

# 100 Gridders On Hand For First Drill

and some special work with the linemen.

Because of the workouts which were held for the first two months of the summer, the squad was in good shape Monday afternoon. In fact, the boys were so spirited in the initial drill that Coach Norton closed the session with a short ten minute scrimmage, running the boys who were here this summer against some newcomers.

Afternoon drills will be held at 5 o'clock each day until the days start getting shorter. Those boys who are not in school will work-out each morning at 10 o'clock. These morning drills will give the new men a chance to catch up with those men who were here this summer.

Coach Norton has five weeks in which to iron out all of the mistakes and get his team ready for the first game, against Bryan Army Air Field, September 23.

About 20 new gridders arrived at College Monday and participated in the drill. Most of this group were freshmen, but some old faces were seen among them. Among this group just arrived was Damon "Greek" Tassos, regular guard on

## A Company and B Battery Play For Intramural Softball Championship

With the softball competition completed, A Company and B Battery have emerged as champions of their leagues. A Company completed its schedule with a perfect record while B Battery ended with

one defeat on their record. The playoff for the Corps Championship between the two teams will be held tomorrow afternoon at six o'clock.

"Pop" Kidd's B Battery Freshmen have proved to be another dark horse in the intramural system. They got under way in a slow and unsure way but took the lead and kept it without much competition. Their last game was with A Battery which ended with a score of 8 to 3. The only team to defeat the champions was G Company by a score of 20 to 9. B Battery tallied up a total of 66 runs as compared to a total of 37 made by their opponents. Their final game of the season will be tomorrow night when they meet the A Company Indians for the Corps Championship.

Not satisfied with merely winning the football crown in their league, B Battery, under the coaching of Tommy Walker, has won the softball crown. They have played all their games and won them all.

The League A champion has not yet been determined and it is any team's chance to win it. At the present C Battery is in the lead with four victories and one defeat against her. The playoff between B Battery and the League A champions will probably be held before the end of the month.

Two familiar faces were absent from the initial practice. They were Monte Moncrief, giant tackle who will play in the College All Star game in Chicago August 30, and "Uncle Billy" James, line coach. Both James and Moncrief will be in the fold by September 1.

With Moncrief in Chicago, Tassos and Butch Butchofsky, blocking back, were the only two returning regulars in uniform Monday. It is around these men Coach Norton will build his 1944 edition of the "Kiddie Korps."

building is under construction near San Francisco to serve war theaters in the Pacific area.

The New York project will serve as a funnel through which will pass all mail originating in America for men in the following stations: Newfoundland, Northwest Canada, Greenland, Iceland, the

Caribbean, the South Atlantic, the European Theater, North Africa, the Middle East, the China-Burma-India Theater, and the Persian Gulf.

For 50 years the New York City Post Office Department has operated an underground system of service to speed the daily delivery of 5,000,000 pieces of mail.

## Army Builds P. O. For Overseas Mail

In New York City the Army is getting ready for the Christmas mail rush by building the nation's largest one-story post office.

The Engineer's Corps has telescoped a year's construction job into little more than three months to have the building ready by September 1, just two weeks before the start of the Christmas mailing season to overseas troops.

The site is in Long Island City, just across the East River from Manhattan's midtown skyscraper belt, on the land formerly occupied by the Madison Square Garden bowl. The project will cost \$3,500,000.

The flood of mail through New York during this particular period will total nearly 90,000,000 parcels to troops on 11 fronts, on the computation of Col. R. E. Eggleston, postal officer of the New York Port of Embarkation. That's more than went to the same areas in 1943.

The new building's 528,000 square feet of floor space will be staffed during the Christmas mailing season by 10,000 postal employees, and 2,500 enlisted men. Even after this mailing period ends, 4,000 men will be on duty. Military mail, which was taxing available facilities last year, has been doubled in 1944.

A similar, although smaller,
