

# Marine Mad-Caps

The 18th of September in the year of our Lord 1943, the Navy and Marine Recreational Fund will sponsor the appearance of Jack Teagarden—at Duncan Hall. This dance is to be a new high in entertainment for the men of the Navy and Marine personnel here at A. & M. So come on chillin and gather all your pretties and come to this gala dance. We promise you won't go away disappointed. After all what have you to lose—IT'S FREE—down to the last Coke.

The first of September 1943 First Sergeant William P. Feccia was promoted to the rank of Sergeant Major. This means the Sergeant Major will be able to wear one more stripe down making a grand total of six stripes. Sergeant Majors are rather few and far between, because this is more or less an honorary promotion. So I guess "Ole Top" is as always first-class material. Congratulations Sergeant Major William P. Feccia.

Staff Sergeant Boles is not only a proud pappy but now a Staff Sergeant. Nice work Crisco—May you keep right on with your fine work in both fields of endeavor.

The Marine Aviation Detachment is proud to announce the grand opening of a Post Barber Shop. The shop is to be operated by one Pvt. Harry Giarratana a barber in civilian life for over ten years. Haircuts at the Post Barber Shop are 35c . . . so there should be no excuses for any Marine being in need of a haircut. Shop is located in extreme East end of Building No. 8 and is

### CROWDS

(Continued From Page 1) surprise the skeptics. The very lack of experience in the players is going to cause them to do things on the playing field that older boys would not even attempt to do. True, some muscues. will be made, but every play will be a thriller, and these youngsters are determined to play their hearts out, and from the grandstand it will be a spectacular season.

"Anybody who stays away from football this season if they possibly can get to the stadium is passing up the greatest entertainment bargain ever offered by the Southwest Conference.

"We have found that the Aggies of 1943 have had a good high school coaching. They have been practicing here long enough to understand our style of play. They realize no freshman ever had the same opportunity to letter on a college team, and they're in there fighting every minute of practice. "The serious minded, hard working attitude of the boys shows a determination on their part to represent Texas A. & M. College with a winning football team.

"We can assure the public their money's worth of recreation and entertainment every time that team takes the field."

on the first deck. Hair-cuts here are not given in mass production style.

PFC Julius Hooker is no longer referred to as PFC, for on the 9th of September our boy Hooker was promoted to the rank of Corporal. Cigars are still in order, but we will, I believe, extend congratulations anyhow . . . Nice Sailing Hooker. Let's hope more of these promotions will be coming your way.

The Marines here at A. & M. have since a recent order received from Washington, D. C., concerning promotions, been a completely new Organization. Drill and formation has improved one-hundred per cent. This I believe is in part due to the fact that all would like to receive those additional rates. This promotion of course concerns only those who are in good standing and will remain in good standing as far as discipline is concerned. So keep up the good work men and a large percentage of you may leave A. & M. with a rate or two.

### Circling the Field Squadron III

Well gentlemen, at last the end of our flying has come and gone: nice wasn't it? You're losing altitude . . . your right wing is dipping . . . keep your nose up . . . now why did you use left stick and right rudder . . . you only do a partial stall above the ground in landing, not a complete stall . . . that was a nice ride you gave me BUT . . . oh that megneto is all right—just because it dropped five hundred r. p. m.s won't matter. Gentlemen, we won't be hearing these familiar words for a long time. Just think, gentlemen, it will be four more months before we'll be flying again—long time isn't it? We won't be able to come out to formations in fatigues and say we've been flying when everyone knows we didn't have time to change. We'll have to wear our G. I. shoes again. We can't get anymore prop tips for souvenirs. Gee, this is going to be as bad as the ole G. I. Army . . . Spa—lash! and so another potential pilot was "washed out" by the lads. I hear that Mr. Mahan is going to be reclassified now after "falling as a pilot"—you'll like Sheppard Field Mr. Mahan and besides, they do need some more good G. I.'s. If you're lucky you will be classified as gunner and then you can wear those wings like Mr. Boone. I see that Mrs. Buckner is back again. Too bad ole man, now that your C. O. is back you'll have to settle down to a calm life again.

