

# War Taps To Be Played For Aggie World Dead at

## Approximately Four Hundred-Fifty Exes Have Made Supreme Sacrifice

In Memory of those Aggies who have given their lives for their country in the present global war, Silver Taps will be observed Saturday night. According to records kept by the Former Students Association approximately 450 former students have made the supreme sacrifice thus far. These records are incomplete though as word has not yet been received of the death of many others.

At a recent meeting of the Senior Class it was decided that Silver Taps would be an appropriate means of remembering the former students who had given their lives for their country.

Greatest suffered in casualties thus far has been the class of '41 which has lost 64 former members. Next is the class of '42 with 57 followed by the class of '40 with 54 lost forever.

Listed below are those who have been reported killed in World War II along with the place where they were mortally wounded. It must be remembered that this list does not include every former student casualty but just those who have been reported to the office of the Former Students' Association.
