Conduct For TU-Aggie Tilt Is Discussed

Aggies Plan To Be "Good Hosts" For Thanksgiving Game

Conduct at the A. & M.-Texas game, regulation uniform for meal formations, organization telephones, and Aggie football tickets were discussed at organization commanders meeting held at 6:15 Thursday night in the Sbsa Hall banquet room.

Those present were the regimental, battalion, and organization commanders, housemasters, and project house captains. The speaker was Lieut. Joe E. Davis, acting commandant.

The organization commanders were told to instruct their underclassmen that proper conduct at the A. & M.-Texas game shall be for the Aggies to be good hosts to all visitors. This subject will be brought to the attention of the day students at following drill periods. Seniors will take such steps as are necessary to see that no incidents which reflect on the school occur on the day of the game. Some 40,000 people will be here to witness the game, and the Aggies—any untoward event will reflect on the cadet corps either to their credit or otherwise. Senior officers urge members of the corps to maintain such conduct as will reflect to the honor of the corps.

For the meal formations freshmen and sophomores will wear cotton khaki shirts and wool pants. (See COMMANDERS, page 4)

Math Club Opens Monthly Contests

The Math Club is sponsoring a monthly contest open to all students taking mathematics. The contest consists of a set of at least five problems, and a prize is given for the best solution of these problems. The prizes are to be books, which are of interest in the field of Mathematics. The prize for the November contest is "Mathematical Wrinkles," by S. I. Jones.

"Mathematical Wrinkles" is a book of Math. puzzles, tricks, and curiosities, which will be of interest to freshmen as well as to upper classes.

R. R. Lyle, in room 210, academic building, has a copy of the prize and also the list of questions. If you wish to enter the contest, see Lyle for a copy of the questions.

The Math. Club meets on the first and third Mondays of every month at 7:30 p. m. in Room 212 academic building. Dr. Gross of the Mathematics Staff will give a brief talk on "Short Cuts in Figuring."

12,000,000 Year-Old Fossils Discovered by Hesse, Turner

In the gulleys of a pasture near Burkville, Newton county, in East Texas, scientists have found fossil remains that definitely link that area with the geologically important Miocene period of some 12-15,000,000 years ago, according to announcement of Dr. C. J. Hesse, assistant curator of the Texas A. & M. college museum.

Dr. Hesse, accompanied by Dr. F. E. Turner of A. & M. and Dr. H. B. Stenzel of the University of Texas, visited the area a few days ago; and Dr. Turner discovered the lower jaw of a fossil horse.

Further search was rewarded when Dr. Hesse found the skull of a rare fossil beaver.

The specimen, of course, is small. Dr. Hesse pointed out, the entire skull being about six inches long. It is the only skull of the animal that has ever been discovered, Dr. Hesse says. It is of an animal related to the beaver, but is larger and has many points of difference; but probably lived in the streams and built dams of the trees that that far off time. It is one of the largest rodents that ever lived and up to this discovery, it was known only from a few teeth, two of which were found in Nebraska many years ago, and several more teeth which

Student Aid Fund Gift

Charley Tigner, manager of the Campus Theatre, presented a check for \$119.75 to the Student Aid Fund. Dan Russell, rural sociology department, received the check for the Committee. The money was obtained from a 5-cent tax on passes during the past year.

Student Aid Fund Receives Theatre Check

Student Aid Fund officials saw their general fund increased by a check for \$119, presented by Ben S. Ferguson, prominent College Station and Dallas theater owner. The check represented proceeds from the pass-tax charge imposed by him last March during the drive to increase funds for the Aid Fund.

Former Chairman George M. Fuermann received the check for the fund officials, thanking Ferguson for his aid and cooperation in this work. The check was turned over to the treasurer for deposit.

Ferguson has aided the college students in many ways since he purchased the Campus theater some years ago. He announced that the tax-charge would be continued, and that future funds would be donated to the same cause, although, he said, "federal defense tax requirements will doubtless decrease future payments."

Former Aggies Work on MS Degrees

Two former Aggie, Beal D. Harvone, class of '39, and E. I. Whiteley of the class of '41, are doing graduate work at North Carolina State College. They are working as assistants in the department of agronomy. The work being done by these A. & M. graduates will lead to a master of science degree at the end of the second year.

