CWS Award Competition Begins Nov 1

Company Awards And Individual Bars to be Given

Captain W. S. McCulley, senior instructor of the Chemical Warfare Service battalion, issued a memorandum yesterday in regards to the various awards to be made to the Chemical Warfare regiment for the coming year. There will be three different awards made this year; these awards are the color company award, the Baker trophy award, and the Chemical Warfare Proficiency awards.

Beginning November 1, the competition to decide the color company for 1941-42 will take place; this award will be given on the following basis:

- a. Consolidated grade point average, i.e. total grade points divided by total hours for each company. Weight 50%
- b. Dormitory inspection, i.e., for each room against which demerits are assessed, minus two for each room against which demerits are not assessed but not in satisfactory order, minus 1; assessments to be totaled, divided by 2 and subtracted from 100. Weight 40%
- c. Class attendance; Weight, 10%

The Baker Trophy Competition to decide the best drilled platoon will take place on the following basis, beginning parts "a" and "b" on November 1, 1941.

- a. Personal inspection at drill, Weight 20%
- b. Percentage of proficiency awards. Weight 40%
- c. Execution of occupation of position and "action" (To take place in April). Weight 40%

The Chemical Warfare Proficiency Awards, consisting of bars two and five eighths inches long by three-eighths inches wide, the lower half of cobalt blue, the upper half of yellow, with provision for attaching from one to seven bronze stars to indicate times won, will be awarded on the following basis:

- a. Grade point average, per semester:
 - (1). Freshmen, 1.5.
 - (2). Sophomores, 1.25.
 - (3). Juniors 1.2.
- (See CWS AWARDS, Page 2)

Gillis Addresses TSCW on Defense

Thursday morning in the auditorium of the Texas State College for Women, Tom Gillis will speak on "What Colleges Can Do in National Defense." This talk will be part of a program scheduled for Defense Week at the college which was designed to give students a chance to check their present defense activities and plan others. The invitation was extended by Sara Troy, president of the T.S.C.W. Student Body. Elmer L. Scott of the Civic Federation of Dallas, will be the other guest speaker.

ROA Meeting Of Officers and Seniors Scheduled for Tonight

A meeting of the Brazos County Chapter Reserve Officers Association will be held tonight in the Petroleum lecture room at 7:30. Col. Parks from the Houston Military district will be present to show some training films. All reserve officers and seniors are urged to attend so that they may become better acquainted and also to discuss the training program for the coming year.

DEADLINE FOR JUNIOR PICTURES

Nov. 3 thru 6—Composite Regiment.
Nov. 7 thru 11—Cavalry.
Nov. 11 thru 14—Coast Artillery.
Nov. 17 thru 20—Engineers.

Boynton

Paul W. Boynton, member of the editorial board of the Pennsylvania School and College Placement, will address the senior class on methods of obtaining employment, Boynton is being presented through the Placement Bureau of the Former Students Association. Members of the faculty and underclassmen are invited to attend the lecture.

Seniors to Hear Boynton in Guion Tomorrow at 11 am; Classes Excused

Paul W. Boynton, supervisor of employment for the Socony-Vacuum Oil Company of New York and author of the book, "Six Ways to Get a Job," will lecture to the Senior Class tomorrow morning at 11 o'clock in Guion Hall.

The subject of Boynton's talk will be "Six Ways to Get a Job" in which he will give the seniors a general resume of the difficulties facing them upon their graduation. This lecture will be the first of a planned series of educational programs presented by the Placement Bureau of the Association of Former Students. Other speakers will include a number of prominent lecturers and businessmen.

Boynton is a member of the editorial board of the Pennsylvania Association of School and College placement. He is outstanding in employment work and has been in this field for 25 years. After the lecture he will interview seniors who are interested in engineering work in foreign countries after graduation. Boynton is, also, the author of several pamphlets of personnel direction and management in addition to his book, which will be briefly reviewed at the meeting.

