Mathews, Jr., now in training with the Air Corps Engineers at Chanute Field, Ill. . . Bunce graduated (pet. eng.) in September, and, on arrival at Chanute Field, was put in charge of drilling men. Recently he was elected Cadet Captain of his class of 185 men. . . competed with four men who have been in the army 3 years and with five men at the head of his class. Mathews was non-military while here. . . Here's a little unpleasant business which must be straightened up: Aggies are again asked not to shoot craps on the porch of the church annex at the Aggie corner in Bryan. This thing happened back in the summer and they asked us not to do it. . . recently they have been forced to ask the same thing again. It is not unreasonable for them to ask it. If somebody would sit down at your mother's table and say, "Please pass the hell out of the e\*\$%\* bread," you would probably throw him out. But they aren't going to throw us out. . . to the contrary, the pastor says that if someone will drop in at his house around the corner, he will open the annex in bad weather for the Aggies so they can keep warm and dry. . . Let's see if we can do without an O. D. on the corner next weekend. There was one last week, but we can do it on our own. . . And very surprised was F. H. Jungeman of the Modern Language department who received the following telegram while he was giving a German quiz last Friday: "AM MISSING YOUR GERMAN QUIZ IMMENSELY. Signed A SINNER. Boys will be boys, you know!"
