

One Hundred Fifty Three Gridsters Report to Norton

One hundred and fifty-three boys reported to Coach Homer Norton Monday afternoon at five o'clock for the first gathering of the grid-iron hopefuls of A. & M. for the year.

Only five men from last year's squad are expected to return. Bob Butchofsky and Monte Moncrief are almost certain starters for next fall and also back are Bob Gary, Eldon Long, and Charles Shira.

Norton said that "this bunch looks bigger, better, and faster than the bunch that reported at this time last year." For two weeks the boys will report for practice in tennis shoes and shorts for no contact workouts and after about two weeks football shoes will be issued and the first three teams will begin to take shape under Coach Norton's guidance. Until regular workouts start there will be no excuses from P.E. or any late tables for footballers.

ELECTIONS

(Continued from page 1)

junior who has completed at least three semesters and at the time of his candidacy be in his fourth or fifth continuous semester as a student in the college; (2) he must be a man who will graduate with his class; (3) he must have passed at least three fifths of his normal semesters work, in the semester, immediately preceding his candidacy; (4) he must be a junior with a grade point ratio of 1.5; and (5) he must be a man who has made a satisfactory discipline record.

Candidates for sophomore officers must have the following qualifications: (1) The candidate must be a sophomore who has completed at least one semester and at the time of his candidacy, be in his second or third continuous semester; (2) he must have passed at least three fifths of his normal semester's work, in the semester, immediately preceding his candi-

dacy; (3) he must be a sophomore with a grade point ratio of 1.5; and (4) he must be a man who has made a satisfactory discipline record.

The two committees in joint session agreed that these qualifications would apply to yell leaders as well as to class officers and that these positions would be filled by election during the summer semester for the senior, junior and sophomore classes while the Freshman class would elect officers at the beginning of the fall semester. Officers elected for each of the classes will be a president, a vice-president and a secretary treasurer. The senior class will elect a social secretary who will serve in that capacity for the entire corps. The class historian for each of the classes will be appointed by the class president along with other members of his cabinet.

Petitions

Nomination of officers and yell leaders is to be made by petition, it was announced, with these petitions being filed with the Student Activities office by eleven o'clock Saturday, June 17. Each petition must carry at least 50 signatures of endorsement. Elections will be held Wednesday.

Plans for Student Activities were discussed briefly at the meeting and the committee stated that as soon as class officers were elected, definite plans for a summer program could be worked out.

Youths Recruited Summer Harvest

As harvesting in Texas grows in volume, reports from 90 counties show that a total of 3,030 non-farm town and city youths had been recruited and placed on farms through June 2. According to C. Hohn, state farm labor supervisor for the A. and M. College Extension Service, 506 of these had been placed in Brown County and 201 in Mitchell. Meanwhile, a total of 5,022 workers had been sent to farmers over the state on the same date.

A survey of the combine situation shows it to be well in hand in counties where cutting of small grains is in progress. North and northwest counties are saturated, but there is need for more in the general region of McCulloch and Kerr counties and effort is being made to fill the need. About June 20, however, the peak in grain harvesting will be in sight, and more than 800 additional combines and 2,000 operators and other farm hands will be needed. Efforts to recruit this emergency labor over the state already are being made.

Hohn announced that a plan recently was worked out with the Eighth Service Command for the orderly use and efficient utilization of war prisoners which will permit allocating them on an acre-

age basis and in critical areas according to crop variations.

Due to unfavorable weather cotton chopping presents a spotty picture, especially in the area from Dallas County to the Navasota bottoms, Hohn said. Unless the weather improves, the outlook is for less production than last year.

Looking ahead, Hohn said that late planting likely will delay cotton picking one month north of a line through Caldwell and Fayette counties. Late maturity will result in almost simultaneous opening of cotton over the vast area, and as a consequence upset the normal progress of picking with attendant labor complications. Migratory labor, especially the Latin American type, prefers to work in the Plains area where cotton is snapped, Hohn said.

Weather Reports To Farmers Soon Issued Daily by U. S. Bureau

Texas farmers soon will have available complete daily reports on the weather as it affects agricultural operations in their immediate areas. This service will be the outgrowth of a cooperative program between the A. and M. College Extension Service and the United States Weather Bureau, according to E. C. Martin, acting vice director and state agent.

The reports will cover the 21 areas of Texas served by sub-stations of the Weather Bureau. County agricultural agents in each area will furnish the representative of the Weather Bureau a weekly report on the agricultural operations in progress, and in turn the Bureau will prepare a fore-

Hillel Club Begins Summer Activity Sunday

Summer activities of the Hillel Club will begin with an informal social meeting in Sbisal Lounge next Sunday, June 18, at 7 p. m., according to Herschel Lipmann, the club president.

New members will be welcomed and they are urged to come. This club's membership is open not only to Aggies, but to Jewish soldiers, sailors, and Marines stationed here.

cast of the weather for the succeeding 48 hours.