Here's a little ditty that one of the Misterys of our Squadron received from his "Mom."

G. I.  
Sitting on my G. I. bed,  
My G. I. hat upon my head,  
My G. I. pants, my G. I. shoes,

### Trimming Tabs Squadron I

Well, old timers, how does it feel not to be on the tail end of this Detachment, chronologically speaking, of course. Yes, the current influx of new studnets plus all their enthusiasm and bewilderment simply means that whether we are in favor, or not, this organization is fast gaining momentum towards the well known, but not often mentioned, half-way mark. Before more words pass by, let us whole-heartedly wish our new comrades in Squadron II a warm welcome and that their stay be most profitable in all endeavors undertaken. Incidentally, Flight "C" gentlemen feel in a maternal way regarding these neophytes because did they not help prepare the now much occupied humble abode and all but "tuck-in" each individual, however, the same courtesies were enjoyed by us so now the obligation might be considered evened, if not cancelled.

By the way, the next time you "fall in" kindly observe, without being observed, the tranquility, but set, expression on the countenances of those surrounding you—this might be a sign of contentment and self-confidence, however, we have (for the most part) justified commendation to varying degrees in the past so let us not allow premature old age to create a condition even resembling stagnation. Furthermore, the next time you are at "rest" exercise those vocal chords with three lusty cheers for our ball club at this gesture on our part is definitely deserved by the members who are "putting out" on the diamond with excellent results.

OFF BEAM STATIC . . . The \$64.00 question at this moment—where is our prized guidon? We don't mind if the ribbons are being used as souvenirs but would surely like the guidon for future (can do) awards. . . Comes the Wing Ball very soon, look at our casanovas hustle-which brings in mind "never underestimate the power of the opponent" . . . This last weekend, as stated by "Rover," was—, ask those who should and do know. Well, see you on the tail end of the next road run—purely preserving the last vestige of energy—but naturally.

I wish they'd give us G. I. booze.

G. I. razors, G. I. combs, G. I. wish that I were home. They issue everything you need: Paper to write on, books to read.

Your belt, your socks, your G. I. tie—

It's all for free, nothing to buy. They issue food that makes us grow,

G. I. want a long furlough.

You eat your food from a G. I. plate. Buy all you want at a G. I. rate. It's G. I. this and G. I. that, It's G. I. work that breaks your back.

Everything here is government issue—

G. I. wish that I could kiss you.

That's all for now Gentlemen, I hope we aren't here when this paper comes out!

# WING BALLS ATURDAY Y 18

**CONGRATULATIONS**  
Congratulations to our Detachment Commanding Officer, Capt. Sam B. Hill, will reach the ripe old age of thirty-five, Friday, September 17th.

This is the second birthday the Captain has witnessed during his present tour of duty in the Air Corps.

The Commanding Officer will return to this Detachment in time for the Wing Ball. We know he will be happy to return, as we have first hand information from Mrs. Hill.

The new Squadron II will meet their new Commanding Officer for the first time Saturday evening and may we add that it will be quite a pleasant surprise for them.

We wish to again congratulate Capt. Sam Hill and wish him many, many more happy birthdays.

### "EXHAUST" Squadron V

Mr. Sheldon, who is flight leader of academic flight 52, has us all adither. He's expecting his wife any day now, so every time he sees a girl (I saw a girl once) we get eyes right or left, as case may be. He hopes every girl will materialize into his charming wife.

Ramp F of Hart Hall sounds like a music hall. There are several horns that just don't seem to jam on the right notes. But then Benny Goodman sad to be good you gotta practice. And we appreciate the band, too.

Squadron V has been setting records again, this time in the mile and six-tenths run.

Aviation Students O'Flarity, Doliver, Sullivan, Cantor, O'Brien, and Bernstein were so far ahead of the Squadron we didn't see them. (Ahem.)

Their time was 10 minutes 30 seconds, 10:35, 10:36, 10:37, 10:38, and 10:40, in that order (they said). Could it be that these South African Irishmen were track stars in their hey-day in high school? Or do they have a few pogo-sticks hidden in the bushes that they motivate around the course on?

