ORGANIZATION PARTIES

1. During the past few months there has been an increasing number of complaints from parents of students and from supporters of the college concerning organization parties held off the campus. These complaints have pointed out that many students are being forced to attend these parties, either directly or indirectly, when they are neither financially nor scholastically able to do so.

Others indicate that in some instances parties have been held in night clubs which do not measure up to the standards of respectability expected of an organization representing A. & M. College. It should be pointed out, too, that many deficient students appearing before the executive committee give as one of the principal reasons for low grades the fact that they were attending out of town organization parties when they should have been studying.

2. In view of these complaints, and in the best interests of the college as a whole, it is necessary for this office to announce that in the future all organization parties will be held on the campus. The Assistant Directors of Student Affairs will assist in any way possible in making the necessary arrangements for these parties.

3. In keeping with the policy of giving full support to authorized social functions of the student body, attention is directed to the fact that in the future there will be no organization parties that will conflict with a previously approved social function.

4. Organization commanders will be held accountable for strict compliance with the provisions of this memorandum.

J. W. ROLLINS,
Dean of Men.

Vice Director Student Affairs.