Lucian Morgan of the Association of Former Students stated that "the speech will be of interest to the seniors and will be on matters which seniors will appreciate." Included on the program

Spirited Aggies Trek to Arkansas Hills For Parade, Yell Practice and a Victorious Game

By Jack Keith
Little Rock—the capital of Arkansas and the hangout of seemingly thousands of soldiers from surrounding army camps—was invaded by some 500 Aggies last week-end. They poured in from Friday noon until game time Saturday by highway and train.

The Aggie special arrived in Little Rock early Saturday morning and about ten o'clock the band marched down Main Street to the tune of the Aggie War Hymn—much to the surprise of the Arkansas University students, who had been refused permission to have a parade. Yell practice, led by Skeen Staley standing on top of a policeman's motorcycle, was a source of amazement to the citizens of Little Rock. They had never seen such a display of school spirit by such a small group of students. In the stadium the Aggies took

Social Calendar

November 26	Bonfire Corps Dance
December 5	A.S.M.E. Dance
December 6	Corps Dance
February 6	Freshman Ball
February 7	Corps Dance
February 13	Architects Ball
February 14	A.S.C.E. Dance
February 20	Sophomore Ball
February 27	Corps Dance
March 6	Cattlemen's Ball
March 7	Engineer's Ball
March 13	Corps Dance
March 14	Field Artillery Ball
March 20	Coast Artillery Ball
March 21	Corps Dance
March 27	Cavalry Ball

Aggie Rodeo Tickets May Be Bought From AH Students Living in Dormitories

Tickets for the Aggie Rodeo, presented annually by the Saddle and Siroloin Club, are now on sale. Afternoon general admission tickets are 25 cents and all night general admission tickets are 50 cents and may be obtained from A. H. students living in the dormitories. All reserved seat tickets will be sold for 75 cents and are obtainable through the Animal Husbandry office in the agricultural building.

The program Friday afternoon and Friday night consist of eight major events. The rodeo will open with a wild mule race. Wild mules will be saddled and ridden from one end of the A.H. pavillion to the other by Aggie contestants. Following the wild mule race will be the calf roping contest which is to be event number two. Number three will be bareback bronch busting contests; number four; cowgirl sponsors contest; number five, saddle bronc riding. Duke Harrison, Hdq. Troop, Cavalry, will present his version of a cowboy clown and display trick roping as event number 6. The wild cow milking contest will follow Harrison's performance and number eight will be a bull riding contest.

Survey Course To Begin Here Nov 10

A course in surveying and mapping will begin here Monday, November 10. The course is a national defense course being given by the college and will last for a full 12 weeks.

Courses in strength of materials and design of structures will be offered in Houston soon, J. T. L. McNew, head of the department of civil engineering stated.

Several other defense courses are being offered in Houston at this time, some of which are for the purpose of training young men in engineering.

Aggie Ex at Randolph Promoted to Major

Captain William A. Stephens, San Antonio, has been promoted to the rank of Major in the U. S. Army Infantry reserve. He is a former student of A. & M. and Hardin-Simmons University at Abilene.

BC Erwin Called To Duty at Fort Benning

Lieut. Beryl C. Erwin of College Station has received orders from headquarters, 368th Infantry, Fort Huachuca, Arizona, to attend the Infantry School at Fort Benning, Georgia.

The school at Fort Benning is offering a course in rifles and heavy weapons which is to last three months.

All Skilled Craftsmen Not Engaged in Nat'l Defense Needed by US

As the efforts of the nation are united in building the most powerful air force in the world, the mightiest fleet on the seven seas, and providing the arms and ammunition for the United States Army, Uncle Sam sends the call for more workers. Three hundred thousand civil service workers will be needed by the end of December, 1942, to produce the arms that are the defense of America. The United States urgently needs engineers, draftsmen, naval architects, machinists, instrument makers, physicists, and economists. All persons not engaged in defense production should see their civil service secretary at College Station or at any first class or second class post office for complete details on how to get a civil service national defense job.