Mike "Mother Hubbard" Sullivan, that red-headed lover from Harlem, has been receiving a great of fan mail from his female admirers.

If this avalanche of mail continues to pour in we will deem it necessary to hire a few more mail clerks.

The Wing Ball is to be held Saturday, the 18th of this month. In all expectations a fine crowd of both women and Aviation Students will attend. There will be over fifty girls from Humble Oil Company. Another eighty girls from the Houston USO and fifty women from the Dallas USO. A Detachment of WACS from various Camps and Fields will also attend. Approximately One-Hundred and Ten Aviation Students have brought their own dates to add to the color and tradition of the Wing Ball. The Del Valley Orchestra has been booked to play this engagement here. This crew will play for the Aggie dance the night before, so they extended their time here to play for us. This Del Valley band has made numerous appearances here and from all reports have come nothing but kind words and praises for this swell outfit. Many observers think this band is as good, if not better than many top-notch bands of today. Fellows, the same night the Navy is giving a dance with Jack Teagarden and his orchestra. All you beavers better get together and get in on this dance. For never in the history of the Air Corps have they stepped down for anyone. Mr. Marengo and Mr. Glazer have done a specially fine job setting up decorations and making arrangements for the dance. All you fellows who have attended this type of dance certainly can testify to the fact that their is nothing like it.

About 150 men have already asked for reservations for their dates that are to be housed here on the campus.

This is expected to be the biggest dance to be seen around here for many a moon and it will take every individual and his date to put it over.

Almost everyone, during their stay here at the 308th College Training Detachment, does something to merit a nick-name or some tail to stick to the end of their regular name. Here is a list of the more outstanding ones; see if you know any of them.

"Slipstick" Steve, "Add a Gram" Fountain, "Frank Sternatra" Stern, "Bird Dog" McLeod, "Blood and Guts" West, "Sacktime" Lucas, "Jack Armstrong" Medaris, "Flash" Bennett, "D. I." Telbury, "Brown-berry" Winberry, "Ivan the Terrible" Coryell, "Brace" Whitney. (See WING NEWS, Page 4)

### Hedge Hopping Squadron IV

At ease, gentlemen, whilst we rave and rant about the goings-on of the past few days. We will endeavor to convey to you some of the news of tremendous insignificance which has been floating around our beloved Hart Hall.

Do you, when studies get you down, long for the wide open spaces, the thrill of stalking the wild beasts of prey, the exuberance of bringing in a fine trophy from the hunt? Then you will be interested in the Mouse, Rat and Cockroach Hunters Society of Upper "F" Ramp. Several of the members boast fine records in their respective fields. Mr. Snyder is rated the ace of G. I. shoe throwers, with two mice to his credit, while Mr. "Killer" MacBride has demonstrated his ability with the broom by bagging a huge rat which had terrorized the fourth floor for several days. Membership is open to any member of the Squadron who has proved his courage and ability on the field of battle.

We've heard that a certain member of this Squadron went to considerable expense to bring his wife here not long ago, and secured a position for her at one of the North Gate places. Now he is having even more trouble with the rest of the Detachment, in trying to protect his own interests. How about that, Mr. Burgner?

There seems to be no lack of cooperation between squadrons III and IV. For further details we refer you to their respective flight lieutenants.

As a final word, we would like you gentlemen to remember that, while our academic period is nearing an end, we still have several weeks to go, and there will be no let-up in discipline. Our appearance in this period will have a good deal to do with the time off which we might receive before going to SAACC.

That's all we have for this time, but we'll be back with more odds and ends next time.

highly pleased with his baseball-beavers winning the Detachment softball championship. The following men composed the winning combination of Squadron One: Beavers Morris, Zabolotsky, Herndon, Hinkle, Iffrig, Powers, Wilkens, Martin, Rosenfield, Moore, Branstatter, Vacc, Klingensmith, Kerkorian, and Levesion. Well, the cry of Spuadron I now is bring on the other Post teams.
