Once Again, Ole Army...

Once again it is time for the cadet corps to be reminded that speaking on the campus is one of the oldest and most honored traditions on the Aggie campus.

It is the one thing that can never be restricted or prohibited unless voluntarily done so by the corps.

We haven't a lot of new freshmen now, but we do have a lot of old students and fish. It isn't the Aggie way for the corps to walk down the street or sidewalk with your head held high...

Since this was last brought to the attention of the corps, everyone has taken an "up" in ranking and rating. Last year's sophomores are now wearing serge, and last year's freshmen no longer are wearing fish stripes.

Be that as it may, that "lift" can never be so high that we all aren't just still Aggies—Aggies writing their names across the pages of history with their own blood.

Old Army, it has been a habit around here long enough for us never to have to be reminded, so let's all come down off of our high horses, and get out that old "hello" again.

Hitler, Tojo, and a Sub... On February 15, College Stationites will get to see for the first time, a real, death-dealing submarine—that little 2-man affair that was captured at Pearl Harbor December 7, 1941.

When that sub gets here, it will, or rather, should mean more to all of us than just a curio that you might pay a quarter to see at the carnival—it should mean the re-affirming of your own personal determination to fight the Axis, either at home or on the fighting front...

Beside the truck on which the sub is fastened will be a booth for the sale of War Bonds and Stamps. Everyone in uniform on the campus will be admitted free, but Texas University students bought a total of over \$100,000 worth of bonds and stamps to see the same thing you will see free.

We are serving our country best by staying in school, but if you are of the many that think you, yourself, are not doing your part in this war, then here is the best and most important way of doing that part.

The exhibit will be placed on the street between Mark Francis Hall and the Textile Engineering building. Decide now to buy your weekly or monthly quota of stamps or bonds then. Remember, T. U. topped \$100,000!

CAPITAL to CAMPUS

CO-EDS PLEASE NOTE... By the end of this year, about 20 per cent of America's industrial war workers will be women—a total of 6 million of them, according to the War Manpower Commission... Proposed by the Women's advisory committee of the Manpower Commission, the new program would be aimed at women who have never worked before...

Man, Your Manners

By I. Sherwood

Potatoes and gravy appear more often in ordinary diets than any other foods, but have you given much thought about the proper way to eat them? Be satisfied with the way your potatoes are served you—if they are whole, let them stay whole, and cut off bites, one at a time, with your fork.

Nice table manners are a matter of knowing how to conduct oneself at a meal in a way that will not be offensive to others. We indulge in eating on an average of three meals a day throughout our lives, and since we are often judged by the way we eat, we should know how to do it correctly.

"Quotable Quotes" ACP... "Science has transformed the physical facts of our material existence with an acceleration dating back to the start of the industrial revolution."

Aggieland is out to beat Tea U.'s \$107,000 bond total when the 2-man Jap sub was exhibited on said campus. The submarine, captured during the Jap sneak attack on Pearl Harbor, is 81 feet long and with the trailer it rides on, weighs 76,500 pounds.

BACKWASH

"Backwash: An agitation resulting from some action or occurrence" — Webster

"Pink" Slacks... That order was the first time Backwash had ever heard them called "Pink" britches, but by whatever name they are called, they are the main topic of conversation around here these days.

Backwashin' Around... Marvin Hall, state fire insurance commissioner, says that at least 328 persons in Texas were killed by fire last year...

That Jap Sub... Aggieland is out to beat Tea U.'s \$107,000 bond total when the 2-man Jap sub was exhibited on said campus.

Hitler's Power... This month, Adolph Hitler, the man with the face, will celebrate the tenth anniversary of his rise to power—a dark decade of human misery.

Not that we want to get anyone in trouble or anything like that, but provided the system has been figured out for getting out of one's dormitory room either during the afternoon when "study" is marked on that class schedule card...

On the Guion Hall projection machines will be about five reels of Hedy Lamarr. That strikes your reporter as being worth the effort to figure out a way to get past that mean old CQ.

Across the campus, the movie-house at the North Gate is readily stocked with humor for those select few who can "arrange" things to attend. One of the funniest of the "road" pictures is presented today through Saturday with those inseparable, irrepressible, irresponsible B boys of the screen, Bing and Bob in another laugh riot, ROAD TO MOROCCO.

As usual Dottie Lamour with her sarong aids and abets the wider world travelers on their sojourns, this time en route to Morocco.

And incidentally, the Civil Service Commission is now authorized to employ part-time women workers in government agencies. That does not mean, however, that there will be part-time jobs in all cities.

Again, during the next year, one of America's most urgent needs will be for nurses. Paul V. McNutt, Manpower director, pointed out the other day that 65,000 young women must enter nursing schools between June 30, 1943, and July 1, 1944, "if even minimum civilian and military needs of the nation are to be met."

And incidentally, the Civil Service Commission is now authorized to employ part-time women workers in government agencies. That does not mean, however, that there will be part-time jobs in all cities.