Col Welty Assumes Duties As New Commandant Here

Arrival Delayed By Lack of Relief At Newfoundland Base

Colonel Maurice D. Welty, the new commandant and P.M.S.&T., arrived on the campus yesterday to replace Lieut. Col. James A. Watson, who has been transferred to a C.C.C. camp in San Antonio. Most of Col. Welty's time was spent in moving into the residence which he will occupy during his stay in College Station, and getting his family settled in their new home.

The colonel will officially assume his duties as commandant today when he relieves Lieut. Joe E. Davis who has been acting commandant in Col. Welty's absence. His arrival at A. & M. was delayed because his successor at the Infantry Base at Newfoundland did not relieve him of his command at the time originally scheduled. Welty is a graduate of West Point from the class of 1910. During his 30 years in the armed forces, he has attended the Army War College at Washington, D. C., and the Infantry School Tank Corps. He is also a distinguished graduate of the Command and General Staff School at Fort Leavenworth, Kansas.

Band Expresses Appreciation For Making Train Possible

To The Cadet Corps:
The Aggie band wishes to express its appreciation given to us for the trip to Little Rock for the Arkansas game last Saturday. If the corps had not bought enough tickets on the special to make the trip possible for the band, we would not have been able to go.

The members of the band are grateful for the backing of the Twelfth Man which has been shown us this year, and we want to place our services at the disposal of the corps on any occasion.

Bob Russell
Cadet Major, Aggie Band

ED Department Organized to Do Blue Print Work

W. E. Street, head of the Department of Engineering Drawing, has announced the establishment of a blue printing service for the college.

A student having 18 months experience at industrial reproduction work has been secured to run the machine.

A new two tube mercury vapor Paragon Revolute machine has been made available for the work. This machine can be used in the reproduction of blue prints, negatives, blue line prints, and ozalid prints.

Work to be blue printed should be sent to room 38 of the Civil Engineering Building.

Maintenance Due By Next Thursday

Maintenance for the month of November, amounting to \$25, is now due and may be paid up until 5 p.m., Thursday at the fiscal office in the Administration building.

It may be paid with cash or personal checks, but the checks must be for the right amount, as no money will be given on personal checks.

The fiscal office closes at 1:30 p.m. every day except the last day when maintenance is due, and then it remains open until 5 p.m.

Gov't Again Sends Out Appeal for Men

In order to speed production of national defense, the federal civil service needs more consultants and specialists, men who have had successful purchasing, distribution, or marketing experience; men who have a thorough knowledge of production and distribution methods in any manufacturing.

Not a Girdle Advertisement-- Lose the Paunch the New Way

Paunchy waists and short winds are being paged—that is to say, any members of the faculty interested in getting a little exercise and recreation are asked to meet in the animal husbandry lecture room Thursday evening at seven o'clock. Volleyball, Aggiminton, or any other suggested sports can be arranged for if a sufficiently large group is interested.

Plans are in a purely tentative stage and the meeting is for those interested to decide on details of team arrangements, etc. If desired, a league could be formed in volleyball or any sport with teams from each department or building or campus area. This is a cooperative arrangement with an eye to eliminating that old line of "Yep, I need some exercise, but I just can't find time or anyone to make it a little more sociable."

Since daylight hours after work are getting shorter, most of the contemplated activities are indoor

CE Juniors Inspect Houston Steel Plant

At 10 o'clock this morning, a group of junior civil engineers will go to Houston to make an inspection trip. They will visit a steel and fabricating plant there. The students will have lunch as guests of the company and will spend the afternoon in the company's shops. Dr. A. A. Jakkula, professor of structural engineering, L. M. Legatski, instructor in civil engineering, and F. J. Benson, assistant professor in civil engineering, will go with the students who will make the trip by bus.
