abandon Tactics And Contrive For A Date

By Elizabeth McNew

Hear ye! Hear ye! The day of reckoning is here! Cupid (or someone) has proclaimed this as Turn-About Weekend. From Friday until Sunday the girls will make the dates, pay the bills cut in at the Juke Prom and all the trimmings. If you have ever had to miss the first of the movie because she just washed her hair and "couldn't do a thing with it" or he got into an important session with "the boys" then this may be the opportunity you have been waiting for.

Girls, here is your chance to break the ice with that good-looking brunette in your history class or the cute blonde in English. He's probably been admiring you from afar but he is just bashful. Forget that you are a little shy too and barge right up and ask him to go to the show or the dance with you. He will be thrilled to his shoelaces. This is your opportunity to set a shining example of your idea of a perfect date's behavior. (You will be surprised to find it isn't as easy as you have been telling the kid brother.

Boys, you have earned a rest. Haven't you ever wondered how it would feel to have someone open and shut doors for you, pay the way to the movies, and buy the eats (Particularly nice after the holidays have indented the old banyroll!) This is a good time to check up on that old charm too. Perhaps it is getting a little rusty and a turn-about will bring its weakness to light. If you should happen not to get a date you don't have to deflate your ego entirely—just remember there is a shortage of girls and resolve to meet those who are here so you will rate next time.

Annual Meet Of Agricultural Writers Scheduled

Following the lead of some of the eastern schools, Baylor University sets aside an entire week of the long term as Turn-About Week. This practice has become so popular that it is now an annual affair in which everyone participates. Last August "Turn-About Week" was inaugurated here at A. & M., and—to the delight and amusement of all who knew about it—a hilarious good time was the result.

Heaton Appointed Acting Registrar For Leave of Maj. Howell

H. Lloyd Heaton has been appointed acting registrar by T. O. Walton, president of the college, to serve during the absence of E. J. Howell, who has been registrar for the past eleven years. Howell, a major in the U. S. Infantry Reserve has been called on to report at the office of the chief of the Morale Branch in Washington, D. C. for a year's service in the U. S. Army.

R. G. Perryman will act as assistant registrar, Dr. Walton announced.

Heaton is a graduate of the Stephen F. Austin State Teacher's College but secured a master of science degree at A. & M. Perryman graduated from North Texas State Teacher's College.

Traffic Light At North Gate Removed To Permit House Move

The traffic light at the North Gate was removed to permit a house to be moved east on Sulphur Springs Road, Mayor Frank G. Anderson said. The light will be replaced immediately.

Meeting of Texas Agricultural Workers Assn. Is Announced

The Texas Agricultural Workers Association will meet Monday, July 14 at 9:30 a. m. in the Animal Industries Building Library.

The association luncheon will be held in the Banquet Room of Sbis Hall, Monday noon, July 14 at 12:15, where Eugene Butler of the Progressive Farmer Magazine will preside at the meeting.

The local committee for arrangements has been chosen with Minnie Mae Grubbs, District Agent, Extension Service, A. & M. College of Texas, as chairman. Other members of the committee are W. Bassett Orr, B. F. Vance, Maurine Hearne, D. W. Williams and E. O. Siecke.

Entertainment Slated For 4-H Club Membership

Three thousand Texas 4-H Club boys and girls are expected to attend the state 4-H Club Short Course which will be held here July 16-18.

L. L. Johnson, State Boys' Club Agent, will be in charge of the boys' division of the 4-H Club, and Miss Onah Jacks, State Girls' Club Agent, will be in charge of the girls' division.

Meals for the club boys and girls will be served at the Mess Hall in the new dormitory area as follows: Breakfast 6:45 a. m., Dinner 12:15 noon, and Supper 6:00 p. m.

The club members can buy meal tickets for the meals from breakfast Thursday, July 17 to July 18 inclusive, for \$1.80 or they can pay 35¢ for each meal.

On Wednesday, July 16 at 6:45 p. m. the group will meet in the Stadium for a program titled "Organization of Boys," with E. C. Martin acting as chairman. At 7:30 the group will go to Guion Hall for a program with Herbert Ross presiding. This program will be composed of music by the Hidalgo County 4H Club band. "Freedom We Defend" will be played by the Stephen F. Austin High School band from Bryan.

The boys will participate in judging and demonstration contests on Thursday, July 17 and the girls will attend meetings that will be of much interest to them; on Friday there will be educational programs for both the girls and boys which will be concluded Saturday.

Board Of Directors To Meet Saturday To Award AAA Contract

The Board of Directors is scheduled to meet Saturday to award the contract for the AAA building from the bids received. The Board will transact other pending routine business.
