

# A S T P Quintet Routs Aggie Cagers In Wild Game 52-33

## Aggies Start Out Fast, Then Drop Behind Fast Moving Soldier Five

### White Leads As Aggies Grab Early Lead; Lewis Twins Provide Army Scoring Punch

The A.S.T.P. unit stationed here at College Station defeated the Texas Aggies last night by a score of 52-33. The game started off even enough but before the evening was over the A.S.T.P. turned the game into a rout. The first half was all White for the Aggies. The tall center scored 12 of the 15 points that were scored by the Aggies during the first half. During this time the A.S.T.P. had racked up 23 points with the Lewis twins supplying most of the fireworks. With the Aggies still in the ball game, the A.S.T.P. turned on the heat and pulled away. The A.S.T.P. showed the Aggies some of the best ball handling they have seen all season.

At the half the soldiers retired with a 23 to 15 lead but after the intermission the Aggies rallied and came up to within six points of them shortly after the half. The score at this time was 27 to 21. It was at this time though that the army quintet began to break away from the faltering Aggies and before long had run up a 38 to 24 advantage. Meanwhile, Coach Manning Smith of the Maroon and White had been substituting freely and his charges didn't seem to be able to work together, causing several bad passes and careless mistakes.

The Lewis twins really got hot the second half and they pretty well controlled the ball game, getting the majority of the rebounds and shooting at will. Especially noticeable was their smooth ball-handling. The two boys, who have probably been playing together all their life, handled the ball flawlessly, and got many set-up shots.

Meanwhile, the Aggies, using a fast-breaking offense all evening, scored only in occasional spurts, missing numerous shots, and making several bad passes at times.

### DISCIPLINARY

Continued from Page 1

presentation of testimony, consideration of the case shall be only by Committee members and the Dean of the College. After any Committee has concluded its work and made its report in writing, no member of said Committee shall have any further connection with the case, either on rehearing or appeal. Proceedings of Committee hearings shall be strictly confidential. The Dean of the College is authorized to arrange for representatives of the Senior Class to be present during the presentation of the case.

5. As presiding officer of the Committee the Dean of the College shall have the power to approve the verdict or to remand the case for retrial. Any verdict requiring a student to leave the College for any length of time shall be put into effect immediately upon approval by the Dean of the College.

6. The Panel shall include approximately forty members chosen from the teaching division of the College with the rank of Associate Professor or above. At the beginning of each academic year the Executive Committee shall send to the President of the College a list of fifty or more to be considered for Panel service from which the President will designate the Panel for the session.

7. From the list of nominations submitted by the Executive Committee the President of the College shall appoint a number of Advisors not to exceed ten in number and not including any member of the Panel, such men to be available to assist any student in presenting his case before the Committee. A student charged before the Committee with any offense should consult with the Dean of his School regarding his case. At

## Aggie Swimmers Are Working Out

Now entering the intensive pre-competition phase of training, Coach Art Adamson's tankmen are showing promise, though nothing spectacular as yet. Since the beginning of the present semester, workouts have been held from 5 to 7 o'clock each evening, with special emphasis being placed on form and conditioning rather than speed.

Several Frogs have been a welcome addition to the team. The most promising of these is Thomas, who will probably be one of the mainstays in the 50 yard sprint event.

When questioned as to who will swim the various events, Coach Adamson replied, "I'm still undecided, but after this week's time trials, I'll be in a position to tell you who will swim what." Using comparative times as a guide, however, the events seem to shape up as follows:

50 yd. freestyle: Fleming, Syfan, and Thomas.

100 yd. freestyle: Self, Fleming and Syfan.

200 freestyle: Self, Escobar and Heeman.

440 freestyle: Escobar, Riley and Heeman.

100 yd. backstroke: Sawyer, Baugh, and Riley.

100 yd. breaststroke: Lea, Armstrong and Gaines.

100 yd. individual medley: Self.

Diving: Southwest Conference champion Alvaro Facio, Matthews, and Webster.

So far, only three meets have been scheduled: two dual meets with Texas, and the Conference meet, to be held in Austin April 14 and 15. Arrangements are being made for a meet with SMU, and the Oklahoma City "Y" team, lead by Aggie-ex Danny Green, '46, may meet the Aggies some time in late March. The whole team seems very enthusiastic, and is planning to go last year's humiliating one better, and hand Texas its first defeat in Conference history.

