

# Official Notices

Official notices must be typewritten and double spaced and turned in at the Student Activities office, Room 126 Administration Building, by 3 p. m. the day before they appear in The Battalion.

## Executive Offices

**ECONOMICS OF WAR**—Economics 414—This at 9 is being offered this present term by the Department of Economics. Any student interested should see Mr. I. G. Adams Academic Building, room 302.—F. B. Clark, Head of the Dept.

**CHEMICAL ENGINEERING SENIORS**—The Military Department has approved the substitution of Chem. Eng. 430, Powder and Explosives, for Chem 448 in the second semester of Chemical Warfare Service. All engineering students taking Chemical Warfare except those who took the Powder and Explosives course in Defense Training last year will be expected to enroll for Chem. Eng. 430 as a part of the general elective requirement.—Gibb Gilchrist, Dean of Engineering.

**ATTENTION SENIORS**—Because of the fact that many seniors apparently have been caught by the dead-line on personnel leaflets has been extended to February 1. Leaflets has been extended to February 1.—Placement Office, Association of Former Students.

**PERSONNEL LEAFLETS**—Printed personnel leaflets are ready for the following seniors. Please call for these at Room 133, Administration Building, at your earliest convenience.  
Boerner, A. R.; Cameron, W. S., Jr.; Capt. E.; Creel, H. G.; Crowell, J. W.; Cunningham, C. M.; Davis, W. C.; Dew, J. K.; Fagan, J. G.; Fisher, S. M.; Harris, R. D.; Koelling, R. K.  
Miller, H. F.; Petrasch, E. B.; Reagan, J. W.; Shepherd, N. H.; Tilton, R. J.; Woydell, A. T.; William, J. H.; Woodham, R. E.; Hantis, R. J.

## Meetings

**HILLEL CLUB**—The Hillel Club will hold an informal meeting Sunday night at 7 o'clock in the Lounge of Sbisra hall.

**A. & M. CONSOLIDATED**—The Mothers Club of A. & M. Consolidated School will meet Thursday at 3:30 p. m. in the Music Room of the High School. Come and hear Luke Patronella talk on "Foods and the Future."

**FENCING CLUB**—The Fencing Club will meet Friday at 7:30 p. m. in Room 205, Agricultural Building. All interested students please attend.

## Classified

**FOR RENT**—Large bedroom, clean, up-stairs, next to bath. Call 4-8634.

**FOR RENT**—In College Park room with private entrance, private bath and garage. Phone Mrs. Taubenhans 4-9159.

**WANTED**—Student ticket for Town Hall for rest of season. Call 4-4044, James Yarnell.

**ROUND TRIP TO DALLAS**—Leaving College 10 o'clock Saturday morning; leaving Dallas 6 o'clock Sunday afternoon. 1939 Oldsmobile with radio and heater. Price: \$2.00 round trip or \$1.00 either way.—See McCullough, 29 Legett, or Gillespie, 40, Legett.

Will the person who found a brown leather jacket at the Bryan Hitch-Hiking corner Wed., Jan. 21, get in touch with me for reward. Room 310, No. 4.—Henry Barlow.

**FURNISHED ROOM**—Twin beds, private bath, new home three blocks from East Gate. Ph. 4-6304.

**FOR SALE**—Senior boots and spurs, A-1 condition. May be seen at Holick's Boot Shop, or Call 2-2899.

**ROOM, Board, Apartments**—4 blocks north of North Gate. S. V. Perritte. Ph. 4-8794.

**LOST**—Between M. E. & Academic Bldgs. or in these buildings during registration, bottom of black Parker fountain pen. Please return to Guillermo Moncada, Jr., 305 No. 3. Reward.

## Q.M.C.

(Continued from Page 1)

of the department of agricultural economics here. Their work will begin this semester on February 9th and students who want one of the 250 advanced contracts available must be there by that time. There is also the possibility of scholarships or other assistance for students whose financial condition necessitates it, said Professor Barger.

Persons interested should see either Dean F. C. Bolton, Professor T. W. Leland, or Professor Barger, immediately.

## FORT WORTH

(Continued from Page 1)

freshmen "bleed meetings" are specifically forbidden under the new regulations.

A. & M., running on a wartime speed-up schedule, begins a new term Monday. In addition to the restraints mentioned already, there are other changes which will be in effect that day. The entire cadet corps turns out by companies for 10 minutes of physical drill before breakfast hereafter.

## Ambassador Greets Dean Kyle

The above picture shows former Ambassador Josephus Daniels greeting Dean E. J. Kyle in Mexico City this past summer. This meeting was the first stop made by Dean Kyle on a Central and South American tour. Dean Kyle is now reviewing his entire trip in Administration 404 and plans to supplement the course with motion pictures that he took. The course is offered Tuesdays at 11 o'clock and is held in the Physics Lecture room.

## Avoid Undue Alarm Concerning the War

In defense to the coming generation, adults should keep their conversation about war calm and assuring, for undue alarm or pessimism may do much harm to children in the household.

That's a warning from Dosca Hale, Extension Service specialist in parent education and child development, who says calm courage in adults will save children from much fear and worry.

"In these perilous times one of the greatest hazards we face is the threat to family life," the specialist says. "So time spent in learning to understand the needs of children under rapidly shifting conditions is time well invested for the protection of our homes and the future security of this nation."

