A new processing line has been arranged to speed up production and a large pack of canned goods is expected.

As in former years, the individuals are to bring their fruit or vegetables to the Agriculture Engineering Building between the hours of 7 a.m. to 9 a.m. daily except Saturday and Sunday. NO FRUIT OR VEGETABLE SHALL BE ACCEPTED FOR PROCESSING AFTER 9 A. M.

It is imperative that all fruits or vegetables brought to the cannery be pregraded by the grower. This applies particularly to tomatoes, as any tomato which has any green color showing will not be acceptable for canning whole or in juice.

There will be no individual lots of produce canned. All fruits or vegetables shall go into one common process and the individual shall receive a prorata share. It is therefore imperative that pre-selection be done. The Cannery shall not accept less than bushel lots of any commodity.

In the processing of green beans, the grower shall snip and string the beans as facilities for this process are not available.
