A. & M. Has State Food Conference

Latest Preservation Methods Will Be Reviewed at Meet

Texas' leaders in the field of home food preservation will gather on the Texas A. and M. College campus March 16 and 17 to brush up on the latest scientific methods of food conservation.

The state-wide food preservation conference will be sponsored by the Texas State Nutrition Council, according to Mildred Horton, state nutrition chairman and vice director of Texas A. & M.'s Extension Service.

Committee members expect an attendance of about 100, including representatives of vocational agriculture and homemaking education, the Farm Security Administration, Texas College and universities, the Extension Service, State Health Department, Office of Price Administration, utility companies.

PENNY'S SERENADE

By W. L. Penberthy

Surely one of the chief aims of sports is to teach us to be good playmates and I feel that Dr. Dudley B. Reed, of the University of Chicago and a personal friend of mine has summed it up in the following words:

"Do you chance ever to have thought of what is involved in being a good playmate? The subject is worth a passing thought. It goes without saying that good sportsmanship is involved. And what a host of splendid connotations are in that phrase 'good sportsmanship'. In fineness it yields only to such unforgettable and, fortunately, inescapable words as courage and loyalty and love. It smacks of courtesy and fair play and unselfishness. It means playing always to win, always at one's best, but always within the rules. It means knowing how to win modestly and lose generously.

Bryan-Brazos C of C Sets Up Program For Agriculture

Stress Greater Use Of County Resources In National Food Program

Dr. I. P. Trotter, chairman of the Bryan and Brazos County Chamber of Commerce Agricultural Committee today announced the completion of a program for 1944. The program was formed in an effort to continue to encourage the greatest possible amount of production of all farm commodities, particularly food, feed, and fiber.

The poultry project will be continued but the major emphasis will be shifted to turkey production.

The feed and pasture project is a combination of the former work on pasture improvement and feed production and preservation.

The dairy project will be continued by encouraging local business men to sponsor dairy projects in the county.

The homes and gardens committee will strengthen and expand their work in line with the national program for food production through victory gardens.

The farm labor committee con-

Templeton Will Discuss Wildlife

The Extension Service and the Texas Cooperative Wildlife Research Unit have announced that Mr. George S. Templeton, Director, United States Rabbit Experiment Station, Fish and Wildlife Service, Fontana, California, will be in College Station, Saturday, February 16 from 9 to 12 o'clock, and will lead a discussion of problems of interest to amateur or professional growers of rabbits.

Mr. Templeton is well known to many residents of College Station and Bryan, having been connected with the Agricultural and Mechanical College of Texas as head of the Department of Animal Husbandry 1920-1923. For some years now he has successfully led the work in research and practical production of rabbits for food in wartime, for the Fish and Wildlife Service. The station at Fontana, California is widely known for the breadth of its researches and practical experience in the production of rabbits.

Mr. Templeton is an expert on the production of rabbit fryers, rabbit breeding, rabbit pen construction in relation to sanitation and disease, care of rabbits during warm weather, self-feeding systems for market rabbits, the diseases of rabbits and on domestic rabbits in general in the Food for Freedom program. He is the author of a number of helpful bulletins and papers in this general field.

The proposed meeting will be for the purpose of assisting local growers of rabbits in more efficient production of this worthwhile animal for food during wartime. Invited are students and faculty members of A. and M. College, local growers and residents of Bryan and Brazos County, the Boy Scouts, members of 4-H Clubs, County Agricultural Agents and other Extension Service workers, and all who are in anyway interested in the production of domestic rabbits.

The Extension Service is arranging a state-wide itinerary for Mr. Templeton and meetings will be held in Fort Worth, Dallas, Tyler and Houston as well as College Station. The officers of the Texas State Rabbit Association, of which the President is Mr. G. H. Eaton of Tyler, Texas; Vice-President, W. L. Workman of Corpus Christi, Texas; Secretary-Treasurer, Alfred Zimmer of Dallas, Texas; are cooperating with Mr. R. E. Callender of the Extension Service in preparation for Mr. Templeton's Texas itinerary.

