Ag Cagers Face Longhorns In Third Game of Season

Tonight in Austin the Aggie basketball team meets the Longhorn cagers in the Cadets' third game of the season. The Longhorns will again present a formidable array of height against the comparatively short of Ags, but the boys have hopes of outspeeding the Steers and gaining a victory. So far the Ags have lost to the S. M. U. Mustangs and the Baylor Bears, the latter game being a very close contest. The Longhorns, having drubbed Baylor will enter the fray definite favorites.

Buddy Ekas, who turned in a stellar performance against the Bears, will be on tap, as will Nick Salibo, hustling ball-hawk, and Max Mohnke, who has performed well in both games so far. This week the Ags worked on all phases of the game, and coach Manning Smith hopes that his boys will be able to work close enough to the basket to offset the advantage the Longhorns have because of their superior height.

Aggie football hopes received another boost today as four of Sunset High School's stars announced intentions of entering A. & M. soon. The four Dallas boys are on the campus visiting today

and getting things lined up. They include Arthur Burch and Jack Halfpenny, backs, and John Roll-wage and Fred Goodwin, linemen. The Ag lineup should be well-studded with Sunset boys, Monte Moncrief returning also. Goble Bryant, Star Cadet tackle, expects to leave school in March for the Air Corps.

Getting back to the hardwood, here is the list of men who are slated to make the trip to Austin, as released by Coach Smith: Buddy Ekas, Max Mohnke, Steve King, Joe Atlas, Nick Salibo, Charlie Wright, Charlie Weinbaum, Reed Stewart, Don Deere, Marvin Eilenberg, and Neal Galloway. It was rumored that Charlie Wright twisted his ankle Friday and would not start. If so this would be a severe loss to the Ags, for Wright's height is badly needed.

The Longhorns have several high school stars from last year's teams and several V-12 boys who are quite tall. Speaking on the game, Coach Smith had this to say: "We are badly in need of tall men, and that is the largest factor against us. However, we will be out there hustling all the way, and any team we play will know they have met a real Aggie team."

Our Responsibility In Post-War Japan Stated In Lecture

Warning Against Over Optimism Stated By Pacific Relations

"We shall have to take direct responsibility for the type of political and social structure that is established in Japan after her defeat," declared Thomas A. Bisson, on the staff of the American consul of the Institute of Pacific Relations, in a lecture recently given at Ohio Wesleyan University.

He said also: "The privilege of ruling people not her own must certainly be taken from Japan."

And: "The principle of the punishment of German and Italian war criminals should also be applied to Japanese."

If we crush the military power of Japan and strip her of her stolen territory, she will rise again, just as Germany did, Bisson said.

"If we waive our responsibility and do nothing (more than this), we may be sure the militarists and their God-Emperor will be right back at the old stand doing business again in short order."

To achieve a complete breakdown of the old order, "it will not be necessary to use our power in a way to outrage the Japanese, and so create a festering desire for revenge. It will merely be necessary to use it in a way to give full expression to the actual desires of Japan's hungry and oppressed masses. They will give us the leaders that will be able to usher in the new democratic regime, if we know what we are about and welcome and work with this new leadership and eschew the old."

Bisson pointed out, however, that "the free growth of rational ideas among the Japanese people" will have no chance until we first "clip the wings of the Emperor and divorce him from the militarists."

AAA Advises Effort To Obtain Needed Protein Products

Stockmen should make every effort to obtain their requirements of protein concentrates through normal trade channels, B. F. Vance, Administrative Officer of the State Triple-A, advises.

Fifty per cent of the soybean meal produced in southern mills from midwestern soybeans is reserved by Commodity Credit Corporation for distribution to critical areas. The remaining 50 per cent is left in the hands of processors for distribution through regular trade channels. The War Food Administration has issued an order effective January 1, 1944, requiring the processors of cottonseed, soybean (except midwestern soybeans crushed in southern mills), peanut, and flaxseed to set aside 20 per cent of their January production of protein meals for distribution only to protein deficit areas through State and county Triple-A Committees.

