Man, Your Manners
By I. Sherwood

Restaurant Manners: Women always precede men as they enter the dining room and that precedence remains until they arrive at the table whether or not there is aheadwaiter in attendance.

Men dining alone prefer tables along the wall or near windows.

When a man is dining with a date the waiter usually pulls out the most desirable chair for the girl. It is usually the one that has the best view of the room—women always have their choice.

A MEMBER of THE CLASS OF 1845
PERSONALS
Spickness and spanness were de rigueur in the colleges of the 1840s. This portrait depicts a member of the Class of 1845 attired for the Junior Prom. Observe the height of his stock and the costly ruffles on his shirt.
In that same year, 1845, the Mexican War was imminent. Railway Express service was 6 years old. The colleges were few. Now, a century later, America is fighting a global war, the colleges are counted by thousands, and our service is nation-wide.
Today, the colleges are training students for the armed services; and the rail and air facilities of Railway Express are being largely utilized for the speeding of war-goods shipments. So, to help all concerned, please do three simple things with your 1945 home packages and baggage: Pack them securely—address clearly and adequately—avoid abbreviating state names.