Two additional openings are available at this college as research assistantship in soil chemistry, and a teaching assistantship in field crops. Each of these positions pays \$60.00 a month for twelve months. Anyone interested and qualified for the positions should see Dr. Ide P. Trotter, head, department of agronomy.

Aggie Fans To See Movies Of TCU, A&I Games

Members of the Brazos County A. & M. Club will play hosts Monday night to College Station and Bryan football fans at the first public showing of movies of the T. C. U. - A. & M. and A. & I. - A. & M. games played this year. The movies will show in the chemistry lecture hall starting at 7:30, club officials announced Friday.

Featured games to be shown are the A. & M. - A. & I. tilt played at San Antonio and the A. & M. - T. C. U. game, played recently at Fort Worth. The athletic committee of the club voted to open the showings to the public, following several requests by College Station faculty members.

Copies of the Texas Aggie football books will be given away at the door by H. B. McElroy. This new edition of the book will prove to be of great value at the home games to be played here soon, McElroy stated.

The movies will start promptly at 7:30 p. m. and all club members and their families as well as college Station and Bryan business men and women, have been extended a blanket invitation to attend the showing.

Members of the athletic committee who are sponsoring the show are S. A. Lipscomb, chairman; P. G. Haines, Roland Dansby, Sankey Park, and C. K. Leighton. This motion picture show will replace the regularly scheduled meeting of the A. & M. Quarterback Club.

Five New Men Instruct Math Porter Announces

Five new members are on the staff of the Mathematics department this year, it was announced by W. L. Porter, head of the department. The new instructors are Walter B. Coleman, W. Buell Evans, James R. Smith, Charles H. Cunkle, and H. W. Grant.

Coleman received his A. B. degree from Swathmore College and his M. A. degree from both Lehigh University and Harvard. He also did graduate work at Columbia and Texas universities. Before coming here Coleman taught at the Georgia School of Technology and at Texas University.

Grant took his A. B. degree at Baylor University and his M. A. degree from Texas University. He taught at several schools including S. M. U.

Admiral Woesche Is WTAW Guest Speaker

Rear Admiral Russell R. Woesche, Commandant of the United States Coast Guard, was the guest speaker on the regular WPA program heard at 11:25 a. m. Friday, over station WTAW. Admiral Woesche told of some of the work WPA has done during the past several years in improving Coast Guard stations and equipment.

The musical portion of the program, which is a weekly transcribed feature of this station, was provided by the United States Navy Band under the direction of Lieutenant Charles Benter. The selections played include "Rustle of Spring," "Old Comrades March" and "Cocoanut Dance."

Dr Walton Is "Busy Man" For A&M & Uncle Sam

President Walton Will Meet Committees In Chicago, Washington

Dr. T. O. Walton, president of A. & M. college enters a busy month of November in connection with his numerous appointments to serve in the national defense activities of various governmental and educational groups.

Dr. Walton will be in Chicago November 6 for the annual convention of the Association of Land Grant Colleges. He is chairman of the executive committee of this group. He will leave for Chicago immediately after delivering the principal address at Midland on November 4, before the annual meeting of the West Texas Chamber of Commerce.

Later in November Dr. Walton is expecting to go to Washington for the organization meeting of the Commission on Colleges and Civilian Defense, headed by Mayor Fiorello H. LaGuardia of New York. In accepting his appointment to this group, Dr. Walton wrote Mayor LaGuardia:

"I have placed myself unreservedly at the service of all agencies of the government charged with responsibility for any phase of our National Defense Program, and I shall be happy to serve."

Other recent appointments tendered Dr. Walton include membership in the American Academy of Science, a Fellow of the Texas Academy of Science; Member of the advisory committee of the joint Army and Navy Committee on Education and Morale; member of the executive committee of the National Committee on Education and Defense; chairman of the State Nutrition Committee; chairman of the Cotton Research Committee and a member of the State Council on Defense.

Boynton Will Lecture On How Aggies Get Jobs

A resume of the book, "6 Ways to Get a Job," by the author, Paul W. Boynton, will feature a called meeting of graduating seniors of A. & M. college, Wednesday, November 6 in Guion Hall. The lecture is being sponsored by the Placement Bureau of the Association of Former Students. Boynton at present is supervisor of Employment for the Socony-Vacuum Oil Company in New York.

