

Official Notices

It has been recommended by the Traffic Committee and approved by the President of the College that the following streets be closed for the noon formation from 12:10 P. M. until 1:00 P. M.; for the supper formation from 6:10 P. M. until 7:00 P. M., effective Saturday, October 25: Houston Street—Bizzell Hall and northwest corner of old mess hall.

Ross Street—in front of Exchange Store. West entrance to campus at Memorial Monument.

Jones Street and Dr. Marsh's.

SENIORS

Senior students should obtain personnel record forms from their respective departments and turn them in to the Placement Bureau, former Student Association, Rooms 104-133, Administration Building as soon as possible. Those desiring leaflets made should order them now.

For your information, employment officers of several large organizations have already arranged dates this fall for campus visits and an early completion of your personnel record is advisable—Placement Bureau, ASSOCIATION OF FORMER STUDENTS.

AERONAUTICAL ENGINEERING
All students who are taking the Aeronautical Engineering Course should be sure that their registration card lists them in this Department. In case of error please report at once to Dean Gilchrist's office for "Change of Course" card.

BETTER BUYMANSHIP GROUP MEETING
The Better Buymanship group will meet Wednesday afternoon, October 23, at 2:30 p. m. in the home of Mrs. J. N. Thompson, 214 Foster, College Hills. After a short discussion, the group will go to McCullough-Dansby's Furniture Store for a demonstration and talk on "How to Buy Your Money's Worth When Buying Furniture." All those interested are invited to attend.

FELLOWSHIP LUNCHEON
There is room for six more college employees at the Spanish table this Thursday at the Fellowship Luncheon—Roy L. Donahue.

AGRONOMY SOCIETY
The Agronomy Society will initiate new members at 7:30 tonight in the meats lab. of the A. & I. Bldg.

PRE-MEDICAL SOCIETY
There will be a meeting of the Pre-medical society Thursday, November 23 in the Biology lecture room immediately after yell practice.

A.S.M.E. MEETING
There will be a meeting of the American Society of Mechanical Engineers tonight at 7:30 in the Physics lecture room. The program will feature talks on engineering by M. E. Seniors. Those intending to speak include Joe Gibbs, Jack Smithers, Bob Bruce, and George Nassauer. Further plans for the A.S.M.E. dance and banquet will also be discussed.

All M.E.'s who have not previously attended are invited to come out and sign up.

THE INSTITUTE OF AERONAUTICAL SCIENCES
There will be a meeting of the Institute of Aeronautical Sciences tonight after yell practice in the Chemistry Lecture room.

An interesting Pan American Airways' technicolor film on Hawaii will be shown. All members are urged to attend, and anyone interested in becoming a member

is invited to attend.

HORTICULTURE SOCIETY
There will be a very important meeting of the Horticulture Society Thursday night immediately after yell practice in Room 103 Ag. Bldg.

It is very important that all members be present and new students are given a special invitation to attend.

AUSTIN A. & M. CLUB
Important meeting of the Austin A. & M. club Thursday night after yell practice in Room 106, Academic building. All boys from Austin and Travis county are cordially invited to attend.

BIG SPRING & VICINITY
There will be a meeting of all the boys from around Big Spring, Midland, Odessa, Crane, Monahans and Wink in Room 120 Academic Building Thursday night after yell practice. Cigars will be served.

FOOTBALL USHERS
There will be a meeting of football ushers Thursday at 5:10 p. m. in B ramp of the stadium.

AG. COUNCIL MEMBERS
All Ag. Council members having Agriculturist tickets in their possession will please turn them in at the Student Activities Office.—Roland Bing.

Classified

LOST—Thursday at 3:30 on corner in Bryan—Alligator Trench Coat.—H. G. Schiff, B-1 Hart. Reward.

LOST—If anyone has information concerning a dark brown suitcase containing one junior blouse and other pieces of uniform left at the M. P. Station at college after the 7 P. M. pulled in—Notify Chris Schaefer—Room 203 No. 1.

REWARD—For the return of a brown leather jacket lost in the basement of the Academic Bldg. last Thursday. See Hynds, Room 207 No. 11 for liberal reward.

LOST—Campaign hat in Sbia Mesa Hall, Field Artillery hat cord. Also brown key case, room key and P. O. Box key—somewhere on campus. Please return to J. M. Hood, 77 Leggett.

LOST—A general biology book in Room 122 Academic Building. Will finder please come by L-5 Hart. Reward.

LOST—Brown leather jacket with California Sportwear label, on Aggie corner on the Dallas-Madisonville highway. Finder please return to E-12 Hart. Reward.—Aron Seibel.

LOST—A green Stetson hat Friday afternoon behind Leggett Hall. Finder please notify Joe F. Bourn for reward. Room 25 Leggett Hall.

AGGIES BLOCK

(Continued from Page 4)

against the A team boys. The squad looked particularly impressive in stopping the tricky Baylor offenses, reported by Marty Karow.

