(Continued from Page 3)

The try for the extra point was successful and the score was Aggies 13, SMU 7.

The game turned into a kicking duel for a while after a surprise quick kick by Cunningham left the ball on the Aggie 4 yard line. Beesley kicked out to the 26 and the Ponies carried back to the 5 before being stopped. A 28 yard kick by Beesley left the Ags momentarily out of danger but on a return punt the Ponies left the ball on the 15.

Immediately following a pass from Cunningham to Channel from the Ag 25 hit pay dirt and the kick was good leaving the score 13-13.

The second half started with the

Ags receiving and Bosewell picking up 15 yards and a first down in two line drives followed by a hand-off from Burch to Boyles good for 2 yards and another from Burch to Boswell for another 7 yards. Burch then punted the ball from the Ag 46 to the SMU 25.

Knight, Brown and Pollock broke through the SMU defensive to set Cunningham back for an 8 yard loss. Following Yeagain set Cunningham back for another yard. Boswell took the Ponies' punt and ran it up 4 yards before being tackled. Anderson carried around right end for 4 yards and two consecutive hand-offs from Burch to Burch and Anderson picked up 5 and 7 yards respectively. Passes from Burch to Boswell and Frey netted 18 yards and Anderson carried over right guard for another

hospitals may be utilized when a bed in a hospital under direct jurisdiction of the Veterans Administration is not feasibly available in a medical emergency, when travel of the ill or injured trainee to a Veterans Administration hospital is interdicted.

4. Trainees under Public Law 346, Part VIII trainees receiving education under the GI Bill of Rights are not entitled to be hospitalized in a contract or private hospital for any condition other than a service-connected disability, but such trainees are eligible for hospitalization for any disability if a bed is available in a Veterans Administration hospital.

5. Women veterans. Women war veterans needing treatment for a condition either service-connected or not service-connected may be authorized admission to a private hospital, if a Government facility is not feasibly available, for any disease or disability except pregnancy or childbirth.

**Out-Patient Treatment**  
Out-patient treatment, medical or dental, including necessary medicines, prosthetic appliances and other supplies, may be authorized by the Chief, Out-Patient Service, to those persons who have served during a period of war, who were discharged under other than dishonorable conditions, who are in need of treatment for a disease or injury which has been determined to have been incurred or aggravated in active Federal Service.

Where it is established that the individual was treated during a period of service for a disability, or if he makes a written statement over his signature that such disability or disease is service-connected, authorization for out-patient treatment will be issued for such disability or disease as prima facie eligibility, pending adjudication as to whether the condition is service-connected or non-service connected. Once a determination of non-service connection has been made by a rating board, eligibility for continued out-patient treatment will cease. Their treatment may be authorized by a designated or private physician of their community.

Part VIII trainees and women war veterans are not entitled to out-patient treatment for any condition other than a service-connected disability, or a condition upon which prima facie eligibility has been established.
