AVMA Pres. Visits A. & M.

Highlight of the week was the visit of Dr. Charles W. Bower, Kansas State College '18, president of the American Veterinary Medical Association.

AUTUMN SUNSET

The bright sun shone, Its scarlet gleam Lighted the world In a golden sheen.

The autumn leaves With many tints, Of colder days Gave proving hints.

In hollow trees And rotting stumps, Lay treasurers rare Of summer hunts;

Made by squirrels In shaded ways; Filling larders For winter days.

The mirror surface Of a woodland pond, Broken by the bending Of a green fern frond.

The pheasant's cry, A clear sharp call: As he struts his colors For coming fall.

All these splendors And many more, Remind us that Autumn Has done her chore.

Accent of the school is placed on neatness and discipline. Boys are asked to do little tasks around the camp to more or less prepare them for LIFE.

Our motto: We Build Men. Write for descriptive folder. Our Draft Board representative will call.

The Slipstick should be available this afternoon from Joe B. There will be some extra copies which will be distributed to those who want them after the regular buyers are given their copies.

No More Gigs

Congratulations to the fairly new cadet officers of the company. (I won't get any gigs now for a week for saying this.)

WHY?

Why did a Naval Officer pass through the hallway in the dorm where the Ship's store is located and say "Stay along the bulkhead or you will block the gangway?"

Intramurals

By R. L. Weatherly

Last Wednesday and Thursday afternoons W. L. Penberthy called a meeting of all Company Captains and Company athletic officers to discuss intramurals for the coming semester.

On Wednesday afternoon Major Davis was on hand to make a talk at the meeting. He said, "A man can think better when he is in a good physical condition."

The different sports that the members chose to play this semester are tennis, track, swimming, horseshoes, volleyball, and softball. All sports, with the exception of softball, will be played between four and five in the afternoons.

It was voted that there would be only one class of sport. In other words the freshmen and upperclassmen will compete with each other. In the past it had been the rule for upperclassmen to compete with only upperclassmen.

Competition in horseshoes will begin next week it was learned from Penberthy who, incidentally, will supervise the intramural sports this semester.

Handball was discussed at the meeting also, but because there is no enthusiasm among the students it was decided not to be a regular sport. But there will be a tournament sometime during this semester for this particular sport.

Dr. Schuichi Kusaka, a Japanese who has joined the Smith college faculty as a physics instructor, was recommended for the post by a Chinese member of the department, Miss Chien Shiung Wu.

ZINO

In today's cast Hoffman will be sung by Raoul Jobin; Olymnia, Guilletta, and Antonia by Patricia Munsel, Lily Djanal, and Jarmila Novotna. Ezio Pinza will sing the role of Coppelius, and Mack Harrell, the young baritone from Greenville, Texas, will be heard as Lindorf, in the Epilogue.

In that apartment I had many beautiful old chairs which had been in my family for generations. They were lovely but very fragile. One of our dearest friends had the unfortunate faculty of breaking one whenever he came to call.

Well, no matter how it came about it was the most humorous incident that has occurred here in a long while.

WHY, or why does it almost invariably rain over the short lived week-ends??

(Continued from page 1) with Lindorf, one of her admirers, first leaving a rose at Hoffman's feet.

The most famous piece from the opera is the "Barcarolle" in Act II. But the "Tales of Hoffman" is tuneful throughout. Among the melodies that should be mentioned are the "Doll Song," and Antonia's "Romanza," as well as the student choruses.

In today's cast Hoffman will be sung by Raoul Jobin; Olymnia, Guilletta, and Antonia by Patricia Munsel, Lily Djanal, and Jarmila Novotna. Ezio Pinza will sing the role of Coppelius, and Mack Harrell, the young baritone from Greenville, Texas, will be heard as Lindorf, in the Epilogue.

(By Associated Collegiate Press) "Few people realize that health actually varies according to the amount of laughter. So does recovery. People who laugh actually live longer than those who do not laugh. Possibly the supreme physician of this day is Mickey

Mouse." Dr. James J. Walsh of Fordham university offers an easy recipe for health.

"It would be as disastrous to permit Germany and Japan to go on teaching race hatred and world domination as it would be to permit them to go on building submarines and bombers. We must deny to them the right to some kind of international educational machinery is going to be necessary." Prof. Alonzo F. Myers of New York university sees a postwar threat in Axis education technique.

The 2nd Co. dance is only a week away now so let's get our heads together and make this the biggest and best. The dance committee is working overtime to make it the best. Get that girl or wife on the line and bring her here for March 4th. There are a few invitations left so drop around to 217 and get one from Krakoff. Rooms for non-USO dates can possibly be arranged through him.