The lecture will be one of the first in an educational program being sponsored this year by the ex-students association of the college. Plans under way now call for several other noted business men and lecturers to visit the school during the term.

Several ex-Aggies will appear on the same program, which is planned to give the seniors of the school a general resume of the difficulties facing them upon graduation.

Boynton is widely recognized as being one of the foremost personnel men in the United States, and is the author of several other pamphlets on personnel direction and management in addition to his book, which will be briefly reviewed at the meeting.

School authorities have announced that excused absences from 11 o'clock classes will be given so that all seniors may attend the meeting. The lecture will begin at 11 a. m., and will be held in Guion Hall. Officials from the Former Students Association will be in charge and will conduct the meeting.

ME Seniors Make Inspection Trips

Ninety Aggies made a detailed inspection trip of the Houston Power and Light, the Westinghouse Manufacturing plant, and the Texas Electric Steel Casting Co. last Tuesday. Students of the mechanical engineering department and men from the industrial engineering 401 class made the trip. The Texas Electric Steel Casting Co. is offering a prize of one hundred dollars to the best paper written on the tour of the plant.

Eco Speaker

George L. Boble

George L. Boble Will Speak For Eco Club Monday

Expert Will Talk On Priorities And Small Business Man

George L. Boble, District Manager of the Priorities Field Service, Office of Production Management, will address the Economics Club Monday night at eight o'clock in the lecture room of the Geology-Petroleum Building.

Boble's subject is "Priorities and the Small Business Man." With more than 20,000 small business men facing extinction because of the priority program, this subject will be of interest to all students interested in economics.

Boble is a graduate of Cornell University. He received his bachelor's degree in mechanical engineering in 1920. During the World War he served as a member of the 105th Machine Gun Battalion of the 27th division of the A. E. F.

After graduating from Cornell, Boble went to Stephens County and was farm boss and field superintendent for the Lion Oil Corporation. Later he served as Secretary-treasurer and director of the Houston Production Company for 15 years. From 1937 to 1940 he was vice-president and production manager of the West Gulf Petroleum Company.

A native of Texas, Boble was born in Dallas and has lived in Houston for the past 38 years. All students and faculty members are invited to attend this speech.

Texas Electric Metermen Gather For Annual Meet

Texas electric metermen will gather at Texas A. & M. college for their annual short course Nov. 8-8, Norman F. Rode, professor of electrical engineering at the college, has announced.

Engineers from several of the large electrical equipment manufacturers will be on hand to give lectures concerning their products as well as members of the college staff who will conduct general theory classes.

One of the most important discussions will cover the code for electricity meters and will be led by a member of the National Meter Committee, whose name has not been announced.

Senior Livestock Makes Practice Trip

The senior livestock judging team will make one of its few remaining practice trips this week-end. The purpose of this trip is to give the men practice on fine animals and to aid in deciding the six men, who will make the trip to the International Livestock show at Chicago, representing A. & M. The men will leave College Station Saturday at 5 a. m. to visit Black's and the Silver Creek Hereford farms. Sunday, they will visit Glenn Retreat's, Hampshire sheep farm; Nehmeyer's, Southdown sheep farm; and Holt's Shropshire sheep farm. They will return here Sunday night.

The men going on the trip are: Jack Cleveland, Jake Hess, Vic Loeffler, Gordon Grote, Newton Craig, W. T. Berry, and Tommy Stuart. Coach I. T. Edwards and William Warren will make the trip with the boys.

Fighting Aggie Team Seeks Win Over Arkansas Eleven

New Balcony in Campus Theatre Has Been Started

Balcony Will Seat 150 on Completion By Sat. November 8

Construction of a new balcony in the Campus Theater is now in progress and plans are to complete the project by Saturday, November 8.

Workmen have been working at night after closing hours as an effort to hurry the construction. When completed the balcony will increase the audience capacity of the theatre by nearly 150 people.

An unusual feature of the new balcony will be the use of "lovers' seats," a large cozy chair with room for two. The policy of the Campus will be to allow only couples to use the balcony.

The new seating space will be modernistic in every detail. There will be two entrances to the balcony, both off the mezzanine.

Positively No More Tickets Left For The Thanksgiving Day Game

There are no tickets of any kind left for the Texas A. & M.-University of Texas football game here on Thanksgiving, Nov. 27. The phone calls, telegrams and letters for tickets continue to increase daily with all departments of the college sharing in the flood of requests.

