

Official Notices

OFFICE OF THE DEAN OF MEN
MEMORANDUM NO. 23:

LAUNDRY NOTICE

In filling out your laundry list put your last name first. Please be sure that all your clothes are listed correctly and that your laundry list is with your clothes. Tear off the bottom stub and keep it. The stub is your receipt for your laundry.

The following is the schedule for all students living in South Dormitory Area (1 to 12 inclusive).

All whose last name begins with:
A, B, C, D turn in laundry Friday.
E, F, G, H, I, turn in laundry Monday.
J, K, L, M, Mc, N, turn in laundry Tuesday.

O, P, Q, R, S, turn in laundry Wednesday.
T, U, V, W, X, Y, Z, turn in laundry Thursday.

All laundry must be in before 8 o'clock A.M. on the designated day. Call for laundry about 3 days after it is turned in. There will be a charge of 15¢ for late or out of place bundles. The laundry station for this area is located in last house on south end of row across the street from Dormitory No. 8.

Students living in the Project House Area will turn in their laundry before 9 A.M. at the station in shed building back of Project House No. 10. Laundry for this group may be obtained Friday.

Hart, Mitchell, Leggett, Milner, Bizzell turn in laundry at Foster Hall according to the following schedule:

All whose last name begins with A through L turn in laundry Friday before 9 A.M.

All whose last name begins with M through Z turn in laundry Monday before 9 A.M.

This station will be open for a few hours each day. See schedule on door of Foster Hall.

Students living in Dormitories 14, 15, 16, 17, and Walton Hall, turn in their laundry at P. G. Hall according to the following:

A through L turn in laundry Saturday before 9 A.M. M through Z turn in laundry Monday before 9 A.M.

This station will be open Monday through Friday from 1 to 5 P.M. Saturday from 8 A.M. to 12 A.M.

Day students may bring their clothes to the main Laundry Tuesday morning.

Each student is allowed a 23 piece bundle each week. This bundle may include 4 shirts, 2 pants, 1 pair coveralls, 4 sheets. All extra pieces will be charged according to the following:

- Shirts 10¢
 - Pants 15¢
 - Polos 05¢
 - Coveralls 15¢
 - Small pieces 02¢
 - Sheets 05¢
- All claims for lost or damaged articles must be made within 24 hours and you

must bring your laundry list before any adjustment can be made.
J. W. ROLLINS,
Dean of Men.

Monday, February 11 is the last day for adding new subjects and dropping subjects without a grade this semester. Subjects dropped after Monday, February 11 will carry a grade of "F".
F. C. BOLTON, Dean.

CLASSIFIED

We Pay tops for used cars. Brazos Motor Co. H. L. Whitley. S. College Road, Phone 2-7009.

FOR SALE: 32 Acres, approximately one mile frontage on Houston Highway, 3 1/2 miles from College. Small house, lights, two tanks, some trees. Ideal for Country home. Nine Head Registered Hereford Cattle included. Day Phone 2-7180. After 6 p. m., 4-8399.

HELP WANTED—Expert beauty operator. Full time or part time work. Salary and commission. Telephone 4-1174, College Hills Beauty Salon.

FOR SALE—Men's wearing apparel in good condition; gabardine Top Coat, Underwear, Tuxedo with accessories, Boots and Shoes, Leather Jacket. Call 4-8744.

FOR SALE OR TRADE—1941 Buick Sedanette. Edwin Nichols, 1205 W. 26th, Bryan.

FOR SALE—Furniture—Call 4-6644 after 5:30 or 4-7084 from 8-5.

FOR SALE—Radio—See Loupot, phone 8520F3

LOST—Key ring, probably dropped on Military Walk. Call R. R. Lancaster, 4-6284.

Man, Your Manners

By I. Sherwood

Q.: "Would it be improper to take fruits and other foods into the airplane to eat during the trip?"

Ans. It would not be improper but it would not be necessary. Airline etiquette states that airlines serve their passengers food without any cost; however, you do not have a wide selection of foods due to the restricted cargo space in the plane.

