LOST—Pair reading glasses in brown leather case with name of optometrist—S. H. Laufer, New York City—embossed on case. Please return to Mr. G. H. Linssey, 536 Navy Administration Office. Will be in market for seeing-eye dog if can be found!

FOR SALE—A beautiful home near schools, large oak trees. Lot 120 ft. x 120 ft. Must be sold this week. \$3,650.00. James W. James, City National Bank Bldg., 27065, Phone 2-8135.

LOANED—A Shearer fountain pen to someone in the commandant's office Thursday afternoon. Please return to Claude Stone, room 412, dorm 17, Thanks.

Announcements

The President's Office is holding a package containing two cans of Sherwin-Williams White Enamalgold, from the Sherwin-Williams Co. of Dallas. Will the department ordering this please call for it.

The President's Office has a package of Sal America from Montgomery-Ward Co. Will the department ordering this please call for it.

Distinguished Students: Citations from Doctor Walton are now available in the Registrar's Office for those students who were distinguished during the Spring Semester.

H. L. Heaton, Acting Registrar

BRAZOS COUNTY A. & M. CLUB TO STAGE BARBECUE
The Brazos County A. & M. Club will stage a stag barbecue Monday, August 2, 7:30 p.m., at the Bryan Country Club. The barbecue will be handled under the direction of George Long, a past master of feeding groups of Aggies. In order to prevent a waste of food, preparations will be made only for those who signify their intention of attending. Brazos Aggies are asked to phone "Jack" Roberts before 10 a.m. Saturday if they have not already been contacted and if they wish to attend the barbecue.

FIRST PRESBYTERIAN CHURCH
College Station, Texas
Norman Anderson, Pastor

Bentley Explains Concrete Values

Concrete floors in grain storage structures have the advantages of being rat proof and of providing a plentiful substitute for scarce building materials.

According to M. R. Bentley, agricultural engineer for the A. and M. College Extension Service, concrete simplifies construction, solves the heavy load problem in grain storage, and makes it possible to keep the whole building lower since wooden floors for permanence should be at least two feet above the ground.

Many farmers have hesitated to use concrete flooring in a grain bin or crib on account of the danger of its becoming damp and causing grain spoilage. Bentley recognizes reason for such fear, because if the floor touches water or damp soil the top will be damp.

In most locations, he explains, there is no difficulty in building a concrete floor which will remain dry. The essential factors in constructing a dry floor of concrete are to build it so that the underside will be at least four or five inches above the surrounding ground, and place a layer of gravel or crushed rock at least four or five inches thick beneath the concrete. Moisture from the soil will not move up through gravel, crushed rock, or similar materials as it will through soil.

Bentley cautions, however, that in a few locations water may rise and come in contact with the concrete. In such cases some method of waterproofing the floor would be needed.

If desired, concrete floors may be built high above the ground by using higher concrete foundation walls and a dirt fill.

Target for Tonight To Be Shown Sun.

"Target for Tonight," described by Time Magazine as "far and away the best picture that has come out of World War II, is brought to the campus again and will be shown at the Assembly Hall at 4 o'clock on Sunday afternoon.

The picture was made by an English film unit under the direction of Henry Watt. Its atmosphere, the quality of its action, its realism all bespeak the fact that it was made in England with members of the illustrious R.A.F. as the actors.

The crew of six, whom we see in the film, had made, at the time of the shooting of the picture, 200 flights over Germany. Their names are not given, nor are any of the others in the film listed, but so familiar are they by now that they are easily spotted. There is Air Marshal Sir Richard Pierce, Commander in Chief of the R.A.F. Bomber Command; "Speedy" Powell, the blond, curly-topped wing commander, who led the first over-the-Alps raid on Venice; and the

of the hi-way and decided to leave it for open country. He made up his mind on a curve, and proceeded to jump a ditch, crawl under a fence, and smack a tree, all in the family car. Frog Philips and his date refused to take notice, and made the best of the situation.

Frog Dickson, of dorm 16 has the well-known "reds" on a certain female tea-sipper down at Texas U. and he has just about decided to take a little trip down there to get that gal on the line, and from what I hear about the girls having the boys outnumbered 10 to 1, I think I would enjoy going with him!

We've been reading quite a lot about Aggie courtesy on the hi-way, and it seems to me that no one, not even a Frog, would break down the tradition of showing courtesy to those who offer him transportation. All over the state the rule seems to be that if there are any rides to be had, the Aggies will get them. If the people of Texas feel that way about it, then surely we should do all in our power to make ourselves worthy of that honor.

These last two days have just been one big float-out. However, the boys of U.S.S. dorm 17 don't seem to mind it a bit. This wet weather also seems to breed those little animals called the "Reds." About the only good in weather like this is the dismissal of gym classes—everybody seems to agree on that.

Oh, do I envy the guy that hauls out of his P.O. box those pastel colored envelopes that smell so sweet! One of the lucky dogs for today was Frog Bauer who got one of those lovely smelling messages. As a result, he walked on air all day, and whistled like a canary. Sharing the same glory was Frog Kaufman, that dashing Casanova who has not one, but two chickens on the string! Oh, he's a devil with the women, he is.

