

# The Lowdown On Campus Distractions

By Alfred Jefferson

Sunday's offering at Guion Hall will be "Destination Tokyo," with Cary Grant and John Garfield. This is the story of a submarine which was ordered to take a weather expert to the coast of Japan in order that he could take readings necessary to the bombers of Gen. Doolittle's force. Though this story has no foundation in fact, it is treated as true, and seems very logical. The only girls you will see here are in flashbacks into the private lives of Garfield and Grant. However, you won't notice this lack at all.

**The Lowdown:** This is just about the best picture Cary Grant has ever made, and most of his are good. See it.

Monday and Tuesday, "Broadway Rhythm" with a big cast of celebrities will be shown at Guion. Tommy Dorsey and his orchestra will furnish most of the music for this eye-ful. Ginny Simms and George Murphy hold up the big leads, with Gloria DeHaven putting her end over beautifully. There are a great many good specialties and the songs are good. The only objection to this is the technicolor pictures of Ginny Simms. They are not taken right, or she has too much makeup, or something. They just don't look human.

**The Lowdown:** It looks like a big week at Guion. Imagine having two good ones in a row! Anybody who likes music will eat this up.

Saturday's double feature at the Campus will be a fair way to spend a dull (?) Saturday with your date. The main feature is "A Girl, A Guy, and A Gob," with Lucille Ball and George Murphy. Obviously, Lucille is the girl, and Murphy the Gob. The story concerns his pursuit of her in competition with the guy. After a few hilarious moments, you-know-who gets the girl.

On the same bill is "Henry Aldrich Plays Cupid," with Jimmy Lydon doing just that. The object of his plot to help out the arrow-happy kid is to get Vera Vague, of all people, a man. How he does

it in the best Aldrich manner will be worth seeing.

**The Lowdown:** A pretty good thing.

Showing Sunday at the Campus will be "They Got Me Covered," with Bob Hope and Dorothy Lamour. This is a typical Hope silly symphony concerning a spy ring, and it is one you will thoroughly enjoy. Dorothy Lamour plays her part very well, and looks like a million dollars.

**The Lowdown:** This you will see once and see again. Not many of you will ever get enough of Hope, but this will last by you a while. It's one of his best comedies.

## EQUITATION

(Continued from page 1)

the exact basic equitation course as the men who are stationed at the cavalry training depot at Fort Riley, Kan. The men have started to take cross country riding, and are being given close order cavalry drill.

A horse show is being planned by Lt. Bearns to be presented before the end of the present semester. A jumping exhibition will be given by seniors who have already had the basic cavalry course that was given before branch training was discontinued on the campus.

The men now taking the basic course will be given some jumping instruction before the semester ends. Since the start of the course, no men have dropped from the rolls.

Lt. Bearns said, "The support of the men is greatly appreciated and the interest in the course has been great. I believe that the men have progressed more rapidly than expected even though ninety per cent of the men have never ridden before. They are more advanced than the recruits that are trained at Ft. Riley for three weeks even though the Aggies get only two hours of training a week, and the men at Riley get twenty four."

Another basic course will be given next semester.

## CADENCE

(Continued from page 1)

the list of committees and committee chairmen are: Quality of the College Product, C. W. Crawford of the M. E. Department; Growth of the College, T. R. Spence; The Physical Plant, Ide P. Trotter, head of the Agronomy Department; Students, C. C. Doak, head of the Biology Department; Curriculum, E. R. Alexander, head of Agricultural Education; Teachers and Teachers' Methods, C. H. Winkler; Research, L. P. Gabbard, Chief of Farm and Ranch Economics at the Agricultural Experiment Station; and Public Relations, J. Wheeler Barger, head of the Department of Agricultural Economics.

President Gibb Gilchrist left these committees in operation when he assumed the presidency in May of 1944 and has since urged that they use all possible speed in completing the recommendations for post war planning.

## BACKWASH

(Continued from Page 2)

me solid down the beam. Now I'll tell you the end of this story of mine so until next issue you won't have to pine.

The gal I never met because they told me I was all wet. While the couples are tripping gayly I'll be reading my Arkansas daily wishing I were there because this loneliness I can't bear.

## Nine O'clock Serenade

Sounds in the night echo across the "Mason-Dixon Line" and then the tramp of running feet pound out of the dormitories. Tuesday

night a few of the Fish were aroused a bit by someone singing the song of the forty acres. Cadet officers as soon as they became aware of the situation had the Fish back in the dormitories studying in a fraction of time. The entire incident was over in less than three minutes.

This indication of discipline is an excellent commendation of the cadet officers and the cadet system.

## Welcome Lovely Lady

To all of you girls who are guests of the Aggies this weekend for the First regimental Ball and the all-service dance an Aggie welcome of hospitality is extended. We are glad to have you. We love you ladies.

And ladies if you aren't satisfied with the date you have just drop a smile at some lonely Aggie and chances are that he will do everything in his power to make your stay a happy one.

## Late Dating Lassie

Larry Rogers, senior taking veterinary medicine, is still interested in talking to fellows who know Mitzi. She met several guys here last semester after the Junior Prom and no one seems to be able to estimate just how many. Larry is interested in knowing.

## Glad to hear

That letters are coming in every day from exes saying that they are glad to hear that the Spirit is alive and thriving. Those fellows don't forget Aggieland when they leave. They are interested in A. & M. and want to see it grow and
