## First of Town Hall Programs Booked At Guion in Nov.

Gypsy Dancers Feature Flamenco Dancing When Entertaining Audience

The Fall semester Town Hall program will feature twenty-year-old Carmen Amaya at Guion Hall on Thursday, November 18, the Student Activities committee announced late yesterday. With the name that this dancer has made for herself, it is fortunate that she could be booked for the coming semester's Town Hall from S. Hurok who imported her from South America.

Carmen has been acclaimed the greatest flamenco dancer of all time by such music critics as Toscanini and Stokowski. It was in 1941 that she came to America and did her first dance in New York. This Gypsy dancer who will bring her troupe with her has been dancing since she was four years old, and she has been doing dances through flame ever since that time.

A number of well-known theaters have been honored by her dancing. Among these theaters was Carnegie Hall which was won by the rhythm and personality that Carmen displayed while during her dances. She is well-known in all parts of the country so it is fortunate that she can be brought here for the Town Hall program.

To be conscious that you are ignorant is a great step toward knowledge.

Scenes from the burning of the Normandie show all stages of the frantic fighting of fire and smoke, of workers caught aboard and rescued, of nurses, doctors, and hospital attendants busily caring for the injured.

## Learn The 'Aggie Way' - - - Highway Courtesies Toward Motorists

A lot has been said this semester about the Aggie tradition of hitch-hiking. Most of this has been for the benefit of the new men who did not understand the way Aggies act on the hi-way. At first the main trouble seemed to be the forming of the customary "line". A lot of this has been corrected now, with the aid of the servicemen here and the upperclassmen.

Anyway, the purpose of this article is to acquaint those who do not know them, with some of the things Aggies do when they catch a ride.

The other day the story got around of some luckily unidentified freshman who was picked up by an Aggie of '21. It seems that this hitch-hiker did not introduce himself at all but just sat in the car like he was made of stone. The driver, playing innocent, asked the fellow what the AMC on his

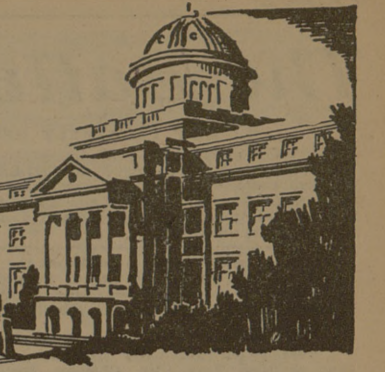

collar stood for. He was curtly told, "Australian Motorcycle Corps". The Ex promptly told him that anyone from the state of Texas knows that the AMC stands for A. & M. College. He also informed the freshman that he had graduated from A. & M. before the freshman was ever born and had forgotten more of the Aggie traditions than he would ever learn.

One of the first things that real Aggies learn is courtesy on the hi-ways. When a motorist picks up a hitch-hiker, he does so because he wants company; someone to talk to or maybe help him drive.

The first thing an Aggie does when he enters the car is to introduce himself to the driver and then to the rest of the passengers in the car. If the driver is a woman, the Aggie will remove his cap and say,

"Mam, my name is John Aggie", or whatever his name happens to be. During the ride, the Aggie stays awake and talks to the driver and does not go to sleep. If the driver is tired or sleepy, the Aggie offers to drive for him. If some car trouble is encountered, the Aggie stays with his benefactor until the trouble is righted.

People all over the country know about Aggies and their way of hitch-hiking. One of the main reasons Aggies are so noted is because of their courtesy to obliging motorists. Ole Army, let's do our best to keep up this reputation of politeness on the hi-way. The co-operation seems to be getting better in the matter of standing in line. The help of the servicemen is greatly appreciated in this matter.

Mario Braggiotti, the elder of the two youthful pianists, was formerly teamed with Jacques Fray who was called military service. He then selected young Walter Shaw for a partner and the two of them have met with outstanding success in every performance presented.

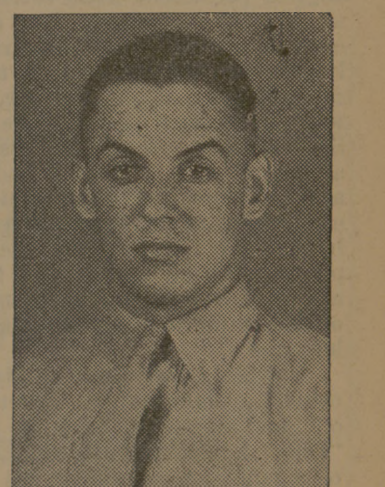

Braggiotti is the second son of a family of eight children and was born in Florence, Italy, but his family has been American for two generations. The Braggiotti is well-known in the annals of Boston, Mario's grandfather having been one of the heroes of the Civil War.

Shaw joined with Braggiotti in June of 1942 following Jacques Fray's going into the armed forces, and in twenty-five days learned, mastered and memorized the entire repertoire of the two-piano team—a feat claimed by music critics and being truly amazing.