About the most disgusted Frog in Dorm 15 is Frog Vickers, who wore Cavalry boots to P.E. thinking that he would go right in swimming; was he surprised, though, when we had to do exercises and then run! He had an entirely different idea about boots after that session!

Say, dorm 16 has certainly quieted down lately. Could it be because of Frog Frazier's absence? At any rate, it is much tamer than it used to be.

Frog Leasly on the "Rough and Rugged" (?) fourth stoop boasts of knowing quite a few girls hereabouts. Let's get out our little red books, boys, and make him talk. And while we are on the subject of girls, (and when aren't we) let's not forget to push that Freshman Ball, fellows; just imagine all those beautiful girls running 'round loose on the campus!

Frog Graham rates a pat on the back. While on his holiday "vacation" he managed to get a beautiful new, 20-inch slide rule. Good work, Frog Graham.

Frog Roper is all wrapped up in a Tarleton woman. Not only does he like to be military, but he also wants his woman to be military too. Isn't that right, Frog Roper? In closing, I would like to give instructions on How To Give a Girl a Surprise Party. Place arms around her, draw her close and start to kiss her. When she says (rather unconvincingly) "Please stop", release her unbidden and take a look at the surprised look on her pan. And if that's your idea of fun, brother, you can have it! Well, fellows, that's about all for now (the man wants his typewriter) but I will see you soon—I hope.

Former Student Is Raised in Rank

BIG SPRING, Texas.—Lt. Earl L. Jones, base weather officer at the Big Spring Bombardier School, has been promoted from second to first lieutenant.

Lt. Jones, son of S. L. Jones of 2013 N. Jackson, Palestine, attended Palestine high school, the University of Texas at Austin, Texas A. & M. College at College Station, and U.C.L.A. at Los Angeles. He last worked for the U. S. Weather Bureau before his enlistment in the Army.

His wife, Mrs. Ann C. Jones, resides at the above address.

Fish Tales

By Bryan A. Ross

Now that the Dean's team is playing again, there will be a lot of sad and long faces for many of us. There were many Fish on the deficiency list including some of our best students. Many of us have made the lowest grades and averages that we have ever witnessed. Some Fish had never made below a "C" until the current semester. The most recent question that is being asked is, "What do you think is the reason for so many low grades?" Many answers have been given. Some think it is the hot weather, others believe it to be present and conflicting wartime conditions. But nevertheless, some of the lowest grades of any Freshman class are being made right now.

The slaughter is still going on. The second stoop is famous, you know, for its great wrestling matches. Fish "Abbie Springs" recently has been mauling his roommate, Fish Harrell, and vice-versa. Frosty Moore and Bill Reed were recently seen throwing Sloan's Liniment on each other.

The draft board spider web has finally caught Ray Wiley. That poor, innocent Fish expects to be overseas in three months. We in the Air Corps Reserve think that Sheppard Field is the worst place on earth, but Ray is very definite on the belief that Camp Wolters is the most terrible. He says: "It can mean but one thing if I go to Wolters, I'll be a darned B.A.P. in the 'paddlefeet.'"

Also on the expectant list are: Fishes Stuart Youngblood, Barton Wallace, Bin Ng, and Frosty Moore. This draft bait will probably be called before the end of the semester.

Talking of the service, there's been some hot arguments going around here in No. 14. They are usually conflicting opinions as to what branch of the service is the best, and are mostly between the Army Air Corps and the Naval Air Corps. So if you'd like to hear a good debate, just step around any time and you'll hear one.

A new addition to our many oddities around here is a radio station. Fish H. C. Chancellor, that E.E. "queer," has rigged up his own sending station. The other night we heard a voice coming out over the ether—"Hello, Aggies, how's the Ole Army?"

Flash! Latest news bulletin: Fred Manget (called "Maggots") has finally gotten in the Air Corps. He didn't want in it very badly, though; he's just been talking about it for the last six months. If any more news on this boy comes in, we'll let you know as soon as possible.

It seems as if the Fish had a hard time of it over the holidays. By the way they dragged out to roll call, one would think they'd been out running the cross-country all night.

Fish Bill Peterman has recently been praising North Side of Fort Worth. "Cowtown" has a very deep place in his heart, especially the stock yards. But every time he opens his mouth another voice rings out: "Toro Feces, Toro Feces!"

If anybody can pass Analytics, please come up to see Fish Stevenson, Fish Langston, Fish Settegast, and your columnist. We are queers in that subject, but queers the wrong way.

We all hated to see Jack English leave us. But since he needs an operation to get in the Navy Air Corps, it would have been difficult for him to remain. We're wishing you all the luck in the world, Jack, hoping that you get those wings of gold in a hurry. But don't forget, we're gonna come down pretty soon and help you get those little gals in Houston on the line.

Ralph "Bud" Tipton, class of '38, who is now advertising manager and sports editor of the Jacksonville Daily Progress, was a visitor on the campus Friday afternoon.

in the army for a couple of years and really knows his way around. Mr. Reith's face would probably turn a delicate pink if he were to read something like the following in the paper, "what gentleman in academic flight 36, has so much confidence in himself that he'll bet you he makes a lower grade on a test than you do?"