A check up of all departments which might have saved some tickets found them all in the same shape—not a single ticket left and that included the office of Dr. T. O. Walton, president of the college; the athletic department and all the coaches and players there; the office of student activities, the department of information and college publications, and the Association of Former Students of A. & M. college.

No reservations were taken for the game so there is no chance of any being unclaimed just before game time, E. W. Hooker, Aggie ticket manager, said.

Short Course Registers 8813 Persons Last Year

Did you know that during the school year of 1940-41 a total of 8831 persons registered at the 30 short courses and conferences held at the college. It is estimated that almost that many more attended the courses but did not register. The total enrollment for the full school year, including the summer session, was 7767, which was surpassed by the short course registrants.

Cowboys, Cowgirls Ride High For Rodeo Awards, Trophies

By Duke Harrison

Cowboys and cowgirls are again preparing their equipment in anticipation of the wildest rodeo of its kind anywhere. When the gates of the 22nd annual Texas Aggie rodeo swing open on November 7th and 8th, some of the best amateur cowboys and most beautiful cowgirls in the West will be riding "high, wide, and handsome" for the cash awards and trophies to be given in the various events.

These events, which include bronc riding, both saddle and bareback, calf roping, wild-cow milking, steer riding, and a wild-mule race, will be contested on some of the best stock that the management of this year's rodeo has been able to secure. From the looks and past performances of the stock, we should say that the cowboys are going to need a "deep seat and a tight rein" to stay aboard the "hurricane deck" of these outlaw horses and steers.

A new attraction has been added to the already colorful annual affair, in the person of some eight beautiful, hard riding, range-bred, cow girl sponsors. These girls are not being introduced for color alone, but to show that they are experts in horsemanship and to prove the modern rodeo is not for the benefit of the cowboys alone.

Most of these girls have appeared at the leading rodeos throughout the nation, including the Fort Worth rodeo and the largest and foremost of them all, the Madison Square Garden rodeo in New York City. Some of the sponsors scheduled to be on hand and to compete for the silver loving-cup, given the winner of the contest, along with prizes to be given the runners-up are Jo Morris and Patsy Morrish Coleman, Texas, Nita Mae Boyd, Abilene, Maxine Maier, Orange, and Elizabeth Miller and Billie Lou Thompson, who hail from Snyder, Texas.

Spotlight Gleams On Texas-SMU Tilt; Aggies-Pigs Battle

By D. B. Cofer (Junior Sports Editor)

The Texas Aggies, half way through their season with five straight victories to their credit, invade Arkansas today to meet the Razorbacks at Little Rock in the second feature of the Southwest Conference card for Saturday. The spotlight of all Texas will be on Dallas where the Mustangs will test the potent Texas Longhorns, but don't take too much from the Aggies and the Razorbacks, they are due to put on a first-class pigskin show.

Counted to battle for the cellar position in pre-season picks, the Aggies and Razorbacks have shown surprising strength. The Aggies, fighting and hustling all the way, have been the biggest surprise, for they have taken Sam

BROADCAST
The Texas Aggie-Arkansas Razorback game will be broadcast over the following Texas stations with Cy Leland handling the play-by-play description and Tee Casper the local color at 1:50 this afternoon:
KGKO Fort Worth
KXYZ Houston
KTSB San Antonio

Houston, Texas A. & I., N. Y. U., T. U. and Baylor into camp on successive Saturdays. But the Razorbacks have not fared so well. They have been defeated by Texas, T. C. U., and Baylor, but in doing they out first-downed the Longhorns and scored more points on them than any other team this season. Last week the Razorbacks knocked off a heretofore unbeaten Detroit University by the score of 9 to 6, a field goal in the last minutes of play doing the trick.

Contest Begun For Landscape Seniors

Cash awards totaling \$75.00 will be the cause of keen competition among the seniors of the landscape department. To compete for the awards, the students must design and landscape a five acre estate, with 75 per cent of the final decision depending on design, and the other 25 per cent on rendering and presentation of the problem. The money is being donated by Dave McNeil, an ex-Aggie from San Antonio. McNeil, the leading landscape architect of that city, along with some competent architect will judge the problems.

This competition will not begin until the completion of the present National Intercollegiate competition problem, which is now being worked on, and will be due November 27.
