## USDA Official Tells County Agents of Rural Obligations

The heaviest responsibility for the contribution of well equipped young men and women from each rural community to the armed forces, to war industries and to supporting services during 1943 probably lies with the homemaker, Reuben Brigham, vice director of Extension Work, USDA, Washington, told approximately 500 county extension agents here Tuesday.

Brigham was the chief speaker at the first session of a four days conference of county agricultural agents from 245 Texas counties and county home demonstration agents from 194 counties. The conference ordinarily is held in connection with the annual Farmer's Short Course on the campus of A. and M. in July. This year, however, the Short Course was not held, but the county extension agents were assembled at this time to permit discussion of various aspects of extension work in wartime.

G. E. Adams, vice director and state agent, presided at the session, and after group singing led by Richard Jenkins, director of the Singing Cadets, F. O. Montague, county agricultural agent of Matagorda County, pronounced the invocation.

Director H. H. Williamson of the

fellow to crow, but just take a peek at the National League standings. . . Who's on top? . . . Er, ahem, the St. Loey Cardinals, natchally. . . And who's gonna win the pennant. . . Not the Brooklynites by a long shot. . . That "Gas House Gang" is too hot now and they certainly won't cool off by the end of this month. . . The 1942 Southwest Conference opens its session this Saturday when Texas engages the Corpus Christi Naval Base at Austin and Baylor clashes with the Waco Flying School at Waco. . . Texas should breeze, say by a 20-0 score and Baylor should find the Flyers not too hard an opponent. . . Another three touchdown margin there should be sufficient. . .

Quartermaster Corps.

CAN YOU CLASS COTTON? Almost all of Texas Agriculture deals in cotton somehow or other. Therefore some knowledge of cotton quality is useful to all Texas farmers and agricultural workers.

In order to make such training easily available the Department of Cotton Marketing and the Department of Agronomy have announced a new course available the second semester 1942-43. COTTON MARKETING 2-2—Elementary Section 500-Monday Cotton Classification (0-2) Credit 1. Section 500-Monday 2-4 Section 501-Thursdays 11-1; Section 502-Tuesday 11-1.

Such a course is simple enough for every agriculture student and small enough to be fitted into schedules. Questions will be gladly answered by Professor J. B. Heaton, Department of Cotton Marketing and Dr. Ide P. Trotter, Department of Agronomy.

CALENDAR CHANGES Classes for the Summer Semester will be terminated according to the following schedule: Classified Seniors—Friday Noon, September 18. All other students—5 p. m., Friday, September 18. Classes for the Fall Semester will begin at 9 a. m., Monday, September 28. H. L. HEATON Acting Registrar

CHANGES IN SCHEDULE OF CLASSES ADD: Landscape, Art 405—Protective Concealment (1) 500 M10 501 T9 502 Th12 Agricultural Economics 434—Business Management (3) MWF11 500 MWF12 501 H. L. HEATON Acting Registrar

ATTENTION AGRICULTURAL STUDENTS—I wish to call the following action of the Academic Council to the attention of agricultural students who may be interested. In all courses in the School of Agriculture, Math. 103 may be substituted for Math. 108 or 110, and the student may take Math. 101 in his freshman year with credit toward graduation on approval of the head of the department in which the student is taking his major work.

In the course in Ag. Adm., Physics 201, 202 may be substituted for Biol. 111, 112. In other curricula in the School of Agriculture Physics 201, 202 may be taken as electives or substitutions with the approval of the head of the department in which the student is doing his major work. E. J. Kyle, Dean of Agriculture.

CHANGES IN SCHEDULE OF CLASSES ADD: Animal Husbandry 431—Meat Plant Operation (4) MW9 Lab. hrs. to be arranged 500 Electrical Engineering 320—Electronics (4) 288 MW9 P9-1 289 TThS10 P3-1 Electrical Engineering 428—Communication Circuits (4) MWF12 P2-5 388 MWF11 P2-9

Texas Extension Service, the first speaker, said that A. and M. has a challenge to render the maximum of service of its career "and we feel pride that Extension Service workers are a part of the institution which is making a masterful contribution to the war effort." Some 6,500 former students are in the armed forces, he said, the majority of whom are commissioned officers. Two of these were at Corregidor. The Extension Service, he said, had the greatest opportunity of its career to serve, and it could be appropriately designated the "agricultural signal corps," because its function was to bring information to farmers which would help them to produce at maximum.