LECTURER
(Continued from Page 1)

years and missionaries were sent out on a world-wide evangelical program. During the 1840's the church was divided due to disagreement on the question of polygamy and a group led by Brigham Young moved to Utah and established a colony there and are commonly known as Mormons. Repudiating polygamy the remaining group was reorganized in 1860 with the founder's son at its head, and have headquarters in Independence Missouri. They number about 100,000 after the assassination of the founder by a political mob, in membership.

The speaker for the lectures to be concluded Sunday night at the YMCA Assembly room has been for the past seven years a missionary for the reorganized church in Mexico, Canada and United States and, according to those who have heard him, is a capable and effective speaker.

College Station Man in Training

Among the new trainees who have recently arrived at the Coast Artillery Replacement Training Center, Camp McQuaide, California, is Pvt. Frank A. Hollingshead of College Station.

He will be stationed at Camp McQuaide for a period of 13 weeks, during which time he will undergo basic training for replacement duty. He will be instructed in the various uses of the Coast Artillery weapons as well as physical hardening, general military law and discipline.

JEEP GRABS STEER, BUT FAILS AS SUB ROPING HORSE

A steer can be roped from an Army jeep, but that four cylinders under the hood of the blitz buggy don't substitute for a good roping horse.

Ike Rude of Pawhuska, Okla., roped a loping longhorn from a jeep at the Cheyenne's Frontier Days rodeo Thursday before 11,000 spectators, but when it came to busting the animal, the jeep might as well have been in Sicily.

Attempting to circle the steer in order to trip him was too much, and Rude's precious lariat parted.

MAD-CAPS

(Continued From Page 3)

ners were rampant—at least two didn't take off their shoes and several left their socks on.—Perhaps it was the presence of a certain officer.—How about that, Baines?—Lest we forget—Did you notice that the boys aforementioned are Corporals???—Congrats.—Fitzpatrick, the guy that you never did hear at Anchor Hall, was, to the amazement of everyone, quite happy—Poor guy, and he always looks so sad.—He said he now had everything he had ever wanted....Corporal stripes, a furlough, and a transfer—So is no longer unhappy—Quite a transition—Of course "Tyron" Powers was there and I had a constant fight on my hands to keep my chair—You see I was sitting next to my wife—The wolf—Humerickhouse, minus his two front ivories, was wolfing too, but then he used to be in the Navy—Just about that time the gin played out and so we called it a night.—Well, it was dark.—Bon Voyage, and happy flying fellows and send me the first Jap tooth you find. But please extract it first.—Good Luck and so long, and I know we'll be hearing from you.

MILNER

(Continued from Page 3)

way. All Aggies should be interested in arousing again the once grand inter-school spirit between A. & M. and TSCW. If a large group of Aggies take a few minutes time, the majority of the Aggies will benefit. I have written an open letter to the editor of the TSCW paper in hopes that some TSCWites would start that idea again, so the girls at TSCW will be prepared when the letters start arriving. How about it, Army? It can't cost you but a stamp and a little time and CAN turn out to be fun.

Someone decided they needed another pencil because they took Brian Duke's black Sheaffer with a military clip and gold band on it. Duke will need this pencil if he is to continue making "A's". Please return.

Back to news about Milner. The Milner terror is no more. Bill (the giant killer) Brough had enough guts to call the bluff of the chief buddybud of Milner's dewdrops. Flowers to you, Bill. Jack Knox, head yell leader says that he's trying had to get a yell practice, but

MAD-CAPS

with the recent change in officials, he doesn't know just how soon we will be able to have one. Don "Chest" Howard wants anyone interested in body building to come and see him, Room 30. Jimmy Ege seems to do pretty good with that ten pound dumbbell. You ought to watch that dumbbell Howard though.

More glimpses around the dorm. Curtis packing. Henry wondering whether to start packing or not. Graf carrying some papers. Gibbons—no better not say it. Scotty wearing a beautiful red tie. Johnson, Shapiro and Duke always together. Bottom floor nearly 100% on the dean's team. Sure is quiet down there lately. Several bull sessions, all stale. Well, I'll stop boring you. Remember to write your box at TSCW and for gosh sakes keep speaking to people. Although I'm an engineer, I'm sure the engineers will find themselves laughing at the following by an Aggie's woman:

God made up all kinds of men, Doctors, lawyers, priests, and then,

The devil stepped in and stripped the gears

To turn out guys called "engineers."

So long, Army. Beat the hell out of Texas.

ENGINEERS

(Continued from Page 2)

makes little Nero and Bosom Pal very unhappy indeed as they are both very thirsty on Saturday nights and there is nothing to drink in the room except water. So they inform Kentucky Pat that they will have nothing to do with the type of person who would call attention to a little thing like not being in a room. So you can see why I am most surprised indeed to see Little Nero and Kentucky Pat become ever loving buddies and I am so surprised that I fumble and Moo-Bishop out-reaches me and get two bottles of milk a beverage that Moo-Bishop is very fond of indeed.
