

Deans of the College Welcome New Students

The deans of the various schools of the college extend to the new students of this semester a hearty welcome. The following sketches of these school officials will be of assistance to the student in acquainting himself with these men who guide the destiny of the various branches of the college:

T. D. Brooks

Dr. Brooks, dean of the School of Arts and Sciences and of the Graduate School is a graduate of Baylor and received his Ph. D. and

If you have anything but a broken heart we can mend it!

M. A. degrees at the University of Chicago. He has served as principal and superintendent of schools at Hillsboro, as president of Southwestern State Normal College of Oklahoma, and as mayor of the city of Waco during his employment as professor in Baylor University.

Gibb Gilchrist

In his career, Dean Gilchrist has held many jobs of importance throughout the state of Texas. Graduating from the University of Texas in 1909, he was assistant engineer and head engineer of the Santa Fe Railroad, and has served as division engineer of the highway department at San Antonio. He was made state highway engineer in 1924. From 1925 until 1928 he was consulting engineer in Dallas, Texas. From 1928 until 1937 he returned to the highway department as state highway engineer. He also has served as an

officer in the Engineer Corps during the World War I. In 1937 he was made dean of engineering at Texas A. & M., and is devoting his efforts to placing more A. & M. engineers in modern industries and in positions vital to our war effort.

R. P. Marsteller

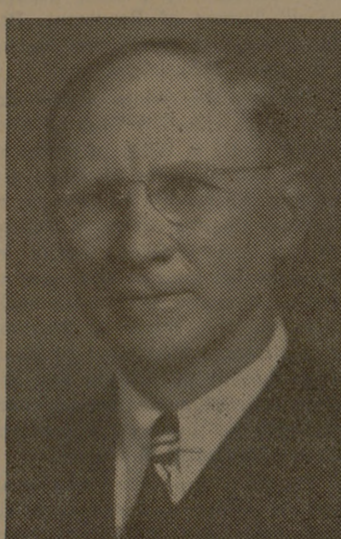

Dean Marsteller attended Ohio

Veterinary Dean

R. P. MARSTELLER

Agriculture Dean

E. J. KYLE

State University, receiving the degree of Doctor of Veterinary Medicine in 1905. He came to A. & M. in November of that year as instructor and assistant veterinarian for the Agricultural Experiment Station. He succeeded Dr. Mark Francis as dean of veterinary medicine.

E. J. Kyle

A graduate of A. & M. in 1899, Dean Kyle first became a member of the teaching staff in 1902. He was head of the Horticulture Department when he was made dean of agriculture when this school was created in 1911. He holds two degrees from Cornell University including a M. S. A. He is the author

of three books and numerous publications in the field of agriculture and world economics. He toured the Central and South American continent in 1941. He is an outstanding figure in the growth and development of agriculture in the South.