She points out that adults are being called on to spend more and more time outside the home on defense jobs, and to meet this situation children should be shown that if they take on more home responsibilities they are helping in the defense program. There are many other ways in which small children may help. For example, they can save waste paper and help get it delivered to the proper authorities. They can help to save light and heat by turning off unnecessary lights and stoves and by reminding others to do so.

Most important of all is the feeling this work gives the child—the feeling that he is needed and that he, along with all the other people around him, is doing his bit in the great Victory program, the specialist explains.

## Specialized Fields Needing Manpower To Have Worker Deferments Granted

Urging the necessity of seriously considering for deferment students in certain specialized fields in which dangerously low levels of manpower exist, General J. Watt Page, State Selective Service Director, today warned local boards against classifying registrants without regard to the fact that they are in training or preparation for activities essential to the national health, safety, or interest, and war production.

This is particularly pertinent, General Page pointed out, in cases of engineers, chemical, physics, medical, and dental students. Quoting from a directive received today from National Selective Service Headquarters, he said:

"Although admittedly there is an overlapping of the military and civilian requirements of a nation at war, it must be borne in mind the one is dependent upon the other. It is estimated that the expanding Army will eventually require doctors and dentists in numbers heretofore unknown. They will not be available if those students who show reasonable promise of becoming doctors and dentists are inducted prior to becoming eligible for commissions.

"War industries are undergoing a hitherto unknown expansion. Aeronautical, Civil, Electrical, Chemical, Mining, Metallurgical, Mechanical, and Radio Engineers; together with Physicists and

Chemists are essential to insure a sufficient flow of material for the armed forces, and industry must look to the engineering, chemical, and physics students now in training to meet their present and future requirements.

"It is equally important that instructors in these fields be seriously considered for occupational deferment. Shortages of qualified instructors are known to exist."

General Page emphasized that in applying the board provisions of this policy, there will be no deviation from the statutory prohibition against group deferments. The local boards will consider all evidence submitted and decide each case on its particular facts with serious regard for the nation's manpower requirements in these specialized fields, he said.

## Civil Service Examinations Are Announced to Secure Lithographers

WASHINGTON, D. C., Jan. 28.—Maps are implements of war! Topographic maps are needed for military operations—nautical charts for our Navy and Merchant Marine—aeronautical charts for military aviation and for pilot training. Map and chart making agencies of the Government are seeking skilled lithographers to produce the maps needed by our Army, Navy, and Merchant Marine.

The Civil Service Commission just announced an examination to secure lithographers, artistic or mechanical, for positions paying from \$1,440 to \$2,000 a year. Because of the demand for qualified eligibles, applications will be accepted by the Commission until further notice. A written test will not be given; applicants will be rated on their education and experience. If you are qualified and available, apply today!

For all grades, applicants must have had nine months skilled, paid experience in a lithographic shop, in one or more operations used in lithographic reproduction work. In

## Musical Meanderings

By Murray Evans

Dance bands are losing more men to the draft these days than they can readily replace. Piano men are especially difficult to find. The music field is a fertile one for the army to pick on, for most musicians are young and foot-loose.

Because there have been so many drafted lately there is developing an acute shortage. In a way, that's good, for it gives youngsters with fresh talent and new ideas a chance to enter the business and display their wares.

But dance band men will do well to get into army brass bands when they enter the service. If they expect to learn anything out of orchestra work there, they are due for scads of disappointment, for the army as a rule doesn't appreciate good dance music by the better bands. Outside of occasional officers' dances, the average draftee bandsman will do well to make coffee and cakes.

Jane Frazee, a picture person and one of this writer's favorites, is a triple threat bundle of femininity. She has a very nice voice, carries it around in a good-looking frame, and sings in such a way as to thoroughly sell every tune allotted her.

She did all right for herself first singing "Wish You Were Here" in the picture "Buck Privates." Then she dubbed in very acceptably with the Merrimacs in "San Antonio Rose." All of which prompts this column to wager a small wager that she will be starred in grade A pictures before many moons.

University of Minnesota extension division is offering 26 new courses, ranging from camera-craft to Greek Mythology.

Average expenses of students at Yale university are estimated at \$1,800.

## Let Him Stutter, Penn College Prof Advises to Parents

State College, Pa. (ACP)—The most practical way to handle a child who stutters, a Pennsylvania State college instructor in clinical speech advises, is to let him stutter.

Eugene T. McDonald said the best thing to do if the child stutters is not to call attention to the defect, let him speak slowly and never ask him to repeat.

"As soon as a child becomes aware of the fact that his parents are concerned about his stuttering, he attempts to control it and his fear brings on more stuttering," McDonald said.

He added no single cure-all for stuttering has been discovered. Improvement may be effected, he declared, by distracting attention, constant suggestion, reading syllable by syllable or making the patient conscious of the movements necessary to produce sounds.

## Mills College Girls Entertain Army Posts

Oakland, Calif. (ACP)—Girls of Mills college, oldest women's college west of the Mississippi, are doing their bit for defense by entertaining groups of soldiers from nearby army posts.

The first group of 25 service men were entertained at tennis, bridge, badminton and swimming in the afternoon, served a buffet supper, and were guests at informal dancing in the evening.
