

Final Results of Class A and B Murals of '41-'42 Year Compiled

E and 3rd Hdq. Field Artillery Win Class A and B Crowns, Respectively

Recreational Officer Bill Donnell's upstanding and hard fighting E. Field Artillery upperclassmen dominated Class A Intramurals during the 1941-42 season all the way and finished some 58 points ahead of F Field Artillery in the final standings as tabulated by Dewey Hoke of the Intramural Department.

The freshmen of 3rd Hdq. Field Artillery were easy victors in the Fish division as they amassed a total of 806 points to outlast F and B Infantry who were tied for second with 775 markers.

In compiling the final results it is noted that both Class A and B intramurals were wholly dominated by the Field Artillery organizations. Of the 25 listed in each class, Field Artillery units were scattered all over the list. Ten were found to be in Class A while six of the erstwhile "buggy boys" were found in the freshman division. The Infantry followed next with six outfits placing in the first 25 in the Class A group and four finding the spot in Class B.

Last year's Class B winners, E Field Artillery, fell off quite a bit this season, being 104 points behind the champion 3rd Hdq. team. The former wound up in eleventh place.

The only organization that didn't place in the first 25 of either Class A or B was the Corps Headquarters groups. I Replacement Center was the only one of the project house teams that placed either in Class A or B. They wound up eighteenth in the upperclassman division.

The Engineers also fell off quite a bit from their previous form by not placing one team in the first 25 of Class B. B and D Engineers placed 26th and 27th respectively but that was the closest they got in the Class B group. They managed for three places in Class A with D Engineers gaining the highest spot—fourth place with a total of 712.5 points.

Following is the list of standings of the first 25 teams in Class A

The question, "Should a boy and girl who are in love marry before he leaves for service," has come in for a lot of discussion on the TCU campus in recent weeks. Some of the debatable points raised by the boys and girls include the matter of finances, education, social life, possible injury or loss, and general morale.