New Plays
The team showed lots of pep and spirit in its workouts, and is really working hard in preparation for the Bears. New plays have been introduced by Coach Norton in an effort to strengthen the already potent Aggie offense.

Meanwhile reports reaching here from the rival camp have it that Coach Frank Kimbrough's boys are working hard on pass defense in an attempt to halt the march of the vaunted Aggie "Aerial Circus."

Good news for the Bear supporters is that Jack Wilson is practically recovered from his head injury suffered in the Villanova game and will probably be able to start Saturday. Should he be out however, Kit Kittrell, sensational sophomore will furnish a capable replacement.

Line-Plunger Crain
Coupled with the famed passing combination of Dwight Parks and Jack Russell, the line plunging of Milton (Freight Train) Crain brought joy to the hearts of the Baylor fans. Running against the second team using Aggie defensive formations, Crain piled up plenty of yardage with his head-on plunging.

The Bears will continue their heavy workouts through today with plans for a light drill Friday before embarking for College Station and the Texas Aggies.

KIMBROUGH

(Continued from Page 5)

the following year as head coach after eight years of coaching elsewhere. In the six years, 1935 through 1940, he tutored the Cowboys, his teams ran up 47 wins, 8 losses, and 4 ties. Southwest Conference teams accounted for four of his eight losses. Hardin Simmons' percentage for the six seasons was .855.

This is Coach Kimbrough's first season at Baylor university and he already has a favorable record, winning three out of the first four games played so far this season. In the opening game, his Bears defeated the Hardin Simmons Cowboys by a 20-0 score. Kimbrough succeeded Morley Jennings, who resigned as the Baylor coach to become athletic director of Texas Tech.

Ann Sheridan, the screen's "oomph girl," attended North Texas State Teachers college and later taught school in Texas.

Col Seward Is Featured Speaker At ASCE Meeting

Colonel O. A. Seward, senior contact member of the student chapter of the American Society of Civil Engineers, spoke to the society at its regular meeting Tuesday night. Seward graduated here in 1909 and now lives in Groesbeck.

At the meeting the A.S.C.E. decided to join with the Aeronautical Science club to hold their annual dance this year. Last year the civil engineers held their dance separately.

Approximately 20 juniors and seniors filed a request at the meeting to attend the Texas Senior A. S. C. E. meeting to be held in Fort Worth October 31 and November 1.

COSMOPOLITAN

(Continued from Page 1)

something about the nature of the lectures that you will hear. The lectures will be of two kinds, the general informative talks given by members of the club concerning their homeland's customs, culture, and economic or social problems; and the discussion lectures given by visiting faculty members of foreign legation staff members upon subjects of international scope.

One of the highlights of these faculty member speeches is one to be given by Dean Kyle. The club is reserving one lecture space for him because it has heard that he will be back shortly and will visit the organization again as he has in the past.

Many club members have been personal friends of world leaders such as Hahatma Gandhi and their views came to the club uncolored by international politics or diplomacy. In today's world first hand information from foreign lands, via the lips of newly-arrived foreign students, is indeed a previous commodity which you cannot afford to miss.

One of the outstanding activities of the club for this coming year will be a picnic which will be one of the biggest affairs on the campus. The club hopes to bring together all the foreign clubs in the college to jointly invite the Bryan Spanish Club and those faculty members who have been most intimately related with these organizations for a gala day of festivity.

Brooks to Attend College Convention

Dean T. D. Brooks of the graduate school, will attend the national convention of the Land Grant College Association at Chicago November 10, 11 and 12. Brooks is a member of the executive committee of the graduate work section of the association.

CHEMICALS

(Continued from Page 1)

resistance coils is another item that has been taken off the market. Women will miss their favorite deodorants this year, as the main constituent in them is aluminum chloride, and aluminum is being used in airplanes. The same goes for coffee pots and electric toasters. Magnesium is a difficult metal to obtain and Dow metal cannot meet production demands. The hard rubber comb that you buy is becoming increasingly difficult to obtain and in the future you may not be able to get them at all. These articles will be replaced by celluloid or plastic products.

There will be a shortage on dice and dominoes not only because they are made of celluloid and ivory but because there is a shortage of skilled labor needed to produce them. The same problem faces the Christmas shopper this year; Cellophane wrapping paper will be conspicuously absent from gifts this Christmas. Going further, look what comes in tubes, and you will see why metal containers are becoming increasingly hard to get.

Already in evidence that aluminum and tin is being used for national defense is the absence of the metal foils around candies and gum.

One of the main problems of inflation caused by national defense is going to be the regulation of salary for the "salary man." The farmers have received increased incomes along with the price raising but the man on a salary has not. This will be an economic problem left up to the "Brain Trusts" to solve.

FLAG

(Continued from Page 1)

night and the corps decided to replace the banner to show that the occurrence was not the sentiment of the corps.

The student who removed the flag was introduced to the T. C. U. students at the dance in Fort Worth Saturday night by T. C. U. yell leader, Joe Thompson, where he apologized for the act and stated that it was not an act of the corps.

