A RESOLUTION DECLARING A NUISANCE EXISTS UPON THE PREMISES DESCRIBED IN THE INSTRUMENT HERETO ATTACHED AND MADE A PART HEREOF

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF COLLEGE STATION, TEXAS: Section 1. That there is a nuisance existing upon the premises and each part thereof described in the instrument hereto attached and made a part hereof. Said nuisance being of such a nature as calculated to unduly cause a fire hazard or a hazard from a health standpoint or both, injurious to the City of College Station or a large part of the same. The owners of said premises are hereby notified to appear at the next meeting of this City Council to be held on the _____ day of _____ at _____ o'clock p. m. in the City Office, to show cause why said nuisance should not be abated and show cause why, in the event said nuisance is not abated by said owner within five days after the _____ day of _____ of the same should not be abated by the order of the City Council and the costs thereof assessed against said premises. Passed and approved this 25th day of June A. D. 1942. APPROVED: ERNEST LANGFORD, Mayor ATTEST: S. A. LIPSCOMB, City Secretary

AN ORDINANCE REQUIRING WEEDS AND GRASS TO BE CUT UPON PREMISES AND THAT RUBBISH AND TRASH BE REMOVED THEREFROM AND FIXING A PENALTY FOR FAILURE TO COMPLY WITH SUCH ORDINANCE AND PROVIDING THAT SAME SHALL BE DONE BY THE CITY IN THE EVENT OF SUCH FAILURE AND PROVIDING FOR THE FIXING OF A LIEN UPON THE PROPERTY FOR THE EXPENSE INCURRED IN REMOVING AND DECLARING THAT ALLOWING WEEDS TO GROW AND TRASH AND RUBBISH TO ACCUMULATE TO BE A NUISANCE. BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF COLLEGE STATION: Section 1. It shall be unlawful for any owner, lessee, occupant or any person in charge of any premises in the City of College Station to allow weeds to grow upon the premises, or to allow rubbish to accumulate upon said premises to such an extent as is reasonably calculated to create a fire hazard or calculated to become injurious to the health of the citizens of College Station, and either act is hereby declared to constitute a public nuisance. Section 2. Whenever weeds are allowed to grow, or trash or rubbish allowed to accumulate upon any premises of the City of College Station as prohibited by this ordinance the City Council shall hear evidence and determine whether or not such accumulation of rubbish and trash or the growth of weeds thereon, or both, are sufficient to constitute a nuisance as herein defined, and if they so find, they shall pass a resolution declaring that the growth of weeds or accumulation of trash and rubbish upon such premises, or both, constitutes a public nuisance, and shall order same removed by the owner, occupant, lessee or person in charge of such premises, within five days from the date such notice is given. Section 3. In the event the owner of the premises upon which is located a nuisance as prohibited by this ordinance can not be found or served with a notice, and there does not appear to be any person of such premises or occupancy, or in the

War-time Demands Economical Use Of Washable Clothing

War-time demands longer work hours so most women have less time to keep their clothes in good condition. It is as important as ever to present a neat appearance, so Mrs. Dora R. Barnes, clothing specialist for the A. and M. College Extension Service, offers suggestions for keeping trim.

Wash dresses are most practical for wilting summer days, she says, and these should be laundered often. Be sure the fabric is washable. Close all zippers and remove all non-washable trim before tubbing. Look to see if buttons are the type that can be washed without harm. Wash, dry quickly, and iron immediately.

Cottons and washable silks and rayons should be washed in warm—never hot water. The specialist suggests use of mild soap and thorough rinsing. Squeeze in the water; do not rub or wring them. After squeezing them, roll the dresses in a bath towel. Then shake them out and hang out-of-doors in the shade to dry—never in the sun—for the color might fade.

"When ironing, watch your iron temperature. Some fabrics, such as nylon, will melt under a hot iron. All materials can be scorched. Fabrics with rough weaves or textures look better if ironed on the wrong side," Mrs. Barnes advises. Here are some other tips: Don't pull or yank when taking off a dress. Don't crowd your dresses in the closet. Hang up a dress as soon as you take it off, and air it before you put it away.

Average Wage of \$18 Satisfies Working Girl

A girl earning \$18 a week is far more likely to be satisfied with her lot than are her better-paid sisters, according to a finding by the University of Southern California's bureau of business research.