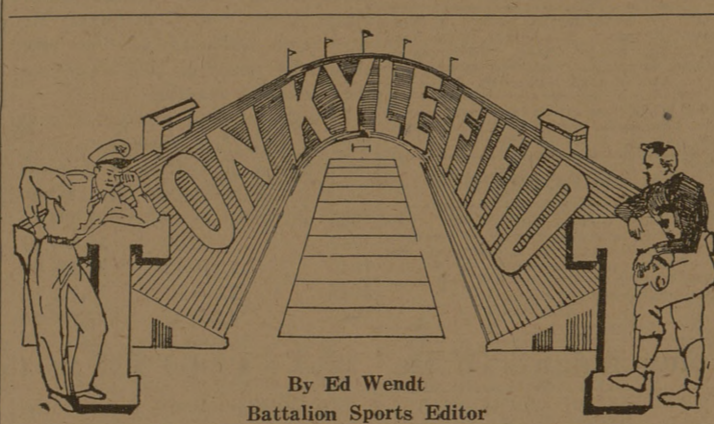

his option the Dean or any Adviser may appear before the Committee to see that the student's case is properly presented.

8. Charges by specification in writing shall be initiated in the Commandant's Office and shall be referred first to the Director of Student Affairs who will decide, except in cases of second offense, whether the charges shall be referred to the Panel. If so, copies of the charges shall be furnished to the Dean of the College, to the student involved, and to the Dean of the student's school. The Commandant or his authorized assistant shall present the case in person to the Committee. Included in the specifications to the Committee shall be the student's discipline and scholastic records. Care shall be taken that all possible evidence is available and all preparations are made before any case is actually heard.

9. Upon written request from the student concerned setting forth new evidence in the case the Dean of the College may, if he considers the evidence sufficient, convene a new committee which shall give further consideration to the case after reading the evidence submitted at the prior hearing, including the action taken.

10. Appeal of any verdict may be made to the Academic Council. The Dean of the College shall select by lot five members of the Academic Council, not members of the Panel, who shall constitute an Appeal Committee for any particular case or group of cases. The Dean of the College shall preside without vote. The Appeal Committee shall have the power to recommend approval of the verdict or any modification thereof except that no modification shall be made

# Aggies Bow To Longhorn Cagers In Lop-Sided Game At Austin

By Ed Wendt  
Battalion Sports Editor

Having played their last home game last night, the Aggie cagers will invade Fayetteville this weekend to pound the hardwood in their last conference tilt. Suffering defeat this past week-end from the Texas Longhorns, 'ole Army is out to make a good showing in their clash with the Hogs. Even though the Maroon and White have been the underdogs in almost every game this season, they never once showed a lack of that "fighting Aggie Spirit"; consequently, the pace of the Razorback quint may fail to equal expectations. Incidentally, the rooting section for the Aggies in Austin Saturday night was supported by some twenty-five or thirty exes in the V-12 Training Program there.

### NEW BASKETBALL RECORDS

The Rice Owls brought down the curtain on a record-breaking season by swamping the Baylor five 68-26 in a wild scoring spree at Waco Saturday night. Had Rice lost, the defeat would not have affected her standing in the conference as the Owls clinched the championship by defeating SMU in a battle the previous week-end. Bill Henry's new conference individual scoring record ended on the 280 mark which is 34 points better than his record of 246 last season. The new conference all season record urged 119 points above the 684 mark set by Arkansas last year, as the Owls closed with a grand total of 803 points. Rice, suffering no conference losses, hung the new game scoring record at the 95 point in a mighty triumph over the Baylor Bears several weeks ago. Still a fourth conference record was unleashed when the combined score in the Aggie-Longhorn tilt here two weeks ago rang the 144 point mark. This total stands 3 points above the previous conference record of 141.

Speaking of the Baylor Bears, it might be worthy to mention that the Bears have announced their gridiron schedule for this fall. The Bears are boasting a strong line

which they hope will drive them to victory in their ten booked games for next season. They are scheduled to face the Aggies on Kyle Field Oct. 27.

