

# Intramural Games Begin Monday, July 3

## Athletic Officers Must Turn Entry Cards In To Mr. Penberthy By Wed.

After detailed planning and preparation, the intramural program will get under way next Monday. It was originally planned to start the games this Wednesday afternoon, but lack of entry cards turned in and the announce-

ment of the holiday Saturday necessitated the postponement.

First sports on the schedule for the summer will be softball and tennis. The ball games will begin at 4:15 and will be played on the drill fields west of Law Hall. The tennis matches will also begin at 4:15 and will be played on the courts behind Anchor Hall. A schedule of each organization's games will be sent out as soon as they are drawn up. They will be sent to the Dorm C.Q. who will give them to each top kick. Failure of some of the athletic officers to turn in their entry cards has caused a slight delay in the scheduling of games. Those men who have not turned their entry cards in are urged to do so at once.

From all indications of practice games, the softball championship will definitely be taken by upperclassmen in the new area. The leading teams in the contest will be J. William's Co. A and Spider Westbrook's Co. D. These two companies have been practicing every chance they have and are really running smoothly. They have already played one game and are planning on playing another one Wednesday night. There is a small grudge between these two teams and the competition is running high. If you want to see who is going to win the softball championship this summer keep your eye on these two companies, especially the D Company "Spiders."

Tennis matches will also bring forth some interesting competition. A major portion of the league winners in tennis of last semester are still on the campus. The tennis teams are being organized now and are practicing for their first matches which will be next week.

In general, there will be more competition for honors between outfits this summer than there has been in several semesters. Intramural games are going to be the main events in this competition. The athletic record of a company, battery, or troop is always a reflection of the spirit and attitude of the men's desire to make their outfit the best. Don't let your organization down. Support it in every way you can.

### —FRESHMAN—

(Continued from page 1) some excellent examples of hypnotic powers, namely the performances of Joseph Dunninger in February and Dr. Polgar in March. Aggies will remember the show put on at this school by Dunninger last spring.

There are no set rules for subjects being able to respond to a hypnotists' efforts, but it is generally conceded that he must want to be hypnotized. Usually the second time is easier than the first as the subject can be expected to react in a certain way. However, perfect quiet and correct lighting are necessary at all times, especially when mass hypnotism is being tried. Mass hypnotism is quite difficult, but Fish Crawford has

tried it several times without much success at any time, although he continues to be quite successful when he works on individuals.

A favorite way of putting his subjects under is to tell them to imagine that they are going around in circles in a boat on a quiet lake. This works rather well, and he can then make them do simple things such as writing their names.

In his spare time Fish Crawford is out for the position of tackle on the Aggie football team. He was also on the football team at Mississippi State, but as there was no conference last year in Mississippi, they played only the local ASTP unit.

of admission is for couple or stag.

Tentative arrangements have been made for the use of one of the vacant dormitories for the guests of the Aggies. It has been customary in the past for a dormitory to be made available for the visiting girls because of the limited housing facilities in College Station and Bryan. At the present

time Harry Boyer indicated that the price for a night in the dormitory would probably run between 75 cents and one dollar because of the necessity of opening up an unused dormitory.

### —KYLE—

(Continued from page 1)

Indian Arts and Crafts Board, U. S. Department of the Interior; R. A. Lambert, the Rockefeller Foundation; Iring A. Leonard, University of Michigan; Carl O. Sauer, University of California, and T. Lynn Smith, University of Louisiana.

The Joint Committee is supported by grants from the Rockefeller Foundation, and the next meeting will be held during the coming autumn.

Dean Kyle has accepted the appointment, subject to action of college authorities. He also is a member of the Advisory Committee on Inter-American Cooperation in Agricultural Education, Department of State, and the United States Commission of Inter-American Development, Coordinator of Inter-American Affairs.

## Seven Juvenile Cases And Two Burglaries Arrested By Police

Two burglaries and seven juvenile delinquency cases have been apprehended by the City of College Station police department with indictments returned and the cases held over to the District Judge in Bryan, according to an announcement made this week by city officials. Lee Norwood, city marshal of the City of College Station made the arrests.

Trial on these cases will be held in July as sentence will be passed on July 22. One of the cases involved the theft of clothing and \$25.00 in money from the gym at the Consolidated School.

There are now enough laws to cover a lot of things on which people used to swear off.

## LOUPOT'S

Where You Always Get a Fair Trade

As advertised in Life and Esquire.

## GANTNER WIKIES

There's dash to these new Gantner swim trunks. Built and styled for men of action. All wool Lastex and the Zelan-treated Boxer models. The fabric dries rapidly. See these new swim trunks, you'll like the built-in support too.
