

Man, Your Manners

By I. Sherwood

The Senior dance is traditional but to you who are graduating next week the Corps Ball on Friday Night will have to be your final ball. You will want it to be one to remember, so make it the outstanding social affair of your College career.

Send a corsage, by all means, for you'll find that all the others will be sending flowers. A girl who doesn't receive flowers is pretty apt to feel neglected; the married senior will not forget flowers for his wife either.

We not only sell polish and brushes but we GIVE information to you on how best to shine your own shoes.

Holick's Boot Shop

Cars and taxis are the only means of transportation at College Station but on a nice night almost any girl will not mind walking to the dance if the distance is short. Formal clothes and evening slippers are expensive items of a girl's wardrobe so you will be careful not to ask her to walk more than a few blocks.

A girl will appreciate it if you telephone her two or three days before the dance to make final arrangements as to the time you expect to meet her at the train or bus or to inform her of any details that you have planned for her, such as a dinner before the dance or where she is to stay.

The young man who knows his dance etiquette is pretty apt to be popular with the girls.

Scout Drive Nets 7000 Pounds Paper

Dr. Luther G. Jones, directing waste paper collections for College Station Cub and Boy Scouts, reports 7,000 pounds were gathered in the drive last Saturday. This paper was sold to Sam Scardino of Bryan, who shipped it to pro-

STUDENT EMPLOYMENT

All students who wish part time employment during the fall term (September 24 to February 2, 1946) are urged to file an application renewal with the Placement office immediately. Also, those students who have not filed applications but desire employment, should file with us an application at this time. The Placement Office is located in Goodwin Hall.

cessors in Michigan and Illinois for use in relieving the nation's acute shortage.

Troop 102, with Dr. H. E. Hampton and A. C. Magee, picked up 2,800 pounds; Troop 411, with Dr. Jones, got 2,990, and the Cubs, under P. J. A. Zeller, collected 1,210 pounds.

Proceeds from the sale of the paper went to the three groups. During the past year, Dr. Jones said, scout funds have benefitted appreciably from this source. The money has been used for summer camps and for other scouting activities.

Even though the shooting war is over, OPA has requested that these paper collections continue. Next College Station collection day, Dr. Jones said, will be October 6 from 8:00 a.m. to 11:00 a.m.

Burgess Expected Home This Week

Captain H. E. Burgess, prominent College Station business man and ex-Aggie, is expected home this week following his separation from the Army Air Forces after more than three years of service, the last half of which was spent overseas. Captain Burgess was scheduled to arrive in Houston some time today where he will be met by his wife who will accompany him to San Antonio for the final action on his release.

Burgess, an outstanding Aggie athlete, has been prominently identified with the development of College Station and has been active in the affairs of the Former Student Association.

Holland Heads New Chemurgy Center

The Texas Engineering Experiment Station today announced the establishment of a Chemurgic Research Center to conduct basic investigations in Texas raw materials and agricultural products.

Dr. Bryant R. Holland has been named research chemist and chief of the research center. He comes to this position after serving with the Texas Agricultural Experiment Station where he did outstanding work in the processing and chemistry of cottonseed meal.

Among Dr. Holland's new duties will be assisting the Chemical Engineering Department in graduate work in lines of his special training, cooperating with the Texas Cotton Research Committee, and aiding all agencies of the Texas A&M College dealing with industrial uses of the raw materials of

Texas.

The Texas Engineering Experiment Station, an agency of the Texas A&M College, views the establishment of the Chemurgic Research Center, with Dr. Holland in charge, as a significant forward step in its program of being of maximum assistance to the industries and agriculture of Texas.

Graduating from North Texas State Teachers College, where he majored in chemistry and biology, Dr. Holland holds advanced degrees from Texas A&M and the University of Minnesota. He has made significant contributions to the literature in his special field.