The following committee has been appointed to make arrangements for the meeting at College Station on Saturday: E. R. Alexander, Agricultural Education; R. E. Callender, Extension Service; C. C. Doak, Department of Biology; W. B. Davis, Department of Fish and Game; Dan Dudley, County Agricultural Agent of Brazos County; Lloyd Halbrooks, Department of Vocational Agriculture; D. H. Reid, Department of Poultry Husbandry; Paul Schoen, Texas Forest Service; Ide P. Trotter, Department of Agronomy; Walter P. Taylor, Texas Cooperative Wildlife Research Unit; R. P. Marsteller, Dean, School of Veterinary Medicine and Surgery; and John Quisenberry, Department of Genetics.

Time of meeting 9 to 12 a. m. Saturday, February 26; place, probably Room 309, Animal Industries Building.

AGGIES

(Continued from page 1)

properly listed and announced. It is realized that many localities cannot be identified other than by APO number, but even such identification will give notice to all Aggies in that vicinity. The Association office does not have the location of men overseas so it is imperative that men all over the World take the initiative.

At home Chairmen will be requested to serve in localities of the United States where no local clubs are organized. Where Clubs are functioning those organizations will make Muster arrangements. Most pressing immediate need is for over-seas men to take the bull by the horns, arrange a Muster wherever they are stationed, and advise the Texas Aggie.

Following last year's successful innovation, a common program outline will be sent each Muster Chairman. Thru that common program 10,000 A. & M. men on April 21 will join hands in spirit. Final details of the program will be announced later.

Conference Scoring Record Hit By Texas Pace-Setters

Aggies Close Behind in First Half, But Trained Long as Game Progressed

The Texas Longhorns staged a mighty rally Monday night to defeat the Texas Aggies 81-34 and tie the Southwest Conference scoring record. Roy Cox, a little five-foot five-inch guard for Texas, rolled up 30 points alone.

The Aggies got to a slow start in the first half, when Farrin of Texas sank a quick goal to put the Longhorns out in front. Bob Summers followed up Farrin's example to slip another one through the hoop to widen the margin. The Aggies, coming to, popped one in with "Wild Bill" Elliot doing the popping. From then on the Aggies began to tighten and when the half ended the score board read 32-22.

Fouls were numerous with 40 of them showing up in the game. The Aggies committed 22 of the fouls and Texas finished up with 18 fouls. Several times the referee stopped the game to untangle some players and give them free shots.

It was not until the second half began that the Longhorns opened up with what seemed to be the proverbial blitz. Shots upon shots entered the basket at the Aggie's expense with Cox on the tossing end. Farrin and Summers got their right amount of shots in the basket also.

An odd thing happened near the end of the game. In previous games the winning team freezes the ball to enable the opponent from securing it; but in this game the Aggies began freezing the ball to keep Texas from breaking the conference scoring record, and it was Texas who took gambles to gain the ball.

The reason that the Aggies failed to make as many shots was due to the lack of ability to hit the basket. Many times their plays put them in the right position for shots but they possessed not the shooting eye. Texas on the other hand had the shooting eye and nothing could have prevented them from rolling up the tremendous score.

Texas, incidentally, has a unique way of shooting free shots. The players take the ball in one hand and pop the ball in the basket.

Yelling and attendance of the Aggies at the game surpassed games of the past, and helped to prove to the Longhorns that the Aggie spirit they witnessed Thanksgiving Day is still here.

The Aggies will play host to the Arkansas Razorbacks Friday

Women Dentists To Play Large Part

Detroit, Mich.—(ACP)—Women dentists, as scarce now as women welders were before Pearl Harbor, will appear in the future in ever-increasing numbers, Professor Charles W. Creaser, chairman of the pre-medical and pre-dental committee at Wayne university, predicts.

Professor Creaser points out that of more than 1,400 dentists now practicing in Detroit, only 12 are women, and that throughout the country there are 35 men in the profession for every woman.

"The skill which women in war industries are displaying in the manipulation of small tools," said Professor Creaser, "gives ample evidence of their aptitude for at least one phase of dental work. Furthermore, we know that the few women who have entered the profession have proved exceptionally successful, particularly in the fields of children's dentistry and orthodontia."

Dr. Creaser also emphasized the existing need for Negro dentists, both male and female, and quoted Dr. M. Don Clawson, director of dental education at Meharry medical college, Fisk university, as saying that there are only 2,000 Negro dentists, very few of them women, serving the 12,000,000 Negroes in the United States.

New Texas Folklore Comes Off the Press

Plenty of the Texan's favorite type of humor—"whoopers" or "windies"—are sprinkled through a new publication of the Texas Folk-Lore society.

