These are the Generals, with an

Demopulos

### Matchmaking Eternally

introduction by Walter Millis.

### Social Sciences

Race Riot, by Alfred McClung Lee.

The World Coffee Economy with special reference to Control Schemes by V. D. Wickizer.

Tax Yields: 1941.

Tax Yields: 1940.

Problems of Modern Europe; The Facts At a Glance, by J. H. Jackson and Kerry Lee.

Behavior and Neurosis, by Jules H. Masserman.

Physiological Psychology, by Clifford T. Morgan.

Contemporary Psychopathology; a source book, edited by Silvan S. Tomkins.

Military Psychology, by Norman C. Meier.

Love against Hate, by Karl Menninger.

## Cotton Picking Crews Distributed

Cotton picking in the south and cotton cultivation in other areas of the state, along with harvesting of vegetables and other late crops in scattered sections occupied the foreground of the Texas labor picture at the beginning of August. Workers were in demand in some regions.

According to reports to C. Hohn, Extension Service farm labor supervisor, picking was active in the Lower Rio Grande Valley with the peak in Hidalgo County expected about August 10. Latest reports showed that ginning had reached more than 6,000 bales in Willacy county and upwards of 1,000 bales in Starr. Some pickers were reported leaving the area on account of low acre yields. Picking in the Corpus Christi area became general the first of the month.

Since July 10, the migratory field assistants stationed at Riviera and Falfurrias have contacted 108 crews comprising 1,618 pickers. The majority of these were placed in Nueces, San Patricio, Jim Wells, Kleberg and Karnes counties. Meanwhile, peanut harvesting is progressing in Atascosa and Frio counties.

In cotton growing areas less advanced, hoeing was progressing in the High Plains region with some sections almost completed. Recent rains increased the demand for hoe hands in Stonewall and Wheeler counties, and this type of labor also is in demand in Midland, Hudspeth and Ward counties. Bailey County needs help for hoeing cotton and beans, and for harvesting potatoes.

Williamson County, in the Blackland region, needs hands for feed harvest, while Dallas County is short of help for dairying, haying, and general farm work. Across the state, seed bed preparation is

under way in the Panhandle with a demand for tractor operators in several counties. Hudspeth County needs help for plowing and haying, and there was a call for a few cowboys from ranchmen in adjacent counties. Reports from other west Texas areas show that combining of early maize had begun in Fisher county and harvesting of grain sorghums in Runnels county was under way.

During the last week of July, a total of 5, 436 town and city youths had been placed on farms through the Extension labor service, including 300 in Hidalgo county and 200 each in Nueces, Karnes and Colorado.

## LOUPOT'S

Where You Always Get a Fair Trade

## REGULATION UNIFORMS

We have a splendid stock of Regulation Shirts . . . Slacks . . . Shoes . . . Socks . . . Caps and Neckwear. You'll like the fine quality of our Nationally known brands. Stop in and see us today.