The 50 per cent of the soybean meal left with the southern mills, 80 per cent of any other soybean meal, and 80 per cent of the cottonseed, peanut and linseed meal, plus all other types of protein concentrates, are therefore left in the hands of the industry for distribution through the established channels of trade.

"Although Texas will get its fair share of the protein meals made available for directed distribution by the War Food Administration under the set-aside order, it can readily be seen that the small amount available for such distribution will not be sufficient to take care of all the needs of all feeders," Vance said.

He warned against over-optimism regarding an early collapse of Japan. "The victory which begins to take on assured outlines in Europe is still far off in the East," he said.

It is even impossible for China, England and America to push a concerted drive against the Japanese from Chinese territory until "the Kuomintang and Communist forces in China cooperate and throw their full weight into the war against Japan."

Clipettes

We have heard of chow hounds before, and many of them with a brilliant reputation in their profession. We have unearthed a candidate for a new championship in our own 2nd Co. At least that seems to be indicated for it is understood by this writer that the boys are taking up a collection to buy a continuous flow through to accommodate the mighty gustatory effort of "Mac" McEnroe.

The group pictures of the 2nd Co. will be available for distribution by next Saturday. This includes all of the pictures except those taken of the waiters which will be ready sometime early next week. The impatiently awaited ASTP yearbook will be out before the end of this month. This is a promise from the editors, so be watching for it.

An Accolade For Dr. C. D. Leake

Last Wednesday night the members of the local chapter of the A. V. M. A. were privileged to hear Dr. Chauncey D. Leake, Dean of the University of Texas Medical School. The comments overheard concerning this talk by Dr. Leake left no doubt as to the impression he made upon his listeners. The discourse by Dr. Leake was interesting and convincingly rendered and was exceedingly timely for the senior class in veterinary medicine. After listening to Dr. Leake we can well understand the high regard held for graduates of the Texas Medical School.

Q. M. News

By Miles Pierce

Mr. and Mrs. now precedes the addresses on the envelopes of two more Q. M. boys, Lee O. Nisbet from Lometa, Texas, and Walter L. Scott from Graham, Texas. And from the looks on their faces, it's love all right. How do we know? Because everytime we say "shoot the dirt" at mealtime, they dreamily say, "Please keep it clean." Love certainly does more than one strange thing, no?

As before, in the Second Student Training Company, the Q. M. brought forth another leader in the person of B. B. Isbell to fill the shoes of the cadet first Sergeant. Isbell, a veteran first Sergeant from "B" Company of the A. & M. Aggie ROTC days, hails from Collierville, Tenn., but he is 100 per cent a soldier, aggie, and QM.

Most of the time for the fighting QM is now taken up with term themes and quizzes heralding the end of the semester. Come rain or shine, it's always the last minute for studying for these two items, so its red noses and cold wet feet for this week's sick book as the boys make an all-out round for the library every night. Says Billy "Ski" Sanders, Dublin, Texas, "That library has more good references. There's the "G String Murders" and "Studs Lonigan", etc."—Wonder if his major is rural sociology?

Speaking of cold weather, it brought out of the closets and from under the dust the thing that settled the rivalry between vets and QM for the time being. What was it? It was Artic Overshoes, a sign of taking basic training where they were issued to the QM—veterans of the battle of Wyoming and almost entitled to foreign war stripes—

Lt. Floyd Stiegler from Stephenville, an Aggie-Ex who recently graduated from QM OCS at Camp Lee, Va., paid us a visit this week before embarking upon an army career as an officer.

Noteworthy

Once again, dear reader, the adage, "Birds of a feather flock together," has been proven horribly true. The proboscis lads have, in their latest frolic, turned out to be the object of much discussion. And in answer to their plea we wish to notify you that their actions are entirely within the mode of the times. Prehistoric times.