Complimentary stewardess service aboard all ships of American

airlines includes meals, newspapers and magazines, cigarettes, writing materials, stamps, and blanks for wires. The stewardess does not serve liquor and you are requested not to drink before boarding the plane.

No member of the ship's crew, including the stewardess, should be offered a tip even though the service she renders is more helpful than that of the pullman porter. She, however, is a well-educated well-paid young lady, and in no respect in the servitor's class.

Ordinary rules of courtesy and politeness prevail on a plane but gum chewing and yawning are encouraged. They tend to relieve the pressure in the ears due to variations in atmospheric pressure.

DIRECTORS

Registrar H. L. Heaton. Decision to cite members of the Board of Directors was made after a hearing Saturday before Judge Charles O. Betts.

Date for the next hearing has not yet been set.

FRED C. ELLIOTT JOINS EXTENSION SERVICE

Assignment of Fred C. Elliott, effective February 11, as cotton work specialist on the headquarters staff of the A. and M. College Extension Service was announced today by Director Ide P. Trotter. He comes to his new post from three and one half years as Gonzales County agricultural agent, and succeeds L. E. Ellwood who resigned on November 20 last to become business manager of the Texas Planting Cottonseed Association with headquarters at Bryan.

Who says Texas shouldn't brag; Gen. Eisenhower, heads the Army. Admiral Nimitz, the Navy. Both native Texans.

Items of Interest in the Fields of Chemistry, Engineering, Physics, and Biology

Good News for Unsuspecting T. B. Victims

HERE is news that marks another step ahead in the fight against t. b.—news about free tests and new x-ray equipment.

As a means of locating possibly one and a half million undetected cases of tuberculosis, the U. S. Public Health Service plans to offer chest x-ray tests to nearly every American during the next five years. This survey is made possible through the use of new equipment which produces chest x-rays on small film, thus permitting mass examinations at reduced cost.

The development of the new film and the special fluoroscopic screen was not accomplished overnight. Organic chemists, physical chemists, physicists, and other technically trained men were required to make exhaustive studies before the problem was solved. Special sensitizers had to be found. Phosphors and activators had to be formulated for the screen. Both screen and film had to be of ultra-fine grain, and the spectral emission of the screen had to be adjusted to the spectral sensitivity of the film.

Men of Du Pont are proud of their part in the development of this new aid to medical science. The fact that their efforts helped to contribute a new benefit to society is a heart-warming inspiration.

Chemical Pest Control for more and better food

"Eating"—somebody has remarked—"is a habit." It certainly is! Men, women and children all have a firm, fixed habit of eating . . . so enough food must be grown for them to eat.

Du Pont chemists, plant pathologists, entomologists and engineers have helped the farmer to increase the nation's food supply through their never-ending search for better ways of protecting crops. The development of new fungicides is a typical example.

Du Pont men were faced with the problem of finding chemicals to be used in treating fungus diseases of plants,

Miniature X-Ray Pictures May Uncover 1,500,000 Hidden Cases

under conditions in which the use of copper and sulfur proved harmful. After long and intensive research they found the answer in the salts and organic derivatives of dithiocarbamic acid—such as the iron and zinc salts of dimethyldithiocarbamic acid, and tetramethylthiuramdisulfide.

Agriculturists now know Du Pont's iron salt of dimethyldithiocarbamic acid as "Fermate," and the zinc salt of the same acid as "Zerlate." These fungicides are products of Du Pont research—research that is helping the farmer to bigger crops of better quality.

Now—Faster Dry Cleaning

Two Du Pont products—"Perclene" perchlorethylene and "Tricleene" trichlorethylene—have made dry cleaning quick and safe. These fluids clean clothes speedily, so that delicate garments need remain in the machine only a few minutes. They leave no telltale cleaning odor.

Questions College Men Ask about working with Du Pont

"WILL I GET LOST IN A BIG COMPANY?"

At Du Pont, every effort is made to see that individual ability is recognized and rewarded. New chemists and engineers work in small groups under experienced supervisors. As aptitude is shown, they are given more responsibility. While offering the broad avenues of promotion that go with size, Du Pont's group system assures college men of the sympathetic, friendly conditions of employment commonly associated with smaller organizations.
