BEGINNING March 24 the Mechanical Engineering Department at A. & M. College, cooperating with the State Department of Industrial Education, will offer a course in Welding for employed mechanics in this area.
The class will meet three hours per night, two nights per week, for a period of eight weeks, and the enrollment is limited to 14 men.
There will be an enrollment fee of \$2.00 and a material fee of \$12.00.
Anyone interested may apply for admission at the Mechanical Engineering Department at A. & M. College—H. P. Rigby, Instructor, Mechanical Engineering Department.

NOTICE TO PATRONS OF THE A. & M. CONSOLIDATED SCHOOL
We are now taking the school census for the school year 1942-43 and would like for all patrons who have not sent a census blank to the school to please call the Superintendent's office or get in contact with one of the teachers of the school so we can see that you get a census blank. We especially urge all parents who have no children in school but whose child will become six years old before September 1st, 1942, to report at the Superintendent's office so the child might be placed on the census roll for the next year. Some students have graduated and are in college but will still be under 18 years of age on September 1, 1942. These people are eligible for the census roll and each member of the census roll means \$2.50 for our school finances.
We will appreciate very much any assistance you can render in helping us have a 100% roll for the year 1942-43.

The Devil Makes a Bargain

The poor England farmer, James Craig, right above, listens while the devil, Walter Huston, makes a bargain with him to sell his soul for seven years of prosperity, in a scene from "All That Money Can Buy" at the Campus today and tomorrow. It is a double-featured with "Juke Box Jennie."

Consolidated Mothers Club Presents Birch the Magician in Assembly Hall

By L. Winstead

Continuing their program of sponsoring entertainment that appeals to the entire community the Consolidated School Mother's Club is bringing two showings of Birch Magician to the Assembly Hall on Monday, March 30, Mrs. Frank Anderson, president of the club stated yesterday.

An outstanding part of the program is that members of the audience will be used in many of the illusions. Equipment, scenery and effects valued in excess of \$25,000 are carried and will be seen at the assembly hall Monday.

Most baffling is the famous Hindu rope trick, which for centuries has been the most talked of and colorful of all feats of legerdemain. An ordinary piece of rope is tossed into the air, it remains rigid, a Hindu boy climbs the rope, and in the twinkling of an eye disappears.

Slicing a beautiful girl into four parts, shooting a live canary into a burning light bulb, walking through a sheet of solid steel, causing a live pony to vanish in mid-air, and many other startling mysteries will be presented by this master magician and company in

a pot-pourri of thrills and fun. Heading the Birch staff of assisting artists is Mabel Sperry, hailed by critics as the world's greatest girl xylophonist. She plays on a special built Marimba xylophone.

Tickets are on sale by members of the club, school children of Consolidated School, and at the school, it was been announced. There will be two performances, the matinee at 2:15 p. m. planned for children, and an evening performance at 7:30 p. m.

QUEEN

(Continued From Page 1)

Jerry Heim, sophomores, and Misses Dorothy Dillingham, Margaret Kirby, Marjory Ann Monaghan and Mary Louise Williford, freshmen. These girls will wear white dresses in the Cotton Pageant and will carry corsages of red rose buds using a patriotic theme of red, white, and blue.

After their arrival the social committee was received in the lobby of Breckenridge hall at TSCW and were taken to dinner by a group of girls there. They were then given tickets to the Redbud festival where they viewed the floor show and picked the sixteen girls out of the 100 represented there. They invited these girls to breakfast the next morning where they had an opportunity to see the girls in street clothes and make their decision as to which one would be the queen.

Redbud Dance

After the floor show the committee attended a dance which was given in the new union building on the TSCW campus. Other guests of the school for this dance were 100 soldiers and 25 British flyers invited from neighboring army camps.

Members of the social committee are E. D. (Gene) Wilmet, king cotton, Howard Brains, social secretary, D. W. James, assistant social secretary, M. L. Brenner, J. C. Ramage, J. B. Tate, W. R. Clark, F. A. Coley and J. A. Villamil.