Dr. Thurston H. Ross, director, said 5,000 California working women in all forms of occupation—about half of them industrial—were surveyed.

Eighty-eight per cent, he continued, were satisfied with their incomes. And of those saying they needed more money, 92 per cent already were in the higher brackets. The group's average wage was \$18.21 a week.

"The higher wage group complained a great deal more about the need for clothes than did minimum wage earners," Dr. Ross reported. "Those who spent most money for clothes seemed to be in the greatest need for them."

ACP A special scholarship is maintained at Dartmouth College for a "religious man from Missouri."

event the nuisance is not abated by cutting the weeds and removing the trash and rubbish or either of them, as the case may be, then said nuisance shall be abated by the City of College Station, and the expense incurred, which shall include salary and wages of all employees, and reasonable charge for machinery and tools, vehicles, etc., used in abating said nuisance shall be personal charge against owner of said premises and shall be assessed as a lien against the property on which said nuisance is located and removed therefrom, and shall be due and payable to the City Tax Collector the following tax paying period, that is, the first day of March following the date at which such nuisance is abated and failure to pay when due shall cause a ten per cent penalty to be added and same shall bear interest from the date the same is due, at the rate of six per cent per annum. Section 4. Failure to cut weeds and remove trash and rubbish or to do either of them when notified to do so, as set out in this ordinance by any party obligated to do so by this ordinance, shall be punished by a fine in any sum not exceeding fifty dollars (\$50.00) and each day that such nuisance shall continue after the time for abatement as herein set out shall constitute a separate offense. Passed and approved this 25th day of June, A. D. 1942. APPROVED: ERNEST LANGFORD, Mayor ATTEST: S. A. LIPSCOMB, City Secretary

AN ORDINANCE LEVYING AN ASSESSMENT AGAINST CERTAIN PROPERTIES AND MAKING THE SAME A LIEN AGAINST SAID PROPERTIES AND A PERSONAL CHARGE AGAINST THE OWNERS THEREOF AND PROVIDING FOR FORECLOSURE OF SAID LIEN IN THE EVENT SAME IS NOT PAID, AND ADDING A PENALTY FOR THE FAILURE TO PAY SAME. BE IT ORDAINED BY THE CITY OF COLLEGE STATION: Section 1. That whereas, heretofore on the _____ day of _____ A. D. 19____, a hearing was had after due notice of the intention to take up consideration the necessity for having nuisances abated upon the property hereinafter described at the cost and expense of the owner of said property as a lien, and whereas, at the time of said hearing no one appeared to contest same and said hearing was closed and it was determined that a nuisance existed upon each piece of said property and same should be removed and the costs thereof assessed as a lien against said property and as a personal charge against the owners thereof. Section 2. Therefore, there is assessed against each of said pieces of property the amount set opposite thereof, and the same is made a personal charge against the owner of said property, whether the name is in this ordinance or the notice or not, and a lien is hereby fixed against each piece of said property for the amount assessed against it. Section 3. In the event the amount so assessed against such property is not paid on or before the _____ day of _____ A. D. 19____, ten per cent (10%) shall be added as a penalty and a suit to foreclose said lien shall be instituted, and said lien shall be foreclosed in any court having jurisdiction thereof. Passed and approved this 25th day of June, A. D. 1942. APPROVED: ERNEST LANGFORD, Mayor ATTEST: S. A. LIPSCOMB, City Secretary

Grains Are More Valuable in Silage Than as Plain Feed

Almost any feed crop is worth twice as much an acre when made into silage as it is in the barn or stack, according to E. R. Eudaly, dairyman of the A. and M. College Extension Service. This is especially true of corn and grain sorghum crops which will not make much grain. It applies equally to sweet sorghums, Johnson grass and sudan.

If the corn and grain sorghums can be left standing until the grain is hard, they will make better silage, provided the majority of the leaves still are green. Nevertheless, these feeds should be made into silage even though the leaves are burned or dried up. But all vitamin A would be lost in the latter case. Vitamin A is very essential, especially if silage is its only source, and the main origin of vitamin A for livestock is green feed.

