Legal Notices

On Tuesday, April 7, 1942, there will be held in the City of College Station, at the Missouri Pacific Station, an election to fill the offices of Mayor, five City Councilmen, and City Secretary. By a recent ordinance the City Council provided that the City be divided into three wards, and that two Councilmen be elected from each ward in the next regular election; one Councilman to serve for one year from each of the wards.

Since two Councilmen were elected last year for two year terms from Ward 1, the Council has ordained that one of these Councilmen, Mr. George Wilcox, will continue to serve during the entire period of two years for which he was elected. The new Councilman to be elected from Ward 1 will serve for the two year term. Councilmen from wards 2 and 3 will cast lots to determine which will serve the one and two year terms.

Candidates must have the endorsement of at least 15 qualified voters and the candidacy certified to and filed in the office of the City Secretary at least thirty days before the election. No names will be printed on the ballot in any case where the candidacy has not been properly endorsed and filed thirty days before the election.

Ward No. 1 includes all of that part of the City lying south of the south boundary of the A. & M. College Campus, west of the new State Highway No. 6, and east of Montclair Avenue.

Ward No. 2 shall include all of that part of the City lying east of the new State Highway No. 6.

Ward No. 3 shall include all of that part of the City not included in the above described wards No. 1 and No. 2. All of the above officials serve without pay.

TALION at the Campus tomorrow and Saturday. The story has great possibilities to become a very good motion picture, but enough was left out of it that such cannot be expected. Robert Preston and Nancy Kelly share the leading spots in the cast.

Not a great deal is known by the general public concerning the activities of this baby unit of the army and the scenes showing the men in action executing their jumps are quite outstanding. The story overbalances the photography so much that the result is not especially good.

WHAT! A girl training men to fly for Uncle Sam?

• The name is Lennox—Peggy Lennox. She's blonde. She's pretty. She may not look the part of a trainer of fighting men, but— She is one of the few women pilots qualified to give instruction in the CAA flight training program. And the records of the men who learned to

fly from Peggy show she's doing a man-sized job of it. She's turned out pilots for the Army . . . for the Navy. Peggy is loyal to both arms of the service. Her only favorite is the favorite in every branch of the service—Camel cigarettes. She says: "They're milder in every way."

DON'T LET THOSE EYES and that smile fool you. When this young lady starts talking airplanes, brother, you'd listen, too . . . just like these students above.

AND WHEN she calls you up for that final "check flight," you'd better know your loops inside and out. It's strictly regulation with her.

YES, and with Instructor Peggy Lennox, it's strictly Camels, too—the flier's favorite. "Mildness is a rule with me," she explains. "That means Camels."

Flying Instructor PEGGY LENNOX says:

THIS IS THE CIGARETTE FOR ME. EXTRA MILD—AND THERE'S SOMETHING SO CHEERING ABOUT CAMEL'S GRAND FLAVOR

The smoke of slower-burning Camels contains

28% LESS NICOTINE

than the average of the 4 other largest-selling brands tested—less than any of them—according to independent scientific tests of the smoke itself!

• "EXTRA MILD," says Instructor Peggy Lennox. "Less nicotine in the smoke," adds the student, as they talk it over—over Camels in the pilot room at the right. Yes, there is less nicotine in the smoke . . . extra mildness . . . but that alone doesn't tell you why, in the service . . . in private life . . . Camels are preferred. No, there's something more. Call it flavor, call it what you will, you'll find it only in Camels. You'll like it!

CAMEL

THE CIGARETTE OF COSTLIER TOBACCOS

BY BURNING 25% SLOWER than the average of the 4 other largest-selling brands tested—slower than any of them—Camels also give you a smoking plus equal, on the average, to 5 EXTRA SMOKES PER PACK!