"Backwoods to Border," as the collection is titled, was edited by Dr. Mody C. Boatright, University of Texas professor of English, and Donald Day, editor of the University Press at Southern Methodist university.

Articles in the book include "A Buffalo Hunter and His Song," by J. Frank Dobie; "The Arkansas Traveler," by Catherine M. Vineyard; "Well Done, Liar," by Dr. C. F. Arrowood, University of Texas professor; and "Anecdotes About Lawyers," by Lloyd E. Price.

and Saturday nights, and an attendance as large as the Texas game will help very much.

OFFICIAL NOTICES

Classified

Army Officer's wife desires one or two women companions for a couple to accompany her to Fannhandle. Would consider going by Amrillo. Leaving either Sunday or Monday. No expense other than your own. Call Mrs. J. W. Thompson at 2-5950.

LOST—Fox Terrier male, white with few tan spots. Responds to name Penny. Phone 4-4639.

Announcements

The President's Office has a book entitled "Education for Citizen Responsibilities" from the Princeton University Press. Will the Department ordering this book please call for it.

The Placement Office has a call for 10 to 15 men to plant trees on Saturday afternoon, Feb. 26. We also need a police radio operator for night duty. Those interested please call at Placement Office.

The College Women's Social Club will meet Friday afternoon at 3 o'clock in the Y.M.C.A. chapel. Miss Hazel Adams will give a book review.

SCOUT PAPER COLLECTION—The Boy Scouts Troop 411 will collect paper Friday, February 25, from 4 to 6. Please tie paper in bundles and place in front of house. Call 4-6294.

The picture for Agronomy 415 which will be held in the lecture room of the Animal Industry Building for 7:20 Thursday, February 24th, will be "Meat and Romance."

The President's Office is holding the following unclaimed packages:

- 1 jar of Amberol Cement from the Fellowcrafters.
- 1 bottle each Brown, Green, Red Krystal Kont. 1 bottle Imperato Sessler, from the General Cement Mfg. Co.
- 1 package of Gen Clips from the Wilson Stationery Co.
- 3 wire trays from the Treher Firmin Co. of Marshall, Texas.

CANDIDATES FOR DEGREES: Any student who normally expects to complete all the requirements for a degree by the end of the current semester should call by the Registrar's Office NOW and make formal application for a degree. 2 Wks

CREDIT FOR PHYSICAL FITNESS PROGRAM—All students are required to register for Physical Education 302 unless excused by proper authority. General elective credit will be given for the Physical Fitness Program (P. E. 300-301-302) earned during the spring semester 1942-43, and summer, fall and spring semesters of 1943-44.—H. L. Heaton, Registrar.

the test should be made known immediately to the Student Personnel Office in order that the necessary supplies may be ordered.

Both Army and Navy candidates take the same examination, it was stated. The test is designed to test the aptitude and general knowledge required for the program of college training and all qualified students are urged to take it. At the time of the test each candidate will be given choice of service preference, but taking the test does not obligate the candidate to enlist in the service.

BUY UNITED STATES WAR BONDS AND STAMPS

New Russia Seen By History Prof.

Los Angeles—(ACP)—"A new united Russia, based on national interests, different from either Tzarist or Soviet Russia, is emerging," declares Dr. Robert J. Kerner, Sather professor of history on the Berkeley campus of the University of California.

The second World War has decisively confirmed the trend of the Soviet Union away from an internationally directed communist ideology of world revolution to that of a great power acting in line with national interest," he maintained. "Like other great powers, based on national interest, Russia is seeking to have friendly, though not necessarily communist, states on her frontiers.

To avoid isolation in which her security would be menaced, the Soviet Union stands for a hard and fast alliance with the United States, the British Commonwealth of Nations; and China, as a nucleus around which an effective postwar international organization should be built."

Seems as if people who do wrong usually find the right way to do it, while those who want to do right too often go at it the wrong way.

rural people and high school students for their efforts during the past year, speakers in the memorial broadcast will urge all Texans to put forth their best efforts in behalf of still larger agricultural production in 1944.

Preparatory schools are as active as colleges in giving for student relief. Reports from 53 schools indicate that they have given \$22,000 to the WSSF and National War Fund.

Top honors in per capita giving go to Yale Divinity School, which not only gave at the rate of \$5.82 per student but who also exceeded their \$1500 goal by \$31.45.

The World Student Service issues certificates to educational institutions whose giving has been especially meritorious.