It is even more necessary to have the sweet sorghums, such as red-top cane and seeded ribbon cane, ripe for making silage. Immature sweet sorghums make sour silage. Johnson and sudan grasses should be headed out and the seed in the dough stage. Any of the grasses and legumes should be dried until their water content is reduced to 35 or 40 percent before being put into the silo. This means about half dry enough to bale for hay.

When a majority of the leaves of corn, grain and sweet sorghums, and Johnson and sudan grasses are green, it is not necessary to add water if the feed is chopped in one quarter inch lengths or less with an ensilage cutter when put in the trench. If the majority of the leaves are dry, it will be necessary to add enough water to wet the feed about like a heavy dew. Dampen bundle feed even though the majority of the leaves are green.

The silage should be well packed and the trench filled high enough so that it will not settle below the level of the ground. The trench should have good drainage.

Dougherty Promoted To First Lieutenant At Fort Bragg, N C

The commanding officer of the 36th Field Artillery at Fort Bragg, North Carolina, announces the promotion from the grade of Second Lieutenant of First Lieutenant William B. Dougherty, Jr., Special Services Officer of the regiment.

Lieutenant Dougherty, of Dallas, Texas, is the son of Mr. and Mrs. W. B. Dougherty. After graduation from Sunset High School, he attended A. & M. graduating in 1941.

Prior to joining his regiment, he attended the Battery Officers Course in the Field Artillery School, Fort Sill, Okla. He reported for active duty with the 36th Field Artillery in October of 1941.

His duties with the regiment have been in various capacities, and included the position of Battery Executive of Battery D of the regiment, Police and Prison Officer, and Special Services Officer. He has attended the Special Services School at Fort George G. Meade, Maryland, and has been manager of the Charlotte, North Carolina, Golden Gloves tournament.

Certified Seed In Use More Now Than In Past Years

Planting of state certified seed for most field crops is increasing steadily in Texas, says E. A. Miller, agronomist of the A. & M. College Extension Service. Use of pure seed of high yielding strains is more necessary now than ever before, in order to meet the growing demand for farm crops and products. Planting pure seed makes farming more profitable, too.

The grain sorghum seed improvement work has been rather outstanding, especially in connection with pythium root rot, Miller says. A resistant strain, called "Texas milo," developed by the Texas Agricultural Experiment Station, has replaced most of the susceptible seed and saved the milo maize growers of Texas several million dollars a year.

The seed improvement work with oats, barley and wheat consisted largely of demonstrating the value of the best varieties, and to get farmers to stand up on those which proved to be the most satisfactory. A systematic educational campaign in wheat was conducted in cooperation with the Texas Wheat Improvement Association, because the seed of many growers had become mixed and also because some poor baking varieties especially Chiefkan and Early Blackhull were gaining a foothold. The educational work resulted in a much bigger demand for pure seed of the best varieties.

Texas hybrid corn, which produces an average of 20 percent more than ordinary corn, became available for distribution in 1941. The 6,000 bushels available in 1942 was considerably less than the demand.

"It is hoped that the supply of Texas hybrid seed corn, grown by certified seed growers, will be much larger for 1943 planting, especially since it now looks as though the new type is definitely on the march," Miller observes.

Penalty Rate For Excess Wheat 57¢

Penalty rate for wheat raised in excess of farm marketing quotas is 57 cents per bushel this year.

National loan rate previously has been announced at \$1.14, according to P. C. Colgin, state AAA commodity loan specialist.

N. R. Burkhalter

For Commissioner Precinct Number 1

A native of his precinct and a resident of the College the past 20 years, Mr. Burkhalter has always taken a live interest in the affairs of the community in which he resides with his wife and three children.

Realizing that wartime conditions must necessitate many changes in the expenditure of public funds he is basing his candidacy upon practical plans for the economical and efficient conduct of the office he seeks. Despite his physical handicap he has recently returned from work in a vital defense industry and is now endeavoring to see each and every voter in his precinct.

He will be grateful for any consideration that may be given his candidacy. (paid political adv.)

Vannoy President Rio Grande Valley Club

Rio Grande Valley A. & M. Club elected officers at a meeting held last Tuesday night. Tom Vannoy was chosen president, George Ogden was elected vice-president, Bill Kinzy secretary, and Joe Spears, reporter.

University of Chicago, celebrating its fiftieth anniversary recently, launched a drive for \$12,000,000.

Kentucky's Danville college, with 341 students, offers 80 scholarships.
