

OFFICIAL NOTICES

Announcements

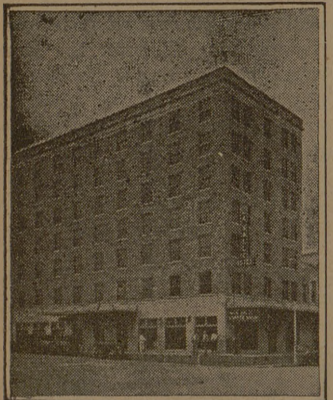

PRE-MEDICAL STUDENTS—All Pre-medical students who expect to apply for admission to Medical College during 1943 should leave a request at my office for ordering the aptitude test form. The test will be given April 24, at 2 p.m. in room 32 Science building. The order for the test forms will be mailed Saturday, March 23.—G. E. Potter, Pre-Medical Advisor.

RED CROSS SCHEDULE
Thursday a.m.—Methodist; p.m.—Church of Christ; Lutheran; Project House Mothers.
Friday a.m.—Experiment Station ladies; p.m.—Volunteers.
The Experiment Station ladies will sew every Friday morning.

NOTICE TO PATRONS OF THE A. & M. CONSOLIDATED SCHOOL
We are now taking the school census for the school year 1942-43 and would like for all patrons who have not sent a census blank to the school to please call the Superintendent's office or get in contact with one of the teachers of the school so we can see that you get a census blank. We especially urge all parents who have no children in school but whose child will become six years old before September 1st, 1942, to report at the Superintendent's office so the child might be placed on the census roll for the next year. Some students have graduated and are in college but will still be under 18 years of age on September 1, 1942. These people are eligible for the census roll and each member of the census roll means \$22.50 for our school finances.
We will appreciate very much any assistance you can render in helping us have a 100% roll for the year 1942-43.

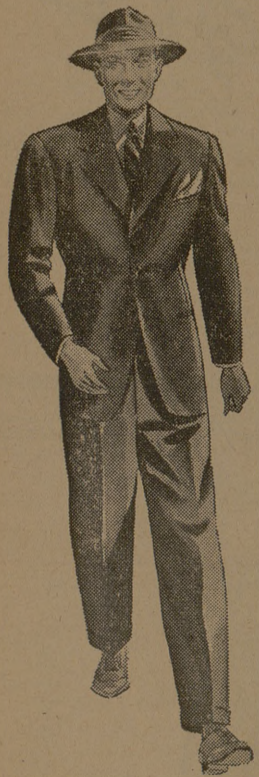

HOUSTON AND HARRIS COUNTY AGGIES—All Houston and Harris county boys are invited to attend a dance sponsored by the Houston A. & M. Mothers' club at the Texaco Country club on Saturday. The dance will begin at 9:30 p.m. and end at 12:30.

MENU ASSISTANTS—The following students will report to Mr. J. C. Hotard

RECORDINGS

(Continued From Page 1)

quest assistance on such practical points as balance of voice, dynamics, and microphone technique.

The competing clubs are allowed to record one song of their choosing, one of Waring's, and their school song. The Singing Cadets selected "The Marine Hymn," and Waring requested "Loch Lomond." Those two, and "The Spirit of Angieland" will comprise their entries. They will sing in Guion Hall and the recording will be made in the WTAW studio.

Fred Waring, the sponsor of the contest, has long been interested in glee club work. At his alma mater, Penn State, he once tried for—and failed to "make"—the Glee Club in spite of the fact that he had sung for four years in high school, switching as his voice changed from tenor to second tenor, baritone and bass. When he left college, he formed a "pro" Glee Club, consisting of members of his band, which was the first of the kind heard on stage, records, or radio. At the present, he broadcasts five nights a week on a national network.

Richard W. Jenkins, director of the Singing Cadets, has a sister who sang with the Waring organization, in 1935—Dorothy Braberton of Houston. At the present, Waring has two Texas boys with him—both from Houston.

The Singing Cadets will appear frequently, after the contest. On April third, they sing for the Engineer's show; on April fifth, they sing for the parents at Kyle Field; on April 14, they appear on Town Hall; and April 22 to April 24, they will take their last trip of the year, with Denton as the focal point. Even now they plan for a bigger and better season next year.

at 9:00 a.m. on Friday, March 27, for the purpose of assisting with the arranging of menus for the week following: Prestridge, B. G.; Cunningham, C. M.; Somerville, G. R.; Sprinkle, C. C.; Thompson, J. W.; Yankee, R. D.; Ando, T.; Powell, R. G.; Hagan, V. D.; Thomas, E. W.; Hueske, E. E.—D. W. Williams.

STUDENT EMPLOYMENT APPLICATIONS AND STUDENT CONCESSION APPLICATIONS—All applications for student employment and for student concessions must be renewed in person at the Student Employment Office before May 1, 1942. Application renewals will be accepted beginning April 1st. Students who fail to renew applications will be dropped from employment rolls. Any renewals made after May 1st will be considered only as new applications.—W. R. Hornsley, Chairman Student Labor Committee.