### ARKANSAS TO REPRESENT

March 23-24 are the dates set for the play-off of the Western NCAA championship. Rice Institute, winner of the Southwest Conference basketball crown, will be unable to participate because travel restrictions regarding naval trainees would wreck their team. The Arkansas Razorbacks, Conference runner-uppers who have an all-civilian team, are the most logical nominees to represent this section in the contest. At the same time that the contest for the Western crown is being fought at Kansas City, a similar battle will take place in Madison Square Garden in New York City to determine who shall boast the Eastern NCAA championship. A week hence, the winners of the two clashes are scheduled to meet in Madison Square Garden to decide who shall carry the 1945 National Basketball Crown.

### CONFERENCE BASEBALL

Conference baseball practice is due to open officially for all entries March 1. The Rice Owls boast five returning lettermen which should give them an air-tight infield, as four of them lettered at infield positions. It is a bit early to begin sizing up conference teams; however, every manager seems to be faced with a common difficulty—a pressing need for more men with previous conference experience.

### CONFERENCE BASKETBALL STANDINGS

	Won	Lost	Percentage
Rice	12	0	1.0000
Arkansas	7	3	.7000
SMU	7	5	.583
TCU	6	5	.555
Texas	5	7	.416
Texas A&M	2	8	.200
Baylor	0	11	0.0000

## Houston Aggies To Meet Wednesday Nite

Tommy Penn, acting president of the Houston A&M Club, announces that the first Houston Club meeting of this semester, will be held immediately after mess, Wednesday, February twenty first, in room 109, Academic Building for the purpose of electing new club officers and to announce that the club picture will be made for the Longhorn.

Both old and new students from Houston are especially requested to be present because Houston has always had a large representation of Aggies on the campus in the past and it is hoped that it will remain that way in the future. The only requirement for club entrance is that you be a resident of Houston, so all Houston Aggies are urged not to miss this important meeting, said Tommy Penn.

for a more severe sentence than that imposed. No appeal from the verdict of the Committee shall be heard by the Appeal Committee within less than seven days after the Committee has acted. The student separated from the College will be permitted to return for the appeal hearing.

11. Findings of any Committee, together with the report of the Appeal Committee, if any, shall be forwarded to the President for final action.

The Dean of the College shall prepare for the approval of the President such regulations within the scope of this policy as may be necessary for carrying out its intent.

Gibb Gilchrist.

Young trees, like young boys and girls, need plenty of food and water for proper growth. Burned over woods are dry and sterile.

## Norton Declares Aggies Will Take Backwater To None

Under an overall sports program after the war Texas A. & M. College will not take backwater from anyone, Coach Homer Norton told the February meeting of the Brazos County A. & M. Club Monday night at the Bryan Country Club. Under the Norton plan all agencies will cooperate to induce promising baseball, basketball, track and other material to come to the College. Along with these sports efforts of the past mainly directed toward bettering the football team will be intensified, Norton added.

E. E. McQuillen explained provisions of a proposed constitutional amendment known as House Joint Resolution No. 36, which would divide funds heretofore reserved for the A. & M. College and the University of Texas among all the state schools. The club went on record as opposed to this amendment.

The local club elected Chas. W. Crawford general chairman of the annual muster to be held April 21, with other committee members to be selected by him.

Texas Aggies are encountered not only on every fighting front but in every service, Lt. Col. D. S. Buchanan declared in telling of the muster held last April 21 on Guadalupe which was attended by 56 former students of the College. The oldest and the youngest of the group hailed from Brazos county. Wherever they are, Aggies are "selling" their school and their state to any audience they can get to listen, he added.

In the past some good spasmodic individual work in interesting football prospects in Texas A. & M. College has been done, but these efforts have not been carried in the field of other sports because there was no money to do it with, Coach Norton pointed out. About the time the Kyle Field stadium was cleared of debt and such a plan could be launched the war came on.

Coach Norton gave details of the formation of a master committee composed of some 15 to 20 former students who had served on the athletic council. This committee is headed by Tyree Bell of Dallas, great football star of three decades ago. It will be the duty of this committee to act as intermediary between the athletic council and the coaching staff on one hand and all the clubs of former students in contacting prospective athletic material. After giving details on its operation, Coach Norton declared, "We'll get our share of the good boys if the plan has the concentrated support of every local club and former student."

