play. Preston Smith and Bob Goode lived up to expectations, while Bob Butchofsky's all-around play and Tom Daniel's passing rounded out the first string backfield in an entirely satisfactory manner. Also worth mentioning were the show-

ings made by letterman Stubby Matthews and freshman Harold Zeitman, two backs who should do much to strengthen Norton's confidence. Monte Moncrief, Leonard Dickey, Hub Ellis, and Norton Higgins stood out in the line play. No injuries were suffered, and the Cadets will be in top shape for the

Raiders. This Saturday night's game will be the sixth in the Aggie-Raider series, the Aggies having emerged victors in each of the five previous encounters, rolling up 113 points to 20 for the Raiders. In 1943 when the "Whiz Kids" were the sensation of the Conference

—AGGIES—

(Continued From Page 2)
game was in the third quarter, and netted the Bombers 7 yards. Wilburne, playing a fine game of football at half for the Bombers, faked a kick on his own 13-yard stripe, and carried the ball to the 20 before Goode and Gray nailed him.

With fumbles again the chief ailment of the team, the Aggies have lots of smoothing and rounding off to do. The Cadets fumbled for a total of 10 times, and had 9 of those recovered by Ellington. If this can be corrected, the Maroon and White can be counted on for a flashy brand of ball that literally explodes from the T formation. With Daniels at the quarter slot to mix up the opposition, and Smith, Goode, Butchofsky, Zeitman, and Matthews in the backfield, and with Higgins, Ellis, Moncrief, and Dickey in the line, count on Texas A. & M. to give them all more than a run for their money.

the Ags took a 13-0 decision from Tech, and in 1944 the Cadets came from behind in the last half to win 27-14. This Saturday's game will be strictly a "T" game, since both the Aggies and the Raiders are using the T formation exclusively.

Intramural Sports Important Factor in Student Life at A&M

By H. A. Pate

The Intramural Sports Program is one of the main features of life at Aggieland, as it does more to develop spirit and pride in an organization than anything else. In the summer semester which has just ended, more students, both freshmen and upperclassmen, participated in the intramural program than in any other student activity, and its popularity didn't cease long after some companies were hopelessly defeated in the race for the laurels of college sports championship.

W. L. Penberthy, director of intramural athletics, has announced that this year's sport schedule will include swimming, track, football, basketball, volley ball, and tennis. He also says that all indications point to the fact that we will have a highly successful program this year, due to the fact of the large number of participants and their fine abilities.

ruler of intramural athletics was Third Company Infantry, with teams holding the championship

of the college in football, baseball, basketball, volley ball, and tennis. Of course, like every other activity, the program needs support and interest to keep it going, and one of the major sources of material for teams and the backing required for success is the incoming class of freshmen. Therefore, it's up to the new class of '49 whether or not this year's intramural program is the best Aggieland has ever seen.

They Won This Summer

Pictured above is the Third Company tennis team which walked away with intramural championship honors during the 1945 Summer semester. Third Company amassed a total of 460 points by virtue of wins in softball, volleyball, tennis, touch football, and basketball, and will be the holder of the intramural pennant during the new semester.

conference in four can't allow them to have too much.

-0-
And now that is over, let me say that anything can happen and probably will. It seems that just as soon as someone tries to pick a winner, the whole thing blows up in his face. Wish me luck—I'll need it.

RESEARCH AND ENGINEERING KEEP GENERAL ELECTRIC YEARS AHEAD

TANK WRECKER

THE trail of tank wreckage from Normandy to Berlin is evidence of a super shell's effectiveness. It was one of the potent weapons necessary to drive the enemy back to Berlin.

The shell's core is cemented tungsten carbide, improved by G-E research and manufactured by the Carboly Company, G-E affiliate. It's a material second to diamonds in hardness—commonly used for the tips of cutting tools and wear-resistant dies. Projectiles using this core weigh less than

ordinary shells because of their lightweight aluminum housings, and so have higher velocity. They often stopped German Tigers with a single shot—at ranges up to 3000 yards.

The core does the actual armor piercing. Because of the extreme hardness of the carbide, it doesn't flatten out on impact. Instead, it goes right on through the armor plate and then breaks up into lethal pieces inside the tank. *General Electric Company, Schenectady, N. Y.*

LOUPOT
an aggie tradition

TRADE WITH LOU--HE'S RIGHT WITH YOU

FRESHMEN!

Meet Loupot. Lou has been around Texas A. & M. for a long time, and you can count on him for a friendly word and for a fair trade.

You will always see Lou at the Aggie ball games—and if you are in trouble of any kind, remember that the Trading Post is something more than a good place to buy your school supplies.

SAVE 33 1/3 TO 50%

Fair trades and high prices have made Loupot the biggest used-book dealer in College Station.

We also have a limited supply of

DRAWING BOARDS and INSTRUMENTS

VETERINARY SUPPLIES

SLIDE RULES and OTHER SCHOOL SUPPLIES

FOLLOW THE OLD STUDENTS TO LOUPOT'S

A WORD OF WARNING

The textbooks for several courses have been changed this semester—be careful what you buy. Here at Loupot's, if you know the course you are taking, we know the book—and you have seven days to return any book you don't want, and get your money back.

If you are in doubt ask your upperclassman; he is your friend.
