

Official Notices

Executive Offices

PASSES FOR AUSTIN TRIP—The Executive Committee has authorized seniors, juniors and sophomores who are not on the deficient student list, and who will miss no quizzes, to obtain passes to attend the baseball games in Austin Friday and Saturday, May 8 and 9. This applies to passes to attend the games only.

On presentation of the approved pass to the instructor, the absences are not to count as cuts. It should be noted, however, that this does not excuse any student from a quiz given on those days, nor does it authorize the instructor to give him a chance to make up the quiz at any other time.—F. C. Bolton, Dean.

Announcements

STANDARD First Aid Cards for those who have finished the course have arrived and may be had at the Physical Education Office.—C. E. Tishler, Instructor.

COMMENCEMENT INVITATIONS—The Commencement Committee has on hand a limited number of invitations to Commencement. Members of the graduating class may secure these invitations without cost by calling in person at the President's office.—E. P. Humbert, Chairman, Commencement Committee.

C. P. T. ELEMENTARY AND SECONDARY APPLICANTS—There will be a meeting of all students interested in taking during the coming summer the Civilian Pilot Training Elementary and Secondary Flight and Ground School Courses on Thursday, May 9, in the Petroleum Engineering lecture room at 7 p.m.

MATHEMATIC - ENGLISH CONTEST DINNER—Students who took the English Contest Examinations are reminded that the contest dinner will be held in Shiss

Hall at 6:30 p. m. on Thursday, May 7.—Geo. Summey, Jr.

GRADUATE FELLOWSHIP—The Colorado Experiment Station will have available a number of graduate research fellowships and research assistantships for the year beginning July 1, 1942.

"Any agricultural senior interested in doing graduate work in range management, call at the Department of Agronomy for details."—E. J. Kyle, Dean of Agriculture.

CPT EXAMINATION—The CPT Elementary Ground School Examination will be held in the Mechanical Engineering lecture room, Thursday, May 7, at 7 p. m.

TO DEPARTMENT HEADS AND SUPERVISORS OF STUDENT LABOR—We have been advised that NYA funds will be available to a limited extent through June 30th. In order to take advantage of this fact, it is urgently requested that each department to which NYA students are now assigned advise me immediately of the number of NYA students now assigned that can be usefully employed for the period of June 1st to June 30th, inclusive.

May we also remind those departments which have not yet returned assignment cards and estimates of departmental student labor needed for the coming term that time is short and your cooperation will be appreciated?
Wendell R. Horsley
Chairman, Student Labor Committee

LIBRARY BOOKS DUE—"All library books are due Saturday, May 9 by noon."
Don Andre Hennessey
Assistant Circulation Librarian

Edna Mae Oliver. Although "Lydia" is a story about a woman and will probably appeal more to those of that sex than to men, it has a certain appeal to the "stronger sex" also. Its interest for men is in the fact that Merle Oberon as Lydia tells what a woman really thinks of her suitors (in this case four of them) deep in her heart.

The opening scene of the film depicts Lydia as an aged spinster on the occasion of the dedication of an orphanage which she has endowed. She dines with the four men who have been her suitors and by flash-back sequences the love story of each one is told. In these scenes, she lays bare her real emotions and feelings toward the men who have loved her and tells why they failed to win her.

black bag in Ennis April 11 please return to Howard McNeil, 221 No. 11. Reward.

FOR SALE—Plymouth 2-Door Sedan, 1941 model. Good tires, spare unused. Telephone 2-2239. "Parking" technique by Lynn included free.

WANTED—Ride to Lubbock or immediate vicinity after the final review. See Keith Kirk, 224 No. 7.

WANTED—2 rooms for May 14 and 15, either in College Station or Bryan. Pat Towery, Box 2402, College Station.

Meetings

FOODS GROUP—The Foods Group will meet on Thursday, May 7, at 8:00 P. M. at the home of Mrs. K. F. Manke, 100 Guernsey, College Park. There will be a short business meeting to be followed by a social hour. Anyone who has attended the Foods Group is invited to attend.

A. S. M. E.—The American Society of Mechanical Engineers will hold its annual barbecue Thursday, May 6, at 6 p. m. sharp. Tickets will go on sale in the M. E. building for 10 and 30 cents. An election of officers for the coming semester will be held and other business will be concluded. All Mechanical Engineers are urged to attend.

A. S. C. E. MEETING—There will be an A. S. C. E. meeting in the C. E. lecture room at 7:00 tonight. This is the last meeting of the semester and all civil engineering students should attend, as several matters must be voted on. A sound film, "Construction on the Pennsylvania Turnpike" will be shown.