## M. E. Prof. Leaves For Puerto Rico

W. I. Truettner, A. & M. professor of mechanical engineering, left Saturday to report to the College of Agriculture and Mechanical Arts of the University of Puerto Rico where for the next nine months he will be on leave as visiting professor of mechanical engineering and curricula consultant.

Holder of baccalaureate and master degrees from the University of Michigan, Professor Truettner has been connected with the Mechanical Engineering Department of Texas A. & M. College since the fall of 1930.

The saplings of today are the timber trees of tomorrow. Fire kills saplings and injures lumber. If we are to have timber for future needs, our young trees today are valuable and are worth protecting.

## Graner and Wooten Set Pace for Steers; Ags Confused by Defense; Many Bad Plays

Saturday night in Austin the Texas Aggies were snowed under by the Texas Longhorns to a tune of 70-35. This was the second win of the Longhorns over the Aggies this season. T. u. climbed into a 7-0 lead before he Aggies could scratch. While the Texas first team was in the ball game they continued at this furious rate. Little Don Wooten was especially outstanding as he sank several long shots from almost the center of the court. Playing a pressing type of defense, Texas stole the ball numerous times from the Aggies before they could get it down the court. This confused the Aggies a great deal because they could not get the ball into scoring position. The Texas first team, playing flawless ball, was relieved by the second team which did not score while they were in the ball game. This fact brought the first

team back in and they found that they had cooled off considerably. Weinbaum did most of the scoring from out on the court for the Aggies. The rest was done at the foul line with Ellis leading there with five free throws. Oddly enough, two of these were made after the game was over. Ellis was fouled in the last seconds and before he could take his shots the gun went off ending the game. The court was immediately filled by spectators and under these trying conditions Ellis made his final two shots. Although the Steers had cooled off, the half ended with the score 33-15 in their favor. During the half there were yells given by both sides. The Aggie yells were led by a couple of Aggies in the Naval V-12 unit stationed at Texas. The game was well attended with the huge Gregory gym almost filled. There were quite a few Aggies there, some of them seniors showing their new boots for the first time at tealand. After the half the Steers came roaring back with Graner showing the way. Numerous times this boy, a letterman last year at S.M.U., went through the entire Aggie team to a lay up shot under the basket. His brilliant playing earned him the honor of high point man of the game with 22 points. Just as Texas doubled the Aggies in points during the game, Graner doubled the Aggie high point man, Weinbaum. While Graner was chalking up his 22 points for Texas, Weinbaum was dropping in 11 to lead the Aggie scorers. The second team of Texas alternated with the first most of the second half. The first team was never as hot, however, as they were the first five minutes of the game. Because of their pressing and ganging up on one man, Texas had a grand total of 20 personal fouls called against them. The Aggies made 15 of these for an excellent percentage. This game closed out the season for Texas while the Aggies have two games left to play, both with Arkansas at Fayetteville next Friday and Saturday nights.

## Tutors For Math Courses Secured

Announcement has been made through the Office of Student Personnel which is under the direction of George B. Wilcox, that there is now available on the campus a tutor for those subjects which deal directly with mathematics. A tutor may be hired to give help in Algebra, Trig., Analytics, Calculus and Mechanical Engineering 101 and 102. There is also an instructor for drafting and engineering drawing.

It is suggested by the Student Personnel office that help be obtained in any courses with which a student shows weakness. This may mean that more of the fundamentals will be learned so that the advanced courses may be entered into more easily. Any student desiring to obtain a tutor should contact the Student Personnel Office on the first floor of the Academic Building.

## New Electric Welder Given to Mechanical Engineering Shop

The Harnischfeger Corporation of Milwaukee, Wisconsin, has donated a 200 ampere Rotating Type P. & H. Electric Welder to the Mechanical Engineering Department for use in their welding class-rooms.

The Harnischfeger Corporation is one of the largest manufacturers of welding equipment, and in addition they manufacture draglines, cranes, overhead cranes, etc.

In presenting this machine they called attention to the new developments in welding and the important role played by welding in the war production. Ships, planes, guns, torpedoes, bombs and the like could not have been produced in sufficient quantities to meet the war needs had welding not played such an important part.