If you iads "ain't" ever whistled before you had better practice contracting that old orbicularis oris now as one of those Brenham lasses is being turned loose in our big pasture. This event is due to take place with dancing Charlie (No-Doz) Bridges at the local shoe salvage tonight. However we have an authoritative statement from the Prof. of Brindle steers, Mr. Stranger, that this fair one might arrive astride one of those many critters with a six gun on each hip. He furthermore states that they are sure hard to bulldog.

We Can Use You

You too can write some article that will go down in history as the greatest piece of literature of its kind throughout the universe. Perhaps you are a prosopographer and do not realize it, but writing will bring it out. The other day one of the fellows had a full box of cigars but no matches so he took out a cigar and made the box a cigar lighter. Well, on the other hand friction always opposes motion while the velocity of A equals the velocity of B plus vectorially the velocity of A about B— doesn't it?

Then there is the one about the Platoon Sergeant who read the announcement that all fellows who have traveled in any foreign country, excluding Texas, report to the orderly room, and as he did an about face his eyes almost popped out when he beheld the Colonel only a few paces to his front. He withered as do autumn leaves while the Colonel merely smiled and walked on.

Are you going to sit in that chair of yours night after night simply idling your time away when you could be turning out stories for the paper? Any similarity between this group of letters and the English language is purely coincidental. If you all have the patience to read this you surely have the time to write for the paper. At the beginning of next term there will be a call for all prospective Editors so start planning now and we will really be able to put out a full page of A. S. T. U. news that will hold the interest of every reader of the Battalion.

AAA Advises Effort To Obtain Needed Protein Products

Stockmen should make every effort to obtain their requirements of protein concentrates through normal trade channels, B. F. Vance, Administrative Officer of the State Triple-A, advises.

He warned against over-optimism regarding an early collapse of Japan. "The victory which begins to take on assured outlines in Europe is still far off in the East," he said.

It is even impossible for China, England and America to push a concerted drive against the Japanese from Chinese territory until "the Kuomintang and Communist forces in China cooperate and throw their full weight into the war against Japan."

Ah! Rain!

They say that Hollywood is reckoning for having a pool in every back yard. What is that to get excited about? Here at A. & M. we have a pool every two feet and a good likelihood of having even more of them. This spurge of precipitation recalls the days of '37-'38 when it rained for thirty days and as many nights. That was the year the ducks set up housekeeping on Kyle Field and the seagulls chased blue marlin across the drill field. There was only one lad that enjoyed this dampening deluge. He was used to it thought, for he was from Los Angeles. We all cuss this kind of weather, but just think, when this wether lets up P. T. starts again. Every cloud has its silver lining.

BATTALION

(Continued from Page 1)

come out. There's Thursday afternoon to be reckoned with. Huddled around the big circular copy desk, the headline writers and proof readers slave over last-minute jobs, while the editors strain over make-up sheets.

Oh there's a wonderful atmosphere around the journalism building, what with teeth gnashing, telephones ringing, and insane columnists tearing their hair. The director of the journalism department is the sole calming factor. His comment on drastic situations, such as a complete mislaid story, is, "that's turrible!" Then everybody grins, and someone promptly finds the story.

Friday, publication day, is the star of the show. It's the way everybody looks, I guess. You know, printer's ink spotting up-turned noses and long-suffering elbows. Hands all black. Then there's the continual rush to meet the 5 p. m. deadline, accompanied weekly by a coke bet or two with the print shop force on the subject, "Will we make it?"

Do you know what? Those cokes taste good.

phases of the problem.

Sholem Aleichem, who has been chosen as the theme of discussion, is recognized as the greatest Jewish humorist of his time. His studies of Jewish types, character evaluations, humorous sketches, are accepted as literary classics with the writings of Dickens, Balzac and Mark Twain. Sholem Aleichem writes in Yiddish, but his work has been translated in all modern languages. Maurice Samuel, the English translator, is himself a writer of first magnitude.

