

Hollywood Will Bring Aggieland to Screen

Commando Course Will Be Added to Military Facilities

Cross Country Movement Made as Difficult As Possible Conditions Men for Soldiering

Attempting to turn out physically fit men as well as technically trained officers, the military department plans soon to inaugurate a commando course which will be similar in design and difficulty to those used in the training of the British commandos. The proposed course was described to a Battalion reporter yesterday by E. J. Urbanovsky of the landscape art department.

Included in the drawings of the course are log hurdles and a ten foot fence which the trainee must scale. Once over the fence, the soldier proceeds through a group of natural obstacles such as trees and dense underbrush. Ascention and descention of a hill through a pipe, crossing horizontal bars and taking hurdles in a

Juke Box Prom To Be Held In Sbsisa Saturday

Main Dining Room Will Be Used Again To Provide Ample Room

Another of the Juke Box Proms, which have proved to be so popular with the Aggies, will be held this coming Saturday night from 9:00 to 12:00 in the main dining hall of Sbsisa. At the last prom, which was the first one to be held in the big room, it was found to be much cooler as well as affording more dancing room.

Bobby Stephens, Social Secretary of the Senior Class, said, "The limiting of stags will be left almost entirely up to the organizations. Freshmen must have dates and the respective organizations will decide whether or not Sophomores will be required to have dates."

The admission will be 35c and the uniform for the dance will be the No. 2, khaki pants and shirts.

Officers Guides Available Through Student Activities

Lawrence Boone, manager of student activities, announced today that several payments have been made already on the "Officer's Guide." This book contains general information, the purpose of which is to act as a reference book for new officers entering the army.

The sale of the book is being handled this year through the Student Activities Office in the Administration Building, Walter Cardwell, cadet colonel, stated Monday.

The deadline for those who plan to buy their books in the first order is July 22. A payment must be made before 5 p.m. on that day if the book is purchased in the first order. Cardwell also said, "Cadet officers will find that this book can help them in running their organizations here on the campus."

The "Officer's Guide," which is published by the Military Service Publishing Company, is designed especially to aid new officers in such subjects as correct uniforms, military court proceedings, customs of the service, and other general information.

Agronomy Society Hears D L Cothran

In the regular meeting of the Agronomy Society at 7:30 tonight in the Agricultural Engineering building, Donald L. Cothran, State Cotton Crop Supervisor will hold an informal discussion with the members of the Agronomy Society on cotton crop insurance.

After the informal discussion by Cothran, the club members will discuss plans for an initiation of new members, the date to be set at the meeting.

Also plans for an agronomy picnic will be discussed at the meeting. Heretofore, there has been only one picnic during the year; however, the plans for the Agronomy Society show more outings for the future.

Whatcha Drinkin' Gal?

Scruggs Submits Winning Snapshot As Longhorn Contest Gains Following

C. G. Scruggs, P.O. 2835, is winner of the snapshot contest for this week. In announcing the winner Longhorn Editor John Longley urged the rest of the men to turn in their pictures and try for the chance of the one dollar prize offered for the best picture of the week.

The pictures are for the Campus section, and the best picture turned in during the week will win a prize. In addition all pictures have a chance of appearing in the Longhorn at the time. It is printed the latter part of this year.

The snapshots are judged by Howard Berry, photographer of the Experiment Station. They may be turned in at the Student Activities Office or placed in the boxes placed in the lobbies of the new and old "Y." Any number of pictures may be submitted. The pictures should have a glossy finish and should have the name and address of the contestant written on the back of the picture. The contest is open to everyone except staff and commercial photographers.

Highway Department Engineer Speaks To ASCE Tonight at 7

The American Society of Civil Engineers will have George M. Garrett, District Engineer for the Texas Highway Department as a speaker at its meeting tonight at 7:00 in the C. E. lecture room.

Garrett's topic will be "The Effect of Asphalt Freezing on Future Highway Construction." He is highly qualified to talk on the subject due to his wide experience in the field of highway engineering. He is a graduate of A. & M. in the class of '23 and has been a practicing engineer ever since that time.

All Civil Engineering students are urged to attend the meeting as it is on a subject which may vitally concern all of them.

"My Country 'Tis of Thee and Me" Presented Thousands of Times to Awaken Americans

"Let's keep Americans the richest, happiest, freest and most self-reliant people on the earth collectively by re-selling ourselves individually on the principles and practices that have made us great," so stated Stanley W. Foran as he addressed juniors and seniors yesterday morning in Guion hall and underclassmen last night. An interested group of men heard Foran deliver his famous speech "My Country 'Tis of Thee and Me!"

Continuing, Foran said, "To do that let's resell ourselves on the cooperative individualism which has enriched us materially, culturally and spiritually beyond the dreams of less blessed people, and by our unified, vitalized and outspoken zeal for effectively functioning democracy, let's regenerate belief in freedom in all lands where coercive collectivism is destroying personal liberty, equal rights, freedom of speech and the

dignity of man." Speaking straight from the shoulder without wasting any words Foran traced the history of socialism from its beginning through its various stages to the present time. He criticized the American people as being the dumbest people in the world, even if they are the richest and the most fortunate. Adding, he said that in the light of past history the American people are the most foolish people in the world also.

Commenting upon the dictatorships, Foran said that the greatest aid to Hitler, Stalin and Mussolini is the stupidity of the majority of the people in their country. These dictators have been able to instill a form of blind obedience that has become a religion with the people. This religious hold has enabled these countries to accomplish things which have been impossible for other nations.