SCHEDULE OF EVENTS—Mar. 26—Baseball game—Texas University vs. A. & M.—3:30 p.m. March 27—Cavalry Ball, Sblsa Hall—9 p.m. to 1 a.m. March 28—Corps Dance, Sblsa Hall.

Meetings

SCHOLARSHIP HONOR SOCIETY—The annual banquet of the Scholarship Honor Society will be held in the Banquet Room of Sblsa Hall Thursday night, March 26, at 7:30 p.m. It is necessary that all members be present.

THE HILLEL CLUB will hold an important meeting Sunday night at 7:30 for the purpose of discussing the spring dance. Those men who have not yet turned in their names to Manny Smith or Jack Forman for the Passover Service must do so at the meeting.

INSTITUTE OF AERONAUTICAL SCIENCES—There will be a meeting of the Institute of Aeronautical Sciences tonight at 8 o'clock in the Chemistry Lecture Room. Mr. J. E. Younger, head of the Aeronautical division of the American Society of Mechanical Engineers will speak. All members are urged to attend.

PHYSICS COLLOQUIUM—Physics Colloquium, Friday, March 27 at 6 p.m. in Room 39 of the Physics building. Speaker: Dr. C. M. Kelley of the Chemistry department. Subject: The Mechanism of the Glass Electrode.

AGRONOMY SOCIETY MEETING—There will be a meeting of the Agronomy Society tonight at 8:30. Plans for Cotton Ball will be discussed.

NOTICE TO OWNERS OF DOGS—All owners of dogs are advised that they must have tags showing that the dogs have been vaccinated for rabies, and registered at the City Office. All dogs not properly tagged will be taken up or destroyed beginning April 1. Any person who finds his dog missing, should inquire at the Veterinary Hospital. All dogs taken up will be held four days before they are destroyed. A dog so held will be restored to its owner after the provisions of the City Ordinance have been complied with.

ODDITIES

(Continued From Page 2)

could not infringe on the rights of another farther ahead on the snake. Signals usually had to be resorted to between the men on the tail and the man holding the head as the distance was too far for the voice to carry—so the story goes.

The "meal" consists of some twenty pounds of chopped meats of whole chicken, rabbits, and ground steak, together with cod liver oil and some bone-building supplement.

A four-foot length of hose was run down the snake's throat; into this was inserted a funnel whose purpose it was to catch the "goo" and direct it into the rubber hose. An ax handle made on ideal ramming instrument with which to aid in passing the snake's entrée. Starting with the forward part of the snake, we would elevate each section in turn until we literally rolled the food into the stomach, some eight feet posterior to the head.

The procedure we followed is actually much more hazardous than it sounds; were any of the handlers to let go, the snake could coil, and perhaps wrap a loop of its body around one of the men. Cole Smith himself has been twice caught by a python, but each time he was saved by the agility and courage of alert keepers.

As odd as it sounds, the python can not break a man's bones; the death itself comes thru suffocation due to the victim's inability to inhale because of the snake's confining coils. But let's not experiment to try to disprove this interesting but non-essential point—it matters little when a man is dead whether a rib or two are broken or not.

"NO COVER CHARGE"

1/30,000 OF A SECOND!
It takes high-speed photography to "stop" Dorothy Lewis's flashing blades, but it's easy to see her preference for Camels

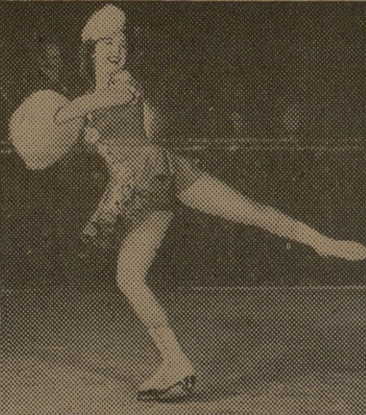

FASTER than the blink of any human eye, the amazing stroboscopic camera catches Dorothy Lewis in one of her brilliant routines on the ice of the Iridium Room in New York's Hotel St. Regis.

R. J. Reynolds Tobacco Company, Winston-Salem, N. C.

DOROTHY LEWIS studied ballet from the age of 4, and her routines on the ice combine the artistry of the dancer with the speed of the skater. Her cigarette combines extra mildness and flavor. She smokes slower-burning Camels.

MISS LEWIS works out all her routines first in ballet slippers. Many's the Camel cigarette she smokes as she relaxes. "Yes, I smoke a good bit," Miss Lewis says. "I've found Camels milder by far. And with their full, rich flavor, Camels always taste so good."

"The more I smoke, the more I appreciate Camels," says Miss Lewis at a late supper with friends at the St. Regis. "Their cool, rich flavor is all the more enjoyable because Camels are so mild—with less nicotine in the smoke." You, yourself, try Camels. You'll like everything about this slower-burning cigarette of costlier tobaccos. You'll like that grand flavor—and you'll like knowing that there's less nicotine in the smoke (see below).

The smoke of slower-burning
Camels contains
28% LESS NICOTINE

than the average of the 4 other largest-selling cigarettes tested—less than any of them—according to independent scientific tests of the smoke itself!

CAMELS HAVE THE MILDNESS THAT COUNTS WITH ME—LESS NICOTINE IN THE SMOKE