PHYSICS COLLOQUIUM—Friday, May 8, at 5 p. m. in Room 39 of the Physics building. Speaker: Mr. W. H. Blodgett. Subject: An Acoustic Modulation Meter.

MILITARY ENGINEERS—There will be a meeting of the Society of American Military Engineers tonight at 7 o'clock in Room 117 of the Academic building. New officers will be elected.

SENIOR SCOUTS—There will be a meeting of all Senior Scouts on the second floor of the New Y.M.C.A. tonight at 7 o'clock. All Aggies who are interested in Scouting are invited to be present.

I. E. CLUB—There will be a very short but important meeting of the I. E. Club Thursday evening at 7 o'clock in Room 101 M. E. Shops Bldg. Class officers for next year will be elected.

HORTICULTURE SOCIETY—The Horticultural Society will meet tonight at 7:00 at the Agriculture building. Ways will be provided to go to the Farm. This will be an important meeting—plans will be made for next year—and all members are urged to attend.

Faculty and Aggies Deliver Papers At Science Meeting

Members of the faculty and the student body will deliver papers at the Eastern Regional Meeting of the Texas Academy of Science in Houston on May 8 and 9. The theme of the convention is to be "Science and the War."

Among those who will represent A. & M. will be Dr. G. E. Potter, of the biology department, who will speak on the Natural History of the Horned Lizard; H. R. Chandler, who will discuss the Interrelation of the Cortical and Medullary Adrenal Tissue, and J. S. Sperry who is to speak on Morphological Studies of Polygonum Viviparum.

Cat Variety Studies for Winter Pasture will be the topic of a talk by Dr. Ide P. Trotter of the Agronomy department. S. H. Hopkins, of the Biology department will tell the convention of the Possibilities of the Utilization of Aquatic Invertebrates and A. W. Jackson will present a discourse on Chermid Leaf Galls Affecting Yaupon. Dissociated Blood Plasma and Fall and Winter Activities of the Mole in the East will be discussed by George Willeford and James Durell respectively.

Downtown headquarters of the convention will be the Lamar hotel, but with the exception of a banquet, all meetings will be held at the University of Houston.

Ex-Aggie Accepted For Flight Training

Maxwell Field, Ala., April 30—Cadet Azzy Freeman Thompson, son of Mr. and Mrs. Azzy B. Thompson of 1517 Olive Street, Texarkana, Texas, is now taking pre-flight training at the huge Air Corps Replacement Training Center (Air Crew) at Maxwell Field, Alabama, along with thousands of other cadets from many states.

Cadet Thompson was attending A. & M. when he was accepted as a cadet in the U. S. Army Air Corps at Barksdale Field, Louisiana. Cadet Thompson had received civilian flight training and obtained a private pilot's license before he was accepted as a cadet in the Air Corps.

After completing his pre-flight course at Maxwell Field, Alabama, he will be sent to one of the many primary flying schools in the Southeast Air Corps Training Center for the first phase of his pilot training.

—VOX POP—

(Continued from Page 3)

ling of detectives in the crowd, the Vox Poppers were more worried that their stuff might be too corny for Broadway and the New Yorkers too fast for them. Once on the air they became confident upon discovering that they had to steady the nerves of their mike-frightened customers.

The results of that first network Vox Pop was a big moment for the historians of contemporary radio. The impact on the loud speakers of the nation influenced audience-participation trends in the broadcasting industry which Vox Pop itself has ably paced through a decade of notable acceptance by the country's listening millions.

Blame or praise, as you wish, Vox Pop is responsible for starting the radio quiz cycle, the dozens of program copies in one variation and another which have distributed over the kilocycles a largesse of wealth for supplying or answering a colossal flood of questions which has not abated to this day.

With the passing years, Vox Pop has changed with the times, adding improvements and keeping ahead of the field. Parks Johnson constantly checked the public pulse, anticipates the audience appetite for something new and different, and periodically shifts technique. The show keeps on the move. Advance men, program directors, producers, engineers and others travel with Vox Pop up and down and across the country on a busy schedule.

The present-day schedule for Bromo Seltzer brings to the CBS network every Monday night a big-time radio production, radically different in format and presentation from the original Houston sidewalk pitch. But with all the changes and no matter what one hears, it's still the same old Vox Pop.

—DRAWING—

(Continued from page 1)

Class BS, freehand pencil drawing, was won by Harry Hutson.

Class C, pencil drawing with instruments and ink tracing, was won by Charles McKim. Second place was taken by Wendel Jones, and third place by Byron F. Knolle.

Winner of Class D, freehand pictorial pencil sketch, was F. D. Pigg.

Class E, lettering in ink and pencil was won by Roy N. Griffin, with G. E. Day being awarded second place.

