

OPEN LETTER (Continued From Page 2)

ASTP students must feel that they are unwanted here at Aggieland. This feeling has always been the case when someone was out of place. This doesn't mean that every army man schooling here is out of place nor does it mean that such a program shouldn't be located here.

To make Aggies of these men would be quite a job with the living arrangement the way it is organized. But to make decent men is not an impossible one, merely a different one.

Plas have gone out time and again for rightful sharing of the walk and road. An attempt has been made to restore the "howdy" habit here on the campus.

Some departments, rest rooms which were opened for convenience of the students have been brought up for discussion to decide as to whether or not they should be closed and locked again for sanitary sake.

Recently in one, a small sign was posted re-

questing that all students assist in keeping the room clean. Beneath the sign someone has scrawled "Yea Tulane." Does this look like the work of an Aggie?

The ASTP students are not in foreign countries. Perhaps Texas is "foreign service" to some of them, but Texas is still in the United States. There must still be abidance by the general rule that we were put to while in England, France, Australia, India, China and many other countries.

To the ASTP students—you are not lower than anyone else on the campus merely because you are still in and we are out, because you are in uniform and we are not, or because you are not an Aggie and we are. We wore the uniform proudly for many years and through many strange lands.

LETTERS (Continued from Page 2)

at A. & M., I roomed with two other students in Puryear. We were not uncomfortably crowded. It was a bit unhealthy; I caught the measles. Men who were living two to a room had the measles also.

In regards to education, a third person will not be detrimental if you are sincere in getting an education. I have found out that a blaring radio, a fuse-blower, or a friend insisting on going out to Uncle Ed's was far more detrimental.

I am so thankful for getting through 51 months active duty and having an opportunity to attend a school that has done as much as possible under the existing circumstances that I can not "bleed" at how it is being run.

Sincerely (Name withheld at writer's request.)