Director Williamson pointed to the heavy task American farmers will have next year in producing food and fibre for our civilian and military populations in addition to those of our fighting allies without increase of farm machinery or labor.

### —CHANCE— (Continued From Page 1)

it a point to visit with all his friends here on the Campus each Sunday and holiday up until 1933 when he started commuting daily between the college and Bryan to help out here on the campus. Jimmie works most of the time, when not in a good bull session over in the Cavalry halls or off on a corps trip, at the commandant's office helping with filing official records and other work in the main office.

Jimmie says with pride and real Aggie spirit that he notices how the spirit is kept up every year by the corps. "I like A. & M. more than any other school because the majority of the boys are hard pressed for ready cash, and must work their way through school. This makes them really have the true Aggie spirit."

Jimmie can recall how the campus has grown since he has been here. Nearly all the new buildings have been built since then and he remembers in great detail about them all. He tells about the times when the "toonerville trolley" was the one and only means of transportation between here and Bryan.

"I have watched coaches put out good ball clubs for many years; I've seen Matty Bell mold a bunch of tough Aggies into a cracker-jack ball club, and then I've watched Homer Norton do the same thing in recent years since 1934, but I've never seen our team break the jinx in Austin! We'll do it this year!" That's the spirit, Jimmie Chance, true Aggie. Let's beat the h--- of Texas, Jimmie!

To judge and examine oneself is a labor full of profit.

Bowie's long fly to center field. Coast team could offer as the next two batters struck out.

Fish Tennis Champs The freshmen of G Field Artillery won the Class B Tennis championship as they defeated the E Coast Artillery fish 2-1.

Eiderman and Nicol beat Nelson and Reeder to take the first match off the Field team while Roark and Carroll defeated Brennecke and Sears to win the second match. The lone Coast victory was won by Stuckey and Skies as they took Fahrenkamp and Cambell. Substitutes for G Field Artillery were Colbert and Spacek. No subs were used by the Coast players.

Conceit can puff a man up, but can never prop him up—Ruskin.

should come out with flying colors. Here's how I stack up the other 14 leaders, with Michigan No. 1:

1. Michigan
2. Mississippi State
3. Southern California
4. Texas A. & M.
5. Pennsylvania
6. Missouri
7. Nebraska
8. Auburn
9. Notre Dame
10. Cornell
11. Boston College
12. Southern Methodist
13. Wisconsin
14. Georgetown
15. Stanford

Here is my rating of the Southwest Conference:

1. Texas A. & M.
2. Southern Methodist
3. Tulsa
4. Texas
5. Oklahoma
6. Rice
7. Texas Tech
8. Arkansas

### —FESTIVITIES— (Continued from Page 1)

tain's dance will not be held this year because of the seriousness of the times.

Saturday night the King and Queen's ball will be held in the Grove, if weather conditions permit. At this time King (Mervyn) and Queen (Warrene) with their military escorts will preside over the dance. Music for the affair will be furnished by Curley Brient and his Aggieband orchestra.

General Social Chairman of the company is R. H. Miller. Arrangements for Friday and Saturday's dances are being made by a committee of the following men: G. W. Albritton, J. B. Coolidge, George Greany, R. L. Haines, R. C. Haltom, W. B. Holbrook, F. C. Keeney, A. O. Lacy, W. W. McMullen, J. R. Ratcliffe, C. S. Rudloff, R. T. Townsend, F. N. Walker and J. E. Yardley.

### —AGGIES— (Continued From Page 3)

the running of Ed Sturcken. Sturcken drove over for the score on a quick opening play from the 15 yard line. Webster again kicked the extra point.

The final touchdown of the game came deep in the fourth quarter as the result of some beautiful running by Bobby Williams. The Reds kicked off and Bobby brought the ball back thirty yards. On the first play from scrimmage following this, Williams found a hole at left tackle, cut back, reversed his field twice, and galloped 60 yards to score.

Jake Webster kicked the conversion, his fifth out of five attempts for the afternoon, and his eighth starting since Saturday. The end of the game found the Whites in possession of the ball on the White six yard line.

One tree can make a million matches; one match can destroy a million trees.

voted on by old members of the company.

The first uniform for the company was of white with gold ornaments. At that time a tin helmet was worn for headgear. The present uniform is very similar to the original one, with the substitution of the light weight military cap for the tin helmet.

One thing about the school of experience is that you can always take a post-graduate course.