After the telegram apology had been received at T. C. U. Monday afternoon, Dean Colby D. Hall of the university stated, "It was just what I expected of such a fine school, and I am very glad that the excellent relation that has always existed between the two schools can go forward."

Letters from former A. & M. students who witnessed the incident have also been received. They expressed a sentiment similar to that of the corps and expressed sorrow that the incident occurred.

In a letter to Don Gabriel, the Battalion editor, and Gillis, which accompanied the Open Forum letter in this issue, James Williams, '19, former president of the Dallas A. & M. Club, stated that the event was all the more regrettable because "the trick was pulled against T. C. U., the cleanest student body and cleanest football rivals we have."

J. S. Allen, president of the Fort Worth A. & M. Club, called Gillis long distance Tuesday afternoon expressing regret that the incident had occurred and congratulating the corps on the spirit of sportsmanship they are showing in replacing the flag. Similar congratulations were received from Dr. T. O. Walton, president of the college.

Some economical suggestions—Tongues, Sweetbreads, Brains, Hearts, Veal Loaf Meat, Stew Meat, Hamburger Meat, and Weiners.

Brazos County Votes On Conservation Stat

An election for the creation of the Brazos-Robinson Soil Conservation district will be held at the Missouri Pacific depot at College Station, from 7 a.m. to 7 p.m., October 25. All persons who hold title to any farm or ranch, and who resides in this county, are eligible to vote.

The Soil Conservation District Law permits the land owners to form themselves into a district for conservation purposes.

Texas produces about 90% of the polo ponies in the United States.

Bryan Banks Have Holiday for Game

The three Bryan banks will observe half holidays for the A. & M.-Baylor game and the A. & M.-S. M. U. game. The First National Bank, City National Bank, and the First State Bank & Trust Co. will close at 1:00 p.m. Saturday, October 25, and also on Saturday, November 8 in order that employees may attend the A. & M.-Baylor game and the A. & M.-S. M. U. games, respectively.

A. & M. had six yell leaders in 1919.

THE SMOKE'S THE THING!

IT'S SWELL TO KNOW THERE'S LESS NICOTINE IN THE SMOKE OF CAMELS—I SURE LIKE THAT Milder SMOKE!

CHECK, PARDNER, CAMELS ARE Milder—EXTRA Milder!

The smoke of slower-burning Camels contains

28% LESS NICOTINE

than the average of the 4 other largest-selling brands tested—less than any of them—according to independent scientific tests of the smoke itself!

SMOKING WOULDN'T BE HALF THE FUN WITHOUT CAMEL'S EXTRA FLAVOR

CAMELS ARE COOLER, TOO

IT'S GRAND CHAMPION COWBOY PAUL GARNEY. At Cheyenne, Tucson, Pendleton—on sun-fishin' saddlers... barbarous bareback broncs—this lean, leathery Arizona tophand outperformed 'em all. He tells you this about cigarettes: "Less nicotine in the smoke means just that much more mildness to me. I'm glad I switched to Camels."

Yes, by actual comparison (see right, above) less nicotine in the smoke than any of the 4 other largest-selling brands tested. And the smoke's the thing!

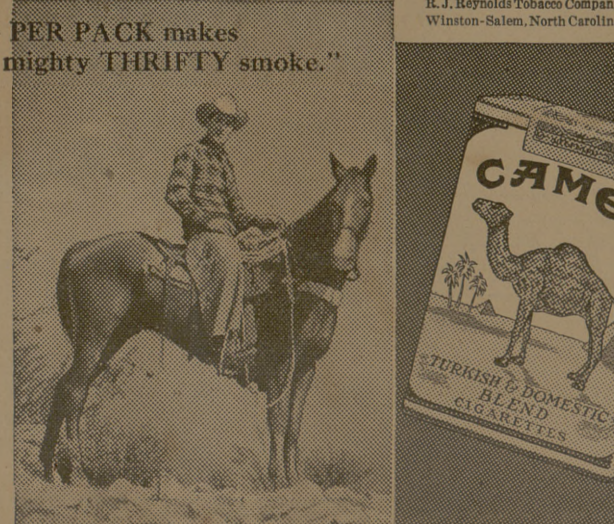

Less nicotine in the smoke—freedom from the irritating qualities of excess heat—extra mildness. Switch to the slower-burning cigarette of costlier tobaccos now!

"That EXTRA SMOKING PER PACK makes slower-burning Camels a mighty THRIFTY smoke."

BY BURNING 25% SLOWER than the average of the 4 other largest-selling brands tested—slower than any of them—Camels also give you a smoking plus equal, on the average, to

5 EXTRA SMOKES PER PACK!

For even greater economy and convenience, get Camels by the carton at attractive carton prices.

IF YOU'RE SMOKING MORE than you once did, you'll appreciate Camel's slower burning all the more. Not only less nicotine in the smoke but also more coolness and an extra flavor that livens up even a tired taste. You don't get tired of smoking Camels—they always taste good.
