## Tennis Team Plays First Game April 3

The Texas Aggie tennis schedule for the current season has been completed and it books the team to open with Sam Houston State College here on April 3 and close with the Southwest Conference meet on May 9-11 at a site to be announced later.

Coach Manning Smith has two of his lettermen back and in addition has picked up several other new men who are battling for regular assignments. Guillermo Elizondo, Mexico, DF, No. 1 man of last year, probably will hold that job this year, but is receiving stiff competition from Bill Gilbert, Dallas, who was No. 3 last year. Beyond that Coach Smith has not rated the players but hopes to get a good line on them in the Sam Houston match.

Players contending for the regular positions include: Arnold Barton, Dallas; Phillip (Flip) Becker, Fort Worth; Lee Durst, Alice; Robert Huston, Stamford; Dan Langford, Stamford; Thomas Metcalf, Franklin; Robert Peterson, Dallas; J. T. Raper, Waco; and Bennie Stanford, Dallas.

The schedule is as follows; April 3—Sam Houston State College at College Station; April 6—SMU at Dallas; April 10—TCU at College Station; April 15—River Oaks Tournament at Houston; April 20—University of Texas at Austin;

# Aggie Nine Meets Southwestern Here

## To Try for Sixth, Seventh Straight 1946 Victories

The Texas Aggie baseball team, winner of its first five games, will play host to Southwestern of Georgetown today and Saturday. These two teams have met twice before with the Aggies coming out on top both games.

Earl Beesley will probably get the starting nod from Coach Dim-

mitt in today's game, and Elmer Purtle or Johnnie Shufford will probably toe the mound for the Ags tomorrow.

Game time for both contests is set for 3 o'clock, and each game will be carried by station WTAW of College Station with Cecil Beardon calling the play-by-play account.

In a game with Camp Hood Wednesday, the Aggies came out on the long end of the score, 8-4.

Al Newman got credit for the win, allowing the soldiers three

hits in five innings.

The Aggies scored in the first when a triple off the bat of Peck Vass brought Coton Lindloff home from a free trip to first. In the third, another walk by Lindloff and singles by Hub Moon and Vass upped the score by two tallies. Again in the fourth, two more runs crossed the plate, and in the seventh, the final two were scored off hits by Vass, Moon, and Pressly, and another walk to Lindloff.

## Huntsville Aggies Select Duchess

Miss Nell Wilson, a senior at Sam Houston State Teachers College, will be the Duchess at the annual Cotton Ball which will be staged at A&M College on April 11. Miss Wilson was selected by the Huntsville A&M Club to represent them at this ball.

Miss Wilson is the daughter of Mr. and Mrs. T. F. "Puny" Wilson of Huntsville. Puny Wilson, Class of 1924, was an outstanding football player at Texas A&M four full years and is the Head Coach at Sam Houston State Teachers College which position he has held since 1938.

## W. D. Scoates Joins Eng. Exp. Station

William D. Scoates, recently released from the air forces, has been appointed administrative assistant in the Texas A. & M. College Engineering Experiment Station, it is announced by Dr. A. A. Jakkula, acting vice director of the station.

Scoates graduated from Texas A. & M. College in 1935 and received his M.S. degree from Iowa State College in 1943. He did teaching and research work and was an engineer for the Rural

Electrification Administration before entering the armed service. He is a son of the late Dan Scoates, long-time head of the department of agricultural engineering at Texas A. & M. College.

## Management Course Has 1600% Jump

Enrollment in the comparatively new department of management engineering at Texas A. & M. College increased 1600 per cent in the last year, the registrar's office revealed today.

However, the head of the management engineering department, V. B. Faires, was quick to point out that this meant an increase from two to 34 students, and construed it only as a sign that larger future enrollment may be expected in the department.

Management engineering is designed to provide engineers with sound working knowledge of methods management, production and safety in modern plants. Courses are open to all engineering students in the latter part of their junior year, or an engineering graduate may achieve a B. S. in management engineering with an additional year's work.