The meeting will be held at the Lounge Room of Sbsia Hall on Sunday, January 16th at 7 p. m., and will be open to the Public.

room . . . and helping me up and down stairs. It took me time to get used to the boys, period. But I'm . . . no . . . we, every girl that has ever visited Aggie land, loves it.

Yep, the Aggies are fast. Fast in the sense of manners and courtesy . . . would that there were more of you . . . you who are noted and appreciated for being gentlemen, and sincere ones.

A. & M. might have changed in my four years acquaintance with it . . . but its spirit hasn't . . . and long live that spirit of Aggie-land.

Man . . . your Manners . . . are swell!

No Women Wanted! A recent poll at St. Mary's College revealed that the men do not want coeds attending the school. The poll came as an answer to the proposed change to make St. Mary's a co-educational college.

RING DANCE

(Continued from Page 1)

possible.

Tickets for this affair are being sold at \$1.50 per banquet plate and \$2.50 for the dance. Banquet tickets are now on sale and can be purchased anytime. Avery urges that all of the seniors who can buy now to do so as it is necessary for the committee to know approximately how many seniors and their dates to prepare for. Jimmy Souris will have charge of regular student tickets. He can be found in room C-6 of Walton Hall. Announcement as to other men who will sell tickets will be made later.

Dance tickets are in the process of being printed now, and they can be bought as soon as they can be distributed to the men who will be in charge of selling them. Price for these tickets has been set at \$2.50, good for one couple's entrance.

Further announcement as to progress that is made will appear in a future issue of the Battalion, but Avery urges that plans be made by each senior on the campus to attend this traditional senior ring banquet, ceremony, and dance, and act upon the suggestions made by the committees as to the immediate buying of tickets so that this affair will be a success in every way possible.

LASS-O

(Continued From Page 1)

office. Now that the Battalion is well on its way toward the presses, we are looking forward to the other entertainments planned for this weekend. So far it has started off with a bang.

SENIOR RINGS: The January order of senior rings has arrived and those students who expect a ring in this shipment may get it at the Registrar's Office.

H. L. Heaton, Registrar.

Commandants Office

OFFICE OF THE COMMANDANT
Circular No. 21:

- In compliance with the request of the committee in charge of the CORPS DANCE, approved by the organization concerned, DOMITORY NO. 17 will be vacated to provide accommodations for visiting girls attending the dance on that night.
- Cadets having guests will be assessed a charge of 50¢ per guest to cover cost of matron, maid service, and other incidental expenses.
- ORGANIZATION COMMANDERS are charged with the responsibility for seeing that rooms and corridors are left in a neat orderly condition for the reception of guests.
- Cadets concerned will vacate this dormitory by 1:00 p.m. SATURDAY, JANUARY 15. Guests will be admitted at 4:00 p.m. Cadets will be readmitted to the HALL at 11:30 a.m. SUNDAY, JANUARY 16, by which time guests must be out of the dormitory. Cadets having guests will be permitted to prepare the rooms for their guests, between 1:00 and 3:00 p.m. SATURDAY, JANUARY 15.
- Guests staying in the dormitory must be in the dormitory by 1:00 a.m. SATURDAY night. Guests must check in with the matron upon their return to the dormitory after the dance. When reservations have been made for the guests the will not be permitted to check out until departure for their homes. This will be done with the matron. Escorts will be held strictly accountable for compliance with these instructions.
- Reservations may be made by CADETS living in DORMITORY NO. 17 from 3:00 a.m. to 5:00 p.m. THURSDAY, JANUARY 13. Beginning at 8:00 a.m. FRIDAY, JANUARY 14, reservations will be open to other cadets.
- Cadets living in DORMITORY NO. 17 will find sleeping accommodations ONLY in dormitories 14, 15, and 16. By order of Colonel WELBY.
JOE O. DAVIS
Major, Infantry
Assistant Commandant.