For the past four years Foran has conducted what he calls a

Universal's Walter Wanger To Portray Ag Traditions

Movie Will Be Full Length, All Star Production Costing Around \$750,000

Traditions which have been a part of the long and colorful history of Texas A. & M. will live again on the screen, it was revealed in an announcement made by President T. O. Walton. He said that arrangements have recently been made with Walter Wanger, film producer of Universal Pictures, to produce a feature length picture on the dramatic history of the school and its role in the military, engineering, and agricultural scheme of the state of Texas and the nation. It has been said that the film will include an all-star cast.

Approval of the board of directors and the faculty to produce the film has been obtained, Walton announces. Publicity Director G. Byron Winstead has gone to Hollywood

to complete arrangements with Wanger. The picture will go into production early this fall and will be released to the nation's screens early in 1943. \$750,000 has been provided for the production of the film. The tentative title, "American Youth Has Never Been Licked," has been objected to by Dr. Walton and will probably be changed, the president's office revealed.

Norman Reilly Raine, who wrote the screen play for Wanger's current production "Eagle Squadron," a story of the American boys in the RAF, has been assigned to the script and will arrive in College Station within the next few days. He will spend several weeks on the campus assembling background data on which to base the script.

"We here at the college feel confident that the portrayal will be an inspiration to the youth of America and will reflect credit on the institution and the entire State of Texas," Walton wired Producer Wanger on receiving advice from Winstead that arrangements for the production of the film had been completed.

Combination Army Navy CPT Course Is Underway Here

Training Not Available To Students; Trainees Arrive at Gov't Expense

Yesterday the new double phase program of the C.P.T. got underway. This program is divided into two different groups: the Army group, which is for men who have reached their eighteenth year of age but not their thirty-seventh, and have been rejected for combat flight duty; and the Navy group, which is for members of the Naval Reserve, secondclass seamen, Class V-5, Aviation Cadets and members of V-1 who indicate their preference for flight work. These courses are not open to Aggies.

Most of the Navy men are enlisted in V-5 and will be sent here by the Navy, while the majority of the Army men will be those who have passed the C.A.A. physical yet failed the Army combat physical.

There will be no cost to the cadet; all expenses being taken care of by the government.

The courses offered in the C.P.T. program will include 240 hours of ground school training in such courses as mathematics, physics, civil air regulations, navigation, general service of aircraft, radio code, military and physical training, aircraft identification, military science and discipline and meteorology. This will be an eight weeks course and will average 5 hours per day, 6 days per week.

All who are eligible and are interested in this C.P.T. course should see Dr. Howard W. Barlow, Coordinator C.P.T., Aeronautical Engineering Department.

Kyle Arrives Today From Inter-American Conference In Mexico

Returning from a two-week stay in Mexico City where he has been attending the second Inter-American Conference on Agriculture, Dean E. J. Kyle of the school of agriculture will arrive on the campus sometime today, it was revealed by his office.

J E Sanders Wins Presidency Of Freshman Class

Boistrous Political Coups Characterize Election Meeting

Wednesday night in the Assembly hall the freshman class elected the following officers: J. E. Sanders of Dallas, president; C. E. McWilliams of Gainesville, vice president; A. R. Orsinger of San Antonio, secretary; W. J. Terrell of Navasota, treasurer; M. A. Coulter, also from San Antonio, historian; and J. D. Thompson as Student Welfare officer.

A number of political parties attempted to railroad their men through, the largest being the combined Field and Coast Artillery with the Engineers winning four out of six officers.

Cadet Colonel Walter Cardwell emphasized everyone should be allowed to vote as he personally wished, and that military organizations had nothing to do with the qualities of a candidate. Cardwell had a difficult time getting the uproarious fish quiet; however, the election rolled off smoothly when it finally got started.

Head yell leader, Chuck Chalmers, talked to the fish on the spirit of A. & M., which thoroughly aroused them, and almost the roof. Chalmers said he was glad to see the new freshmen show real spirit by their energetic yelling and good response.

Suggestions On Curricula Changes To Be Considered

A committee of outside college executives will visit A. & M. to make a survey of the various curricula offered by the college at the invitation of President T. O. Walton, with the approval of the board of directors. While on the campus, the committee will conduct an extensive inquiry concerning the courses offered by the college and will recommend various changes which will improve the general curriculum.

Represented on the committee will be Dean A. A. Potter, dean of the school of engineering of Purdue university; Dr. John J. Tigert, president of the university of Florida; and Dean H. L. Walster, dean of the school of agriculture at North Dakota State College.

Last March Dr. Walton presented a resolution before a meeting of the board of directors to invite these men to the campus. He felt that since the curriculum of the college had not been gone over in several years, a survey should be made with the view of making improvements. He felt that outsiders would be able to do this better than members of the college, a spokesman for the president's office revealed.

Members of the committee arrived here yesterday and will remain on the campus for a week or ten days gathering material for their report. After gathering their material, they will leave A. & M. and will send in their report as soon as it is prepared. Official sources stated that the report to be made will be similar to the Griffenhagen report made several years ago.

Holmgren Addresses Aero Students Tonight

E. N. Holmgren, business manager of the college and assistant squadron commander of the local Civil Air Patrol, will speak tonight at 7 p.m. to the Institute of Aeronautical Sciences in the Electrical Engineering lecture room. All members are urged to attend this meeting.

LONGHORN SCHEDULE

July 14 to 20, Coast Artillery Seniors.
July 21 to 27, Composite Regiment Seniors.