G. B. Wyrick won the first place in Class F, pencil layout drawing with instruments. Second place went to W. H. Van Hook.

Awarding of prizes, together with certificates showing the place won, will be made at 4:50 p.m. Tuesday, May 11, in Room 33 of the Civil Engineering Building. Contest judges were Professor Howard W. Barlow, head of Aeronautical Engineering; Professor J. E. Breland of the Mechanical Engineering department; and T. H. Terrell, instructor in the Civil Engineering department.

—TOUR—

(Continued from page 1)

The first part of the tour will include visits to the mills and cotton market at New Orleans, an inspection tour of Louisiana State University at Baton Rouge; visit to the mills and government laboratories at Leland, Miss.; and to the mills and the National Cotton Council in Memphis, Tenn.; and inspection tour of the ginning plants and laboratories in Dallas.

They will be back on the campus for graduation exercises on May 15-16 and then leave for Mexico where they will visit Saltillo, Torreon, Parras and Mexico City. While in Mexico they will visit the mills, agricultural colleges and farms where they will investigate production of truck crops, wheat, grapes, alfalfa, cotton and other general field crops under irrigation.

From Mexico City they will make several side trips to the cotton producing localities in that part of the country.

Dr. Anna August Helmholtz Phelan, also at Minnesota, was jaywalking across a downtown street when an officer stopped her. "Don't you realize," said Dr. Anna, drawing herself up to her full height, "I'm an absent-minded professor?"

Faculty Club Holds Last Dance of Year

The last Faculty Club dance of the season will be held at the Bryan Country Club on the night of Friday, May 8 at 7:15. A box supper will be held preceding the

dance which will begin at about 9 o'clock. All interested are cordially invited to bring a box and enjoy both supper and dance, or if they prefer, to attend the dance only.

"Rhythms by Raeburn" Corps Dance, Saturday nite, \$1.10.

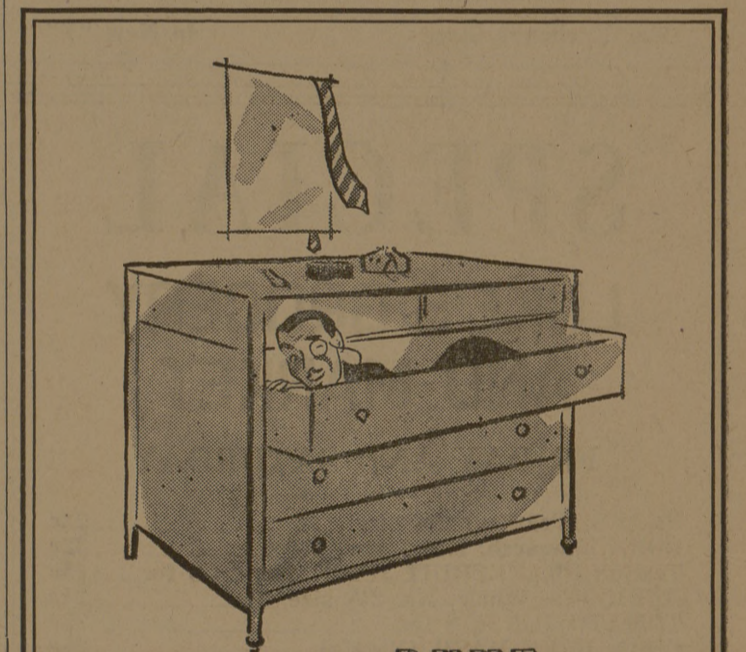

Friend or Enemy?

They're taking no chances

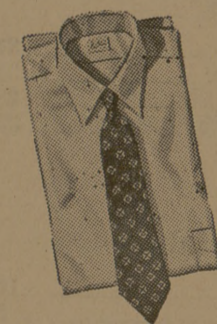

Day and night thousands of civilian volunteers at Army authorized observation posts report Aircraft Flash Messages to Army "filter" centers—by telephone. From this information, each plane's course is charted on filter maps... relayed to operations boards such as the one shown above—by telephone. Should checking prove the aircraft to be an enemy, the telephone would play an important part in the defense strategy... in warning endangered communities... in mobilizing civilian defense units.

Bell System men cooperated with Army authorities in designing and providing the telephone facilities used by the air defense system. This is but another example of a war-time job well done.

IS THERE A DUKE IN YOUR BUREAU?

If Dukes are not among your prized possessions, you're missing something. We mean Manhattan's famous Duke white broadcloth shirt! Examine its smooth, snowy broadcloth; trace the clean, close stitching with your fingers; study the detail at yoke and cuffs! It fits so well because it's *Size-Fixt**, because it's *Man-Formed*, because it's *Collar-Perfect*. You ought to own some Dukes. Get them today.
