

### Civil War On BATT Sports Staff

This column as any reader can see is not in accord with the opinion expressed in this same position last Friday afternoon. However, since this is a very highly lady to agree? This column does not agree? ever, since this is a very highly contested issue, I have decided to express my personal opinion on the subject just as a few of the complete BATT staff, but only that of yours truly.

### Norton and Meyer Tops In SWC

Firing the coaches seems to be in the air after this past hectic football season and there are many here at Aggieland who seem to have caught the fever. BUT WHY? Admittedly Coach Norton had a very poor season but his past record shows that he is a very capable coach and one of the most successful in this part of the country. Coach Norton's record shows

### Meyer Only Other With Top Team

Norton has won as many three years expiring? Surely, if championships as any other coach during the period that he has been at Aggieland, and has had one team named National Champs and the only other SWC coach to accomplish this foot is the appraise.

This throws the monkey back to accomplish this foot is the appraise.

Dutchman from Ft. Worth.

Looking at these statistics one should see that A&M, has one of the most capable men in the business at the helm of it's athletic program, and I for one can see no reason for changing. If we were to change it is a cinch that we could not hope to get one half so good. More than likely we would only be able to get a guy named Joe, as none of the top flight coachs in the country would accept the job if we were to break our present coaches in the country would accept the job if we were to break our present coaches not coaches in the country would accept the job if we were to break our present coaches on the contract. It would be felt that contracts mean nothing here at A&M.

If our coach is as bad as everyone makes out why does he have a five year contract that lacks are five year contract that lacks.

# Four Schoolboy In State Race

The quarter-finals in the state schoolboy football race were reeled off last Saturday afternoon with Highland Park of Dallas, Odessa, Jefferson of San Antonio and Luf-285 kin emerging victorious, and there-200 by winning the honor of entering 200 the state semi-finals next Saturday.

Highland Park took North Side of Ft. Worth 19-7 after scoring two touchdowns in the last half. The game was tied up at the half seven all, but the Scotties finally wore down the North Siders and emerged the winners.

.000 Odessa had the easiest day of all Saturday, as they romped over Wichita Falls 21-0. This will put

and was replaced by Mrs. F. B. Clark.

Reports were made on the financial outcome of the dog show held in November and plans were made for the spring show.

Resentatives at the annual meeting of the American Society of Mechanical Engineers at New York City, December 2-5. Other ASME members on the faculty were unable to make the trip due to press of work.

## Cagers Weakened By Injuries, Colds; Also Handicapped By Lack Of Height

The Texas Aggie basketball team won the first two games of their Eastern tour by 52-47 over Sienna and 59-44 over Morehead Teachers College but they dropped the last four straight. Coach Karow said that lack of height and the travel weariness had taken a heavy toll on the team. Three of the members of the traveling squad were listed on the sick list before the Kentucky game and their absence may have been one of the reasons for the easy win that the Mountaineers took from the Aggie squad. The three players that were placed on the inactive list were Batey with a bad cold, Collingsworth with a sprained ankle and Klutz with a bad cold.

The last four games the Aggies

seven all, but the Scotties finally wore down the North Siders and emerged the winners.

Odessa had the easiest day of all Saturday, as they romped over Wichita Falls 21-0. This will put the Odessa eleven against the Scotties next week, but the meeting place has not been decided as yet. It will be decided early in the Week by the flip of a coin, as the Odessa team has stated that it is not interested in a guarantee.

Jefferson in beating Lamar wonthe chance to take on Lufkin in the semi-finals next week, and this game will probably be played in Houston, but it is not official as yet. Lufkin handed the Waco eleven a 36-6 drubbing, and Jefferson came back to overtake Lamar and take the game by a 13-6 score. Lamar scored first in this game, but they weren't up to holding it.

James W. Stegall of C Infantry carried top honors in the annual Intranural Cross Country meet that was held Saturday, December that was hela

### DESIGNER

ALAN HOWARD **PURDUE '27** 

IN CHARGE of a group of G-E gas-tur-bine engineers and technicians, Alan Howard has directed the design and development of two General Electric engines that are today powering some of our fastest planes.
One, the Propjet, is the first propeller-

drive gas turbine in the world. Alan's second design, the T-G 180, is a pure jet engine, a departure from earlier jets in that it is designed on "axial-flow" principles which make possible a super-streamlined

Gas-turbine engineering is, of course, a highly specialized field. Alan, however, is thankful today not so much for any special knowledge he learned in college, but for the solid understanding of engineering fundamentals which he gained as he worked for his B.S. degree at Purdue.

When, in 1941, Alan Howard undertook the design of the Propjet and the axial-flow engines, this sound training in engineering principles, followed by his years of practical experience with G.E., fitted him well for

Next to schools and the U.S. Government, General Electric employs more college engineering graduates than

GENERAL ELECTRIC

Purdue, Alan came on "Test" with G.E.

Today he designs engines like the Propjet, which provides both propeller-drive, jet thrust.

## Who said handkerchief gifts were all alike?

He's sure to be pleased as Punch if you give him Arrow handkerchiefs. Designed by the smartest stylists, they have their own distinctive patterns . . . to match or blend with Arrow ties and shirts. And all Arrow handkerchiefs are man-size, too! Come in today and see our swell selection.