KYLE FIELD

so far this year. He has been working hard ever since September in preparation for this baseball season, even going so far as to by-pass one of his favorite sports—basketball. He's trained and trained until that former 212 lb. frame of his dwindled down to a mere 178 lbs.

The cry "Let's go Stevenson" may well become a reality for up on his shoulders rest all Aggie hopes for a conference championship. 'Tis no wonder that Coach Lil Dimmitt smiles when Charlie Stevenson tosses that curve at opposing batteries.

Cheap Fertilizer Bags Exposed by Thornton

Five million burlap and cotton bags are being wasted in the United States each year and 500,000 tons of useless matter is being hauled around the country, according to M. K. Thornton, agricultural chemist for the A. & M. extension service. The farmer pays the bill, but the war may stop overnight what authorities have been trying to do.

Brazos, Grimes County Women Learn About Automobiles in Driving Course

Carburetors, pistons, valves, sparkplugs, distributors and other parts of an automobile are no longer mysteries to 39 Brazos and Grimes County women, for they have just completed a course covering the component parts of an automobile and how to fix them.

This was the trouble shooting section of the women's driving course offered under the auspices of the A. & M. National Defense Council, of which Dr. C. C. Hedges is chairman.

With Prof. Fred R. Jones, head of the agricultural engineering department, in charge, the group met twice a week for three-and-a-half-week period for lecture demonstrations on the detailed operation of the mechanism of an automobile and how to recognize and correct motor troubles. The course proved so interesting that often the session extended an hour or so beyond the two-hour period designated for each class. Discussions were backed up by actual demonstration in the showrooms where Prof. Jones and his assistants, Don Christy and F. W. Piekert, operated the different type motors and gave a close-up view of what happens when unfavorable conditions exist. A written final examination completed the course.

Under the direction of Prof. C. H. Groneman and C. N. Hielscher of the industrial education department, the women had previously completed sixteen hours of study in the driving laws and principles of safe automobile operation. This safe driving section of the driving course was opened with a written "Traveler's Quiz," which served as a good indicator of what the average driver does not know about proper and safe driving. An actual driver's test similar to the one given to applicants for drivers' licenses, completed that section of the course.

Those completing the driver's course, which is a pre-requisite

Symphonies and Swing Both Please Soldiers

Gay tunes of Old Mexico, the undulant jive of Negro swing bands and symphony concerts all find favor with San Antonio's thousands of men in khaki, according to local WPA music program directors whose musicians played before 20,000 soldiers during February.

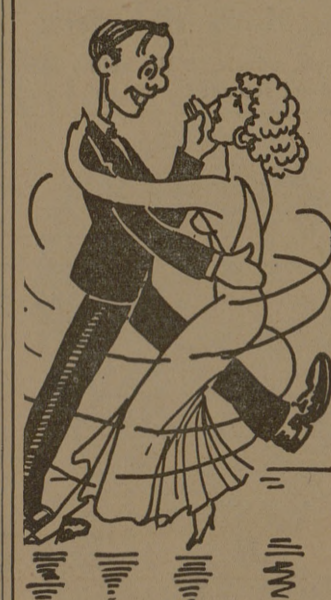

San Antonio's musical units include a Mexican Tipica orchestra, specializing in typical Latin-American tunes, a symphonic orchestra unit, and a jazz band which provides music for dancing at recreational centers.

During February the three musical units played at 24 army engagements, including a symphony concert during the dedication of a new recreational center, attended by commanding officers of Bexar County military posts and 3,000 men in uniform.

Civil Service Opens Mechanic Exams

The United States Civil Service Commission is announcing open competitive examinations for the position of Mechanic Learner for a position with the Navy Department, War Department, Air Corps, Signal Corps and the Ordnance Department. The age limit is 16 to 50.
